INTRODUCTION

The management of each agency is charged with the fiduciary responsibility to safeguard public funds and to use resources wisely. A major factor in fulfilling this responsibility and achieving agency goals is to ensure that adequate internal controls exist. The prevention and elimination of conflicts of interest is an example of a control objective that, when in place and effective, aids in the achievement of an agency's goals.

Conflict of interest laws, rules and policies govern interactions between public employees' financial interests and the public interest. Arizona's conflict of interest statutes, A.R.S. §§ 38-501 through 38-503, <http://www.azleg.gov/arstitle/>, apply to "all public officers and employees...of the State."

Violations of the conflict of interest statutes, rules or policies may result in disciplinary action, up to and including dismissal, as well as criminal prosecution.

Certain terms have specific legal definitions that are contained in A.R.S. § 38-502, <http://www.azleg.gov/viewdocument/?docName=http://www.azleg.gov/ars/38/00502.htm>, and in the SAAM Glossary, Section 9505. Such terms include "substantial interest" and "remote interest."
