Katie Hobbs Governor

Ben Henderson Interim Director

## ARIZONA DEPARTMENT OF ADMINISTRATION

OFFICE OF THE DIRECTOR 100 NORTH FIFTEENTH AVENUE • SUITE 403 PHOENIX, ARIZONA 85007 (602) 542-1500

October 18, 2023

The Honorable Katie Hobbs, Governor of the State of Arizona; Members of the Legislature; Robert M. Brutinel, Chief Justice of the Supreme Court; and Citizens and Taxpayers of the State of Arizona

Ladies and Gentlemen:

It is our pleasure to transmit to you the Annual Comprehensive Financial Report (ACFR) of the State of Arizona for the fiscal year ended June 30, 2022. Responsibility for the accuracy of data, as well as the completeness and fairness of presentation, including all disclosures, rests with the State's management. The data presented in this report, to the best of our knowledge and belief, is accurate in all material respects and is reported in a manner which fairly presents the financial position and results of operations of the State. All disclosures needed for the reader to gain a reasonable understanding of the State's financial activities have been included.

U.S. generally accepted accounting principles (GAAP) require that management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The State's MD&A can be found immediately following the Independent Auditors' Report.

## **INTERNAL CONTROLS**

The State is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the State are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with U.S. GAAP. Internal accounting controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. In the opinion of management, the State's internal controls are adequate to provide reasonable assurance that these objectives are met.

## **INDEPENDENT AUDIT**

An annual financial audit of the financial reporting entity of the State is completed each year by the Arizona Auditor General in conjunction with other audit firms. Their audit was conducted in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Their report on the basic financial statements has been included in the financial section of this report. In addition, A.R.S. § 41-1279.03 requires at least a biennial single audit by the Arizona Auditor General. The Single Audit will be issued as a separate report.

## FINANCIAL REPORTING ENTITY OF THE STATE

The accompanying ACFR includes all funds of the State (primary government), as well as its component units. Blended component units, although legally separate entities, are in substance part of a government's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units are shown separately to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of the primary government. Discretely presented component units prepared in accordance with the Governmental Accounting Standards Board (GASB) are reported in a separate column in the government-wide financial statements. Discretely presented component units grepared in accordance with the Financial Accounting Standards Board are presented as separate financial statements immediately following the government-wide financial statements to emphasize that they are prepared in accordance with accounting standards other than those promulgated by the GASB.

The criteria for inclusion in the financial reporting entity and presentation are defined by the <u>Codification of Governmental</u> <u>Accounting and Financial Reporting Standards</u>, issued by the GASB, (Section 2100). Note 1 of the Notes to the Financial Statements explains which component units are included in the financial reporting entity of the State.

## ARIZONA

The State of Arizona was admitted to the Union as the 48<sup>th</sup> state in 1912. Arizona is the sixth largest state by area, with 113,909 square miles. Arizona is known for the Grand Canyon, one of the Seven Wonders of the World, and its cacti and other desert landscape. A number of national forests, four national parks, eighteen national monuments, and over 20 million acres of Native American reservations and tribal communities are located in Arizona.

## **PROFILE OF THE GOVERNMENT**

The State has three branches of government: Executive, Legislative, and Judicial. The Executive branch is headed by a Governor elected for a four-year term. Arizona's Legislative branch is bicameral, consisting of a thirty-member Senate and a sixty-member House of Representatives. Legislators are elected for two-year terms. The Judicial branch consists of the Arizona Supreme Court, Court of Appeals (with two divisions), Superior Court, justice of the peace courts, and municipal courts. The Superior Court, justice of the peace courts, and municipal courts are excluded from the financial reporting entity of the State as these entities do not meet GASB criteria for inclusion. The Supreme Court is the highest court in the State and is comprised of seven justices. Article 6, Section 5 of the Arizona State Constitution describes the types of cases and matters handled by the Supreme Court.

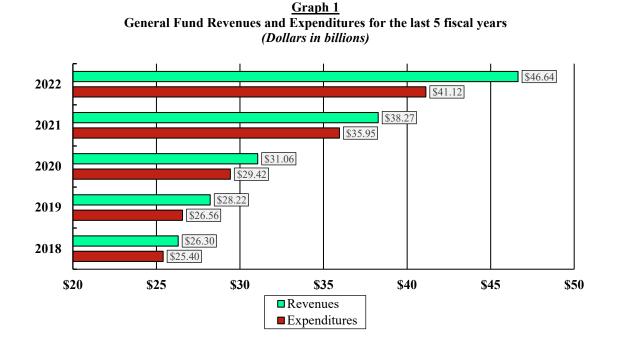

The services provided by the State are administered through various agencies, departments, boards, commissions, councils, administrations, offices, and institutions of higher learning. These services include: (1) General Government, (2) Health and Welfare, (3) Inspection and Regulation, (4) Education, (5) Protection and Safety, (6) Transportation, and (7) Natural Resources.

## **BUDGETARY CONTROLS**

The State adopts budgets by departments and program which ties to funding sources. The State's legally adopted budgets are not done at the individual fund level. Funds established in statutes may be subject to legislative appropriation, not subject to legislative appropriation, or partially subject to legislative appropriation. Thus, many funds have both legislative appropriation and non-appropriation. Budgetary control is maintained through Legislative appropriation and the Executive branch allotment process. The Governor is required to submit an annual budget to the Legislature. The budget is legally required to be adopted through the passage of appropriation bills by the Legislature and approved by the Governor. The appropriated funds are controlled by the Executive branch through an allotment process. This process generally allocates the appropriation into quarterly allotments by legal appropriation level. The State also maintains an encumbrance accounting system to further enhance budgetary control. Encumbered amounts generally lapse as of the end of the fiscal year, with the exception of capital outlay and other continuing appropriations that continue from year to year. The State's budgetary policies are explained in detail in the Required Supplementary Information.

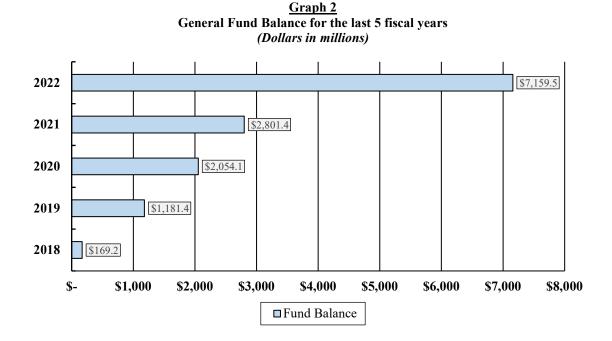

## **GENERAL FUND BALANCE**

Graph 1 summarizes the General Fund revenues and expenditures for the last five fiscal years. This graph does not include transfer amounts relating to other fund types and other financing sources (uses), which affect the ending fund balance.

The General Fund ended the June 30, 2022 fiscal year with a total fund balance of \$7.2 billion. This compares to the previous year's total fund balance of \$2.8 billion.

Graph 2 summarizes the General Fund Balance for the last five fiscal years:

## **ECONOMIC CONDITION AND OUTLOOK**

*The following economic summary is based on the Industry and Occupation Employment Projections released on February 16, 2023, by the Office of Economic Opportunity.* 

The employment projections estimation methodology is described below:

- The short-term projections process estimate employment eight quarters (two years) from the base period
  - Historic Quarter 2 2022 employment data are used as the base year of the forecast
    - This is the most current data published by the Bureau of Labor Statistics (BLS) Quarterly Census of Employment and Wages (QCEW) program
  - Employment was projected through Quarter 2 2024
- Projected employment estimates are created using historical employment trends
- Estimates are refined by a review of current U.S. and Arizona economic trends
- The principal data source used to create the employment projections is the QCEW data program
- The QCEW industry classification structure differs slightly from the Center for Economic Studies (CES) industry classification structure
  - QCEW: Employment for federal, state and local government establishments is categorized in the industry that best describes the business activity
  - CES: Employment for federal, state and local government establishments is categorized in the government industry sector, regardless of business activity

Industry projection methodology included and excluded data as follows:

- Industry Projections Estimates Include:
  - Nonfarm employment
  - Self-employed workers
  - Private household workers
  - Railway workers
  - Religious organization employees
  - Farm workers
- Industry Projections Estimates **Exclude**:
  - Unpaid family workers
  - Active duty military service personnel

Economic assumptions influencing the projections are as follows:

- No major economic or political disruptions will occur
- Government agencies will operate within their budgets
- Population distribution will not differ significantly from the base-year distribution
- The U.S. economy framework will not differ significantly from its current state
- Long-term employment patterns will continue in most industries

The following are highlights of Arizona's industry employment forecast:

- Arizona employment is projected to grow by 90,625 jobs or 1.4% annually, to 3,332,012 jobs in Q2 2024 from 3,241,387 jobs in Q2 2022
- Ten of the eleven industry sectors are projected to add jobs
- Trade, Transportation and Utilities is projected to add the largest number of jobs (18,557 jobs, or 1.5% annualized growth)
- Manufacturing is projected to record the largest percentage gain, growing 3.4% annually (13,300 jobs)
- Financial Activities is projected to record a loss (-2,796 jobs, or -0.6%)

The following table summarizes Arizona's Supersectors' employment growth rates:

| Employment Supersectors            | Numeric Change | Percentage Change |
|------------------------------------|----------------|-------------------|
| Trade Transportation and Utilities | 18,557         | 1.5%              |
| Leisure and Hospitality            | 17,458         | 2.4%              |
| Professional and Business Services | 17,457         | 1.8%              |
| Education and Health Services      | 15,822         | 1.2%              |
| Manufacturing                      | 13,300         | 3.4%              |
| Information                        | 3,514          | 3.3%              |
| Construction                       | 2,880          | 0.7%              |
| Other Services                     | 2,449          | 1.2%              |
| Government                         | 1,392          | 0.4%              |
| Self Employed                      | 344            | 0.1%              |
| Natural Resources and Mining       | 248            | 0.3%              |
| Financial Activities               | -2,796         | -0.6%             |

## Arizona Supersector Employment (2022 to 2024)

## MAJOR INITIATIVES

The Major Initiatives for the year ended June 30, 2022, were as follows:

- The fiscal year 2022 budget appropriated \$1,025,000 and 6.0 FTE positions to the Department of Liquor License and Control to administer To-Go Cocktail licenses to qualifying restaurants, bars, and liquor stores.
- The State Land Department was appropriated \$1,500,000 from the General Fund to complete due diligence projects to prepare land for auction.
- The Department of Juvenile Corrections received \$1,582,600 to provide Youth Correctional Officers a 5% raise as well.
- The fiscal year 2022 budget appropriated \$2,500,000 from the General Fund to replace aging equipment in the State Agricultural Lab.
- The fiscal year 2022 budget increased the Department of Environmental Quality's budget by \$3,700,000 to cover increased contractor payments for vehicle emissions testing.
- \$5,000,000 was appropriated from the General Fund to the Water Infrastructure Finance Authority to provide grants to select counties for water project grants.
- The Arizona Commerce Authority received a \$5,000,000 appropriation increase to distribute to research centers specializing in blockchain research and wearable technology.

- The Arizona Department of Transportation (ADOT) was appropriated \$6,134,900 to provide an average 9% salary increase for targeted positions.
- The fiscal year 2022 budget increased the Board of Regents' budget by \$7,500,000 to establish a new financial assistance program for qualifying students titled the Arizona Promise Program.
- Nearly \$10,000,000 was appropriated to the Department of Veteran's Services to study the financial impact of opening 2 new veterans' homes in Flagstaff and Yuma.
- The Department of Economic Security (DES) was appropriated an additional \$13,040,800 from the General Fund to accommodate caseload growth within the Division of Developmental Disabilities (DDD).
- The Arizona Health Care Cost Containment System (AHCCCS) received a \$13,300,000 increase for Arizona Long Term Care System (ALTCS) provider rate increases.
- \$13,774,100 and 29.0 FTE positions were appropriated to the Department of Public Safety (DPS) to manage, administer, and perform IT support for a new body-worn camera program.
- Nearly \$31,000,000 was appropriated to the Department of Corrections, Rehabilitation & Reentry (DCRR) to provide a 5% salary increase to all Correctional Officers.
- \$50,000,000 was appropriated to Arizona Department of Education (ADE) to increase Basic State Aid funding for special education.
- AHCCCS saw an increase of \$60,000,000 from Federal Medicaid Authority in FY 2022 for an 1115 waiver amendment to expand AHCCCS housing services.
- The fiscal year 2022 budget increased the ADE budget by \$86,491,300 for a 1.21% inflation increase in the per pupil base level. Additionally, the ADE budget was increased by \$81,682,300 for enrollment and Empowerment Scholarship Account growth.

## AWARDS AND ACKNOWLEDGMENTS

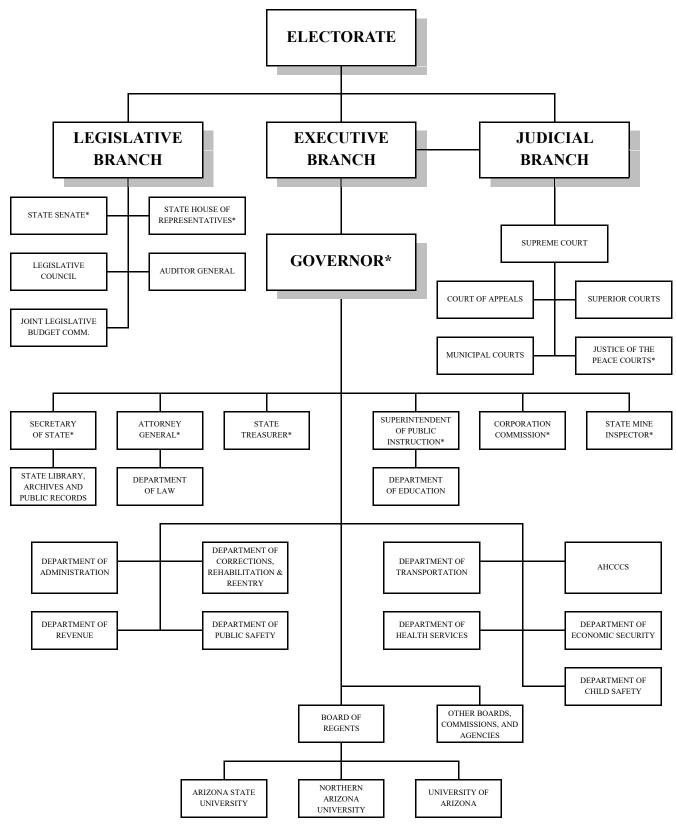

The State of Arizona will not submit its ACFR to the Government Finance Officers Association (GFOA) of the United States and Canada for the Certificate of Achievement for Excellence in Financial Reporting for the fiscal year ended June 30, 2022, as it did not complete the ACFR within the 12 months after fiscal year end, due to late receipt of audited financial statements and other required financial information from state agencies.

We wish to express our sincere appreciation to the many individuals whose dedicated efforts have made this report possible. The preparation of this report could not have been accomplished without the professionalism and dedication demonstrated by the financial and management personnel of each State agency, board, commission, council, administration, office, institution of higher education, and all other organizations within the reporting entity.

Elizabeth Alvarado-Thorson Cabinet Executive Officer Executive Deputy Director

Michael Wisehart Deputy Director | State Comptroller

# INDEPENDENT AUDITORS' REPORT

## **INDEPENDENT AUDITORS' REPORT**

MELANIE M. CHESNEY DEPUTY AUDITOR GENERAL

## Independent auditors' report

The Honorable Katie Hobbs, Governor State of Arizona

LINDSEY A. PERRY

AUDITOR GENERAL

The Honorable Warren Petersen, President Arizona State Senate

The Honorable Ben Toma, Speaker Arizona House of Representatives

The Honorable Robert M. Brutinel, Chief Justice Arizona Supreme Court

## Report on the audit of the financial statements

## Opinions

We have audited the accompanying financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

We did not audit the financial statements of certain departments, the State's retirement systems and plans, and certain discretely presented component units, which account for the following percentages of the assets and deferred outflows of resources and revenues, additions, and other financing sources, as applicable, of the opinion units affected:

| Opinion units affected  | Assets and<br>deferred outflows<br>of resources | Revenues,<br>additions, and other<br>financing sources |
|---|---|--|
| Government-wide state   | ements  |  |
| Governmental activities   |   |  |
| Arizona Department of Transportation  | 45.40%  | 8.34%  |
| Arizona Health Care Cost Containment System   | 7.02%   | 34.34%   |
| Early Childhood Development and Health Board  | 0.54%   | 0.24%  |
| Business-type activities  |   |  |
| Arizona Correctional Industries   | 0.32%   | 0.66%  |
| Arizona Department of Transportation  | 0.00%   | 0.00%  |
| Arizona State Lottery   | 1.37%   | 14.38%   |
| Aggregate discretely presented component units  |   |  |
| Arizona Commerce Authority  | 2.73%   | 8.19%  |
| Arizona Department of Insurance and Financial Institutions                              |   |  |
| Guaranty Funds  | 5.98%   | 1.77%  |
| Arizona Power Authority   | 0.57%   | 1.96%  |
| Greater Arizona Development Authority   | 0.21%   | 0.00%  |
| Rio Nuevo Multipurpose Facilities District  | 3.31%   | 1.63%  |
| Universities—Affiliated Component Units   | 68.14%  | 79.65%   |
| Water Infrastructure Finance Authority  | 17.09%  | 3.69%  |
| Fund statements   | 3   |  |
| Major fund—General Fund   |   |  |
| Arizona Health Care Cost Containment System   | 19.61%  | 37.29%   |
| Major fund—Transportation and Aviation Planning, Highway<br>Maintenance and Safety Fund | 100.000/  | 400.000/   |
| Arizona Department of Transportation  | 100.00%   | 100.00%  |
| Aggregate remaining fund information  |   |  |
| Arizona Correctional Industries   | 0.06%   | 0.43%  |
| Arizona Department of Transportation  | 0.12%   | 3.13%  |
| Arizona Health Care Cost Containment System   | 0.25%   | 5.97%  |
| Arizona State Lottery   | 0.25%   | 9.28%  |
| Arizona State Retirement System   | 61.35%  | 19.18%   |
| AZ529   | 1.82%   | 1.05%  |
| Corrections Officer Retirement Plan   | 4.92%   | 4.85%  |
| Early Childhood Development and Health Board  | 0.40%   | 0.88%  |
| Elected Officials' Retirement Plan  | 0.44%   | 0.31%  |
| Public Safety Personnel Retirement System   | 17.37%  | 18.15%   |

Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those departments, retirement systems and plans, and discretely presented component units, are based solely on the other auditors' reports.

## Basis for opinions

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the U.S. Comptroller General. Our responsibilities under those standards are further described in the auditors' responsibilities for the audit of the financial statements section of our report. We are required to be independent of the State and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to

provide a basis for our audit opinions. The other auditors did not audit, in accordance with *Government Auditing Standards*, the financial statements of the Arizona Power Authority, AZ529, and the Universities— Affiliated Component Units, except for those of the Arizona State University Preparatory Academy, Inc.

## Emphasis of matter

As discussed in Note 1.R., Note 4 and Note 8 to the financial statements, for the year ended June 30, 2022, the State adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

As discussed in Note 1.R. and Note 8 to the financial statements, for the year ended June 30, 2022, the State restated beginning net position of Pension and Other Employee Benefit Trust Funds within the Aggregate Remaining Fund Information opinion unit due to a change in reporting entity. Our opinions are not modified with respect to this matter.

## Management's responsibilities for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we express no such opinion.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
raise substantial doubt about the State's ability to continue as a going concern for a reasonable period
of time.

We are required to communicate with those charged with governance regarding, among other matters, the audit's planned scope and timing, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Required supplementary information

U.S. generally accepted accounting principles require that the following be presented to supplement the basic financial statements:

| Required supplementary information  | Pages     |
|---|-----------|
| Management's discussion and analysis  | 21 - 33   |
| Budgetary comparison schedules  | 165 - 183 |
| Infrastructure assets   | 184 - 187 |
| Schedules of the State's proportionate share of the net pension<br>liability—cost-sharing pension plans | 188 - 191 |
| Schedules of changes in the State's net pension liability and related<br>ratios—agent pension plans     | 192 - 195 |
| Schedules of State pension contributions  | 196 - 201 |
| Notes to required supplementary information—pension plan schedules                                      | 202 - 203 |
| Schedule of changes in the State's total OPEB liability and related ratios                              | 204       |

Such information is management's responsibility and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary information

## Combining and individual nonmajor fund financial statements and schedules

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not required parts of the basic financial statements. Such information is management's responsibility and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the accompanying combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance on the other information.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Other reporting required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance.

Lindsey A. Perry

Lindsey A. Perry, CPA, CFE Auditor General

# MANAGEMENT'S DISCUSSION AND ANALYSIS

## MANAGEMENT'S DISCUSSION AND ANALYSIS

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the State of Arizona's (the State's) financial performance, providing an overview of the activities for the fiscal year ended June 30, 2022. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section. The completeness and fairness of the following information is the responsibility of the State's officials and management.

## FINANCIAL HIGHLIGHTS

#### Government-wide:

- The assets and deferred outflows of resources of the State exceeded liabilities and deferred inflows of resources at the close of the fiscal year by \$46.4 billion (reported as net position). Of this amount, a surplus of \$6.2 billion exists for unrestricted net position, \$13.4 billion is restricted for specific purposes (restricted net position), and \$26.8 billion is net investment in capital assets.
- Beginning net position has been restated (increased) by \$21.7 million due to a change in reporting entity, corrections of errors, changes in accounting principal, and a change in accounting estimate during the current fiscal year as described further in Note 8. After adjustments, the State's total net position increased in fiscal year 2022 by \$8.5 billion. Net position of governmental activities increased by \$7.0 billion, while net position of the business-type activities increased by \$1.5 billion.

## Fund Level:

- Beginning fund balance has been restated (decreased) for governmental funds by \$29.9 million due to a correction of an error and a change in accounting principle as described further in Note 8. After adjustments, the State's governmental funds reported combined ending fund balances of \$18.2 billion, an increase of \$3.5 billion from the beginning of the year. After accounting for non-spendable, restricted, and committed fund balances of \$7.1 billion, \$3.0 billion, and \$2.4 billion, respectively, the State's unassigned fund balance had a surplus of \$5.6 billion, or 31.0% of combined fund balances.
- The Land Endowments Fund reported fund balance at fiscal year-end of \$7.1 billion, a decrease of \$556.4 million during the year. The Land Endowments Fund is used to help finance public education within the State as required by the federal government and the State's Constitution.
- Beginning fund balance has been restated (increased) for enterprise funds by \$93.6 million due to a change in reporting entity, corrections of errors, and a change in accounting principle as described further in Note 8. After adjustments, the enterprise funds reported net position at fiscal year-end of \$5.1 billion, an increase of \$1.6 billion during the year.

## Long-term Debt:

• The State's total long-term primary government debt decreased during the fiscal year to \$6.8 billion, a decrease of \$1.3 billion or (16.0%). Changes during the year included defeasances of \$610.8 million and retirements of \$68.0 million for Certificates of Participation (COPs), and defeasances of \$223.1 million and retirements of \$395.6 million for revenue bonds. Net issuance premiums increases and decreases were \$17.7 million and \$178.0 million, respectively.

More detailed information regarding the government-wide financial statements, fund level financial statements, and long-term debt activity can be found beginning on **page 37**.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is an introduction to the State's basic financial statements, which are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. Required Supplementary Information and other supplementary information are included in addition to the basic financial statements.

## Government-wide Statements (Reporting the State as a Whole)

The government-wide financial statements provide a broad overview of the State of Arizona's finances in a manner similar to private sector business. The financial statements report information about the State, as a whole, and about its activities that should help answer this question: Is the State, as a whole, better or worse off as a result of this year's activities? These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid. The government-wide financial statements include the following:

The Statement of Net Position (pages 37-39) presents the State's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The total of assets and deferred outflows of resources, minus the total of liabilities and deferred inflows of resources, is reported as net position. Over time, increases and decreases in net position measure whether the State's financial position is improving or deteriorating.

The Statement of Financial Position (page 41) presents the State's Universities-affiliated component units' assets and liabilities, with the difference between the two reported as net assets.

The Statements of Activities (pages 42-44) present information showing how the State's net position/net assets changed during the most recent fiscal year. All changes in net position/net assets are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave).

Government-wide statements report three activities:

- *Governmental Activities* Most of the State's basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- *Business-type Activities* The State charges fees to customers to help it cover all or most of the cost of certain services it provides. The State's three universities are examples of business-type activities.
- Discretely Presented Component Units Component units are legally separate entities for which the State is considered to be financially accountable, or organizations that raise and hold economic resources for the direct benefit of the State. The Arizona Finance Authority, the Arizona Power Authority, the Rio Nuevo Multipurpose Facilities District, the Arizona Commerce Authority, the Department of Insurance and Financial Institutions Guaranty Funds, and the Arizona Public School Credit Enhancement are discretely presented component units reported by the State. The State has included component units affiliated with the Universities whose financial statements are prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP), as adopted by the Financial Accounting Standards Board. These organizations include the Arizona State University Enterprise Partners, the University of Arizona Foundation, and other non-major component units affiliated with the Universities. Financial statements for these organizations are presented immediately following the government-wide statements to emphasize that they are prepared in accordance with accounting standards other than those promulgated by the Governmental Accounting Standards Board (GASB), and include a statement of financial position (page 41) and a statement of activities (page 44). See pages 69-74 and 147-162 for more information on discretely presented component units.

## Fund Financial Statements (Reporting the State's Major Funds)

The fund financial statements begin on **page 46** and provide detailed information about the major individual funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. In addition to the major funds, **page 208** begins the individual fund data for the non-major funds. The State's funds are divided into three categories - governmental, proprietary, and fiduciary - each category uses different accounting approaches.

*Governmental funds* — Most of the State's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of the State's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. This report includes two schedules (pages 48 and 52-53) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) reported on the appropriate government-wide statement.

## Governmental fund financial statements can be found on pages 46-47 and 50-51 of this report.

*Proprietary funds* — When the State charges customers for the services it provides, whether to outside customers or to other agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting; the same method used by private sector businesses. Enterprise funds report activities that provide supplies and services to the general public - such as the State's Universities. Internal service funds report activities that provide supplies and services for the State's other programs and activities - such as the State's Risk Management Fund. Internal service fund operations primarily benefit governmental funds and are reported as governmental activities on the government-wide statements. The reconciliation between the government-wide financial statements for business-type activities and the proprietary fund financial statements is presented at the end of the proprietary fund financial statements on **pages 55-56**.

## Proprietary fund financial statements can be found on pages 54-59 of this report.

*Fiduciary funds* — The State acts as a trustee or fiduciary for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position beginning on **page 60**. These funds are reported using accrual accounting and include pension and other employee benefit trust funds, private-purpose trust funds, and custodial funds. The government-wide statements exclude fiduciary fund activities and balances, because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

## Fiduciary fund financial statements can be found on pages 60 and 61 of this report.

#### Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Notes to the financial statements begins on page 69 of this report.

#### **Required Supplementary Information**

Following the basic financial statements is additional Required Supplementary Information (RSI) that further explains and supports the information in the financial statements. The RSI includes budgetary expenditure comparison schedules for the General Fund and each major special revenue fund and a reconciliation of the schedules of statutory and U.S. GAAP expenditures for the fiscal year. The RSI also includes up to ten years of information on the State's pension and other postemployment benefits (OPEB) plans, including schedules on the State's proportionate share of the net pension liability, changes in the net pension liability and related ratios, changes in the total OPEB liability and related ratios, and State pension contributions. The RSI also includes schedules of condition and maintenance data regarding certain portions of the State's infrastructure.

#### Required supplementary information begins on page 165 of this report.

#### **Other Supplementary Information**

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, all internal service funds, all fiduciary funds, non-major component units, and non-major universities-affiliated component units. These funds are added together, by fund type, and presented in single columns in the basic financial statements, but are not reported individually, as are major funds on the governmental funds and proprietary funds financial statements. Budgetary expenditure comparison schedules for the non-major special revenue funds and the Land Endowment Fund are also included.

#### Other supplementary information begins on page 208 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The State's overall financial position and operations for the past year for the primary government are summarized, as follows, based on the information included in the government-wide financial statements.

|                                  |    |            | (CA  | pressed in ti | 101 | isanusj     |    |            |    |             |     |             |

## State of Arizona-Primary Government Net Position as of June 30, 2022 and 2021 (expressed in thousands)

For the year ended June 30, 2022, the State's combined net position totaled \$46.4 billion reflecting an increase of \$8.5 billion during the current fiscal year.

The largest portion of the State's net position (57.8%) represents net investment in capital assets of \$26.8 billion. Additions to land, roads and bridges provided the majority of the governmental activities increase in net investment in capital assets of \$732.8 million. The State uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the State's investment in its capital assets is reported net of accumulated depreciation, amortization, and related debt, it should be noted that the resources needed to repay this debt are planned to be provided from other sources, since the capital assets themselves are not typically used to liquidate these liabilities.

The State's net position also included \$13.4 billion (28.8%) of resources that are subject to external restrictions on how they may be used. The governmental activities decrease in restricted net position of \$50.6 million is due to a \$429.4 million decrease in the amount restricted by the State's Constitution for basic education funded by the Land Endowments Fund, a \$694.3 million decrease in the amount restricted for debt service due to \$799.4 million State appropriation in fiscal year 2021 to defease long-term debt versus \$88.4 million State appropriation in fiscal year 2022 to defease long-term debt and \$16.7 million other debt service restriction changes, offset by a \$450.8 million increase in the amount restricted due to the Opioid Settlement, a \$456.0 million increase in the amount restricted for health and welfare programs at AHCCCS, a \$151.7 million increase in the amount restricted for the Unemployment Compensation of \$1.2 billion is primarily due to an increase of \$1.2 billion in the amount restricted for the Unemployment Compensation Fund as the fund experienced a higher change in net position than the prior fiscal year including \$758.8 million in funds received from the American Rescue Plan Act (ARPA) to address negative economic impacts in response to the pandemic and a \$62.0 million one-time supplemental appropriation from the General Fund.

After accounting for the above net position restrictions, the State has a remaining surplus of \$6.2 billion (13.4%) reported as unrestricted net position.

## More detailed information regarding beginning net position restatements is on page 139.

For additional information on the difference between fiscal year 2021 ending net position and fiscal year 2022 beginning net position, see Note 8.

## **Change in Net Position**

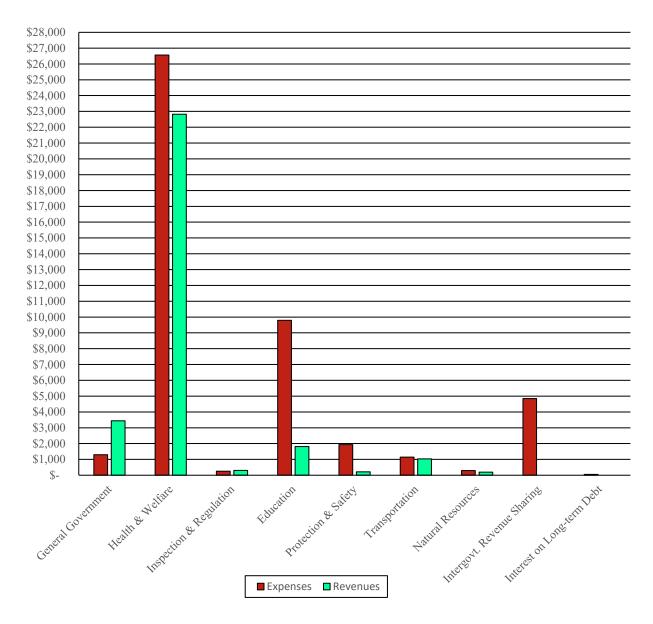

Governmental Activities — Net Position increased by \$7.0 billion representing a 21% increase from fiscal year 2021 due to the State favorably managing its expenditures relative to revenues. Reported sales and income tax revenues grew by \$1.5 billion, or 15% and \$2.0 billion, or 30%, from fiscal year 2021, respectively. The increase in tax collections generally reflects improved economic activity in the State during fiscal year 2022. Net taxable sales rose by 16% from fiscal year 2021, resulting in the increased reported sales tax revenue. The largest increases in net taxable sales during fiscal year 2022 were in retail, restaurants and bars, and remote seller/marketplace facilitator. The increase in income tax revenue for the State during fiscal year 2022 reflects increased withholding, individual, and corporate tax collections. The Permanent Fund investment portfolio experienced a decrease of \$834.9 million in the fair value of investments. Furthermore, operating grants and contributions increased by \$3.1 billion (13%) compared to fiscal year 2021. This increase is mostly attributable to the rise in federal and local government grants received by the AHCCCS due to an increase in the Federal Medical Assistance Percentage (FMAP) rate of 6.2% from the Families First Coronavirus Response Act, effective January 1, 2020, temporary increase of 10% FMAP for home and community-based services from the ARPA signed into law March 11, 2021, and increases in the funding received for the designated State health programs for the targeted investment program, access to professional services initiative and hospital assessment collections. The increase in health and welfare expenses of \$3.9 billion (17%) is mostly due to AHCCCS utilization, capitation rate increases, the COVID-19 behavioral health grants, the Hospital Enhanced Access Leading to Health Improvements Initiative, ARPA directed payments and enrollment growth. The increase in education expenses of \$1.5 billion (19%) was primarily due to increased aid to school districts and charter schools, and for additional school days.

A comparison of the net cost (income) of services by function for the State's governmental activities is shown below for fiscal years 2021 and 2022. Net cost (income) is the total cost less revenues generated by the activities and shows the financial burden placed upon the State's taxpayers by each of these functions.

## Governmental Activities (expressed in thousands)

## Expenses and Program Revenues Governmental Activities for Fiscal Year 2022 (in millions of dollars)

*Business-type Activities* — Net Position increased by \$1.5 billion from fiscal year 2021, or 43%. This increase is primarily due to increases in net position for the Unemployment Compensation Fund and Universities of \$1.2 billion and \$386.8 million, respectively. The Unemployment Compensation Fund's operating revenue and operating expenses decreased by \$7.0 billion and \$8.0 billion, respectively as compared to the prior fiscal year showing signs that the fund is returning to more normal operating levels since the pandemic. Additionally, the fund received \$758.8 million from the ARPA to address negative economic impacts in response to the pandemic and a \$62.0 million one-time supplemental appropriation from the General Fund. Non-operating revenues and transfers from the General Fund more than offset the Universities' operating loss of \$1.7 billion. The Universities' operating revenues increased by \$392.6 million over fiscal year 2021 mostly due to an increase in auxiliary enterprises revenue due to the restoration of pre-pandemic levels of operating activities and an increase in tuition and fee revenues primarily as a result of a rise in full-time student enrollment.

A comparison of the net cost (income) of services by function for the State's business-type activities is shown below for the fiscal years 2021 and 2022. Net cost (income) is the total cost less revenues generated by the activities and shows the financial burden placed upon the State's taxpayers by each of these functions.

# FINANCIAL ANALYSIS OF THE STATE'S FUNDS

The State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** — The general government functions are contained in the general, special revenue, debt service, capital projects, and permanent funds. The focus of the State's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the State's financing requirements.

#### **General Fund**

The General Fund is the chief operating fund of the State. At June 30, 2022, the non-spendable, restricted and committed fund balances were: \$13.4 million, \$1.2 billion, and \$323.4 million, respectively.

The fund balance of the State's General Fund increased \$4.4 billion during the fiscal year. Revenues exceeded expenditures by \$5.5 billion, before other financing sources and uses. However, other financing sources and uses offset this excess by \$1.1 billion, which consisted primarily of transfers to the Universities in support of higher education in the amount of \$937.9 million, offset by legislative transfers from other funds to the General Fund. Overall revenues increased by \$8.4 billion (22%) and expenditures increased by \$5.2 billion (14%) from fiscal year 2021. Primary reasons for increases in fund balance during the fiscal year are increased sales and income taxes and increased intergovernmental revenue due to a rise in federal government funding received by AHCCCS and the Governor's office. Primary reasons for decreases in fund balance during the fiscal year were due to expenditure increases for health and welfare and education. The significant increases and decreases were discussed in the government-wide financial analysis beginning on **page 25**.

## Transportation and Aviation Planning, Highway Maintenance and Safety Fund

The Transportation and Aviation Planning, Highway Maintenance and Safety Fund is responsible for the repair and maintenance of existing roads, paying the debt service for roads that are built from the issuance of revenue bonds and grant anticipation notes, and providing technical assistance with road construction provided by contractors hired by the ADOT. Total fund balance increased by \$352.4 million during fiscal year 2022. Although revenues exceeded expenditures by \$605.1 million, transfers to non-major governmental funds of \$312.4 million, to pay debt service, largely offset this excess. Overall, revenue increased by \$217.0 million (6%) and expenditures increased by \$192.9 million (6%), as compared to the prior fiscal year.

## Land Endowments Fund

The Land Endowments Fund was established when the federal government granted Arizona statehood. Both the State's Constitution and the federal government require that the land grants given to the State be maintained indefinitely, and the earnings from the land grants should be used for public education, primarily K-12. For fiscal year 2022, the Land Endowments Fund total fund balance decreased by \$556.4 million. Endowment investments decreased by \$550.8 million at fiscal year-end, mainly due to a net decrease in

the fair value of investments of \$834.9 million which was offset by realized gains of \$118.3 million and increased land sales of \$182.9 million.

# **Proprietary funds**

The business-type activities discussion for the fund level financial statements of the State's enterprise funds provide the same type of information found in the government-wide financial analysis beginning on **page 25**.

# **GENERAL FUND BUDGETARY HIGHLIGHTS**

During the fiscal year, the original budget was amended by various supplemental appropriations and appropriation revisions. Differences between the original budget and the final amended budget resulted in a \$3.5 billion net increase in appropriations for the General Fund. Some of the significant changes in the General Fund appropriations were:

- \$771.6 million increase due to prior fiscal year obligations that were paid in the current fiscal year per A.R.S. § 35-191.
- The \$1.1 billion increase to the AHCCCS' original budget is primarily due to supplemental appropriation increases for traditional Medicaid services for \$418.1 million, Proposition 204 services for \$324.8 million, ALTCS for \$256.5 million, and Comprehensive Medical and Dental Services program for \$50.0 million.
- The \$1.2 billion increase to the ADE's original budget is primarily due to the basic state aid deferred payment from fiscal year 2021 for \$930.7 million, which was appropriated as a supplemental appropriation in the fiscal year 2022 budget, as well as funding for additional school days for \$150.4 million, and funding for school districts and charter schools for \$75.0 million.
- The \$422.6 million increase to the DES's original budget is primarily due to supplemental appropriations for the DDD to implement the ARPA of 2021 home and community-based services plan for \$362.7 million, workforce investment act services of \$34.9 million, and a loan from the Budget Stabilization fund for reimbursement grants of \$25.0 million. This overall increase was offset by a \$4.8 million decrease in supplemental appropriations for Case Management Title XIX for \$2.9 million, DDD for \$1.0 million, and Institutional Services Title XIX for \$0.9 million.
- The \$185.7 million increase to the Arizona Department of Administration's (ADOA) original budget is primarily due to supplemental appropriations for building renewal grants in the school facilities division within ADOA for \$93.1 million and for the partial defeasance of COP Series 2015 and full defeasance of Direct Placement COP Series 2017 for \$93.5 million.

The actual expenditures were less than the final budget by \$5.4 billion. Of this amount, \$736.8 million will continue as legislative multiple fiscal year spending authority for fiscal years 2023 and beyond, depending upon the budgetary guidelines of the Legislature. The remaining \$4.7 billion represents the unused portion of the State's legislatively authorized annual operating budget.

# Additional budgetary information can be found on pages 165-180 of this report.

# CAPITAL ASSETS AND DEBT ADMINISTRATION

# Capital assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2022 totaled \$34.2 billion, net of accumulated depreciation and amortization. The total primary government increase in capital assets for the current period was 5%, with a 3% increase in capital assets used for governmental activities and a 12% increase for business-type activities. Depreciation and amortization charges of the governmental and business-type activities for the fiscal year totaled \$663.8 million.

Major capital asset activity during the current fiscal year included the following:

- The ADOT started or completed roads and bridges totaling \$497.1 million during the fiscal year.
- The Universities' additions to capital assets totaled \$984.4 million and included projects to provide needed classroom, instructional, collaboration, and office space as well as parking infrastructure to support the growth of academic programs.

For the government-wide financial statement presentation, all depreciable assets were depreciated from the acquisition date to the end of the current fiscal year. Right-to-use lease assets are amortized from the start of the lease date until the end of the current fiscal year. Capital asset purchases of the governmental funds are reported in the fund-level financial statements as expenditures.

Capital assets and right-to-use lease assets for the governmental and business-type activities as of June 30, 2022 and 2021 are presented below (expressed in thousands):

For more detail on beginning net position restatements involving capital assets and right-to-use lease assets, see Note 4.

As provided by GASB Statement No. 34, the State has elected to record its infrastructure assets, which the ADOT is responsible for maintaining, using the modified approach as described in Note 1.H. Assets accounted for under the modified approach include 9,415 center lane miles of roads (22,383 travel lane miles) and 4,927 bridges.

The State manages its roads using the Present Serviceability Rating (PSR), which measures the condition of the pavement and its ability to serve the traveling public. The PSR uses a five-point scale (5 excellent, 0 impassable) to characterize the condition of the roadway. The State's serviceability rating goal is 3.23 for the overall system. The most recent assessment indicated that an overall rating of 3.51 was achieved for fiscal year 2022.

The State manages its bridges using the Bridge Management System. To comply with federal standards, the State is expected to maintain its bridges to a condition where not more than 10.0% are classified as poor. The State's most recent assessment indicated that 0.6% of the bridges were so classified for fiscal year 2022.

## More detailed information regarding capital assets is on pages 103-105.

# Long-term debt:

The State issues no general obligation debt instruments. The Arizona Constitution, under Article 9, Section 5, provides that the State may contract debts not to exceed \$350 thousand. This provision has been interpreted to restrict the State from pledging its credit as a sole payment for debts incurred for the operation of the State government. As a result, the State pledges either dedicated revenue streams or the constructed building or equipment acquired as security for the repayment of long-term debt instruments.

Major long-term debt activity during the current fiscal year included the following:

- The ADOA defeased \$610.8 million in COPs and refunding COPs and \$223.1 million in revenue refunding bonds.
- The ADOT retired \$284.0 million in revenue bonds and issued \$84.5 million in revenue refunding direct placement bonds.
- The Arizona State University issued revenue bonds for \$172.2 million primarily to fund the improvements, renovation, purchase and deferred maintenance of capital facilities. The Universities also retired \$111.6 million in revenue bonds and revenue refunding bonds.

## More detailed information regarding long-term debt can be found on pages 122-138

# ECONOMIC CONDITION AND OUTLOOK

The Office of Economic Opportunity within the ADOA is forecasting the State to gain a projected 90,625 jobs, representing an annual growth rate of 1.4% over the two-year projected employment period of 2022 (quarter 2) to 2024 (quarter 2).

## The following budgetary information is based on the State of Arizona's Fiscal Year 2023 Appropriations Report.

The State's fiscal year 2023 General Fund budget is based on \$16.8 billion in revenue and \$15.8 billion in spending. The budget includes increased spending for the ADE, AHCCCS, the DES, and for one-time capital and transportation projects. These increases in spending were offset with savings from a one-time buy down of State employee pension debt and early payoff of State building debt which occurred in fiscal year 2022. The General Fund fiscal year 2023 cash balance is projected to be \$1.1 billion. The ending cash balance estimate does not reflect the Budget Stabilization Fund reserve amount that is expected to have a balance of \$1.4 billion at the end of fiscal year 2023.

## The following budgetary information is based on the State of Arizona's Fiscal Year 2024 Appropriations Report.

The State's fiscal year 2023 General Fund budget has been revised to increase revenue projections from \$16.8 billion to \$18.1 billion based on a projected 8.8% base revenue growth, a one-time gain of \$75.5 million associated with depositing a portion of an Attorney General litigation settlement from Google into the General Fund, with an offset of \$700.0 million revenue loss associated with a

reduction in individual income tax withholding rates. Additionally, the spending has been adjusted downwards from \$15.8 billion to \$15.6 billion primarily based on a reduction of \$482.0 million in additional Medicaid revertments, offset with a \$180.6 million supplemental appropriation to fund the ADE formula costs and \$28.2 million in various other supplemental appropriations and exappropriations.

The State's fiscal year 2024 revenues are projected to be \$17.8 billion compared to spending of \$17.8 billion with an ending cash balance of \$10.0 million. The State's fiscal year 2025 revenues are projected to be \$16.3 billion compared to spending of \$16.2 billion with an ending cash balance of \$75.8 million.

The following budgetary information is based on the Joint Legislative Budget Committee's Finance Advisory Committee - Revenue and Budget update on October 11, 2023.

The fiscal year 2024 enacted budget assumed ongoing General Fund revenue growth of 1.9% in fiscal year 2024 but revenues have declined by 6.2% since July primarily as a result of decreased individual income tax collections of \$243.0 million and slowed sales tax growth (\$64.0 million loss relative to the budget) with an offset of increased corporate income tax collections of \$83.0 million. The new October forecast projects that revenues will decline 0.6% for all of fiscal year 2024 resulting in a projected General Fund balance shortfall of \$400.0 million. Additionally, the fiscal year 2024 budget assumed \$625.0 million spending of Empowerment Scholarship Accounts (ESA) awards for 68,000 students but actual enrollment is currently 68,000 with awards of \$665.0 million.

The projected General Fund balance shortfall in fiscal year 2025 is \$450.0 million. The forecast assumes that ESA enrollment will grow to 75,000 in fiscal year 2025 with total awards of \$752.0 million.

# CONTACTING THE STATE COMPTROLLER'S OFFICE

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Department of Administration, General Accounting Office, Financial Reporting Section at (602) 542-5601. You may also access and print this report at <a href="https://gao.az.gov/financials/acfr">https://gao.az.gov/financials/acfr</a>.

The State's component units issue their own separately issued audited financial statements. These statements may be obtained by directly contacting the component unit. Contact information regarding the component units begins on **page 70**.

# STATE OF ARIZONA RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2022

(Expressed in Thousands)

| Total fund balances - governmental funds  |             | \$<br>18,198,747 |
|---|-------------|------------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because:  |             |                  |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.  |             | 26,463,494       |
| Right-to-use lease assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.   |             | 326,279          |
| Certain revenues collected after year-end are not available soon enough to pay for current period expenditures and, therefore, are reported as unavailable deferred inflows of resources in the governmental funds.   |             | 2,276,102        |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the Statement of Net Position. |             | (485,754)        |
| The allocation of the internal service funds accumulated net gain results in an amount due to business-type activities, which is not reported in the governmental funds.  |             | (12,110)         |
| Accrued receivable for AHCCCS programmatic costs' reimbursements are not available in the current period and, therefore, are not reported in the governmental funds.  |             | 923,963          |
| Net OPEB assets held in trust for future benefits are not available in the current period and, therefore, are not reported in the governmental funds.   |             | 121,635          |
| Deferred outflows of resources are applicable to future reporting periods and, therefore, are not reported in the governmental funds. These amounts consist of:   |             |                  |
| Loss on refunding of debt   | 46,409      |                  |
| Related to pensions   | 1,941,697   |                  |
| Related to OPEB   | 180,747     | 2,168,853        |
| Certain liabilities and related accrued interest are not due and payable from current financial resources and, therefore, are not reported in the governmental funds. These amounts consist of:   |             |                  |
| Net pension   | (2,705,584) |                  |
| Net OPEB  | (709,477)   |                  |
| Accrued interest on certificates of participation   | (3,646)     |                  |
| Revenue bonds   | (1,365,585) |                  |
| Grant anticipation notes  | (163,705)   |                  |
| Certificates of participation   | (217,410)   |                  |
| Direct placements   | (73,320)    |                  |
| Financed purchases  | (99,460)    |                  |
| Premiums and discounts on debt  | (258,691)   |                  |
| Leases  | (328,589)   |                  |
| Compensated absences  | (163,706)   |                  |
| Pollution remediation obligations   | (72,566)    |                  |
| Utility/railroad settlement accrual and accrued relocation costs  | (34,968)    | (6,196,707)      |
| Accrued liabilities for AHCCCS programmatic costs and reimbursements are not due and payable from current financial resources and, therefore, are not reported in the governmental funds.   |             | (1,285,319)      |
| Deferred inflows of resources are applicable to future reporting periods and, therefore, are not reported in the governmental funds. These amounts consist of:  |             |                  |
| Gain on refunding of debt   | (42,227)    |                  |
| Related to pensions   | (758,249)   |                  |
| Related to OPEB   | (385,887)   | <br>(1,186,363)  |
| Net position of governmental activities   |             | \$<br>41,312,820 |

# STATE OF ARIZONA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2022

(Expressed in Thousands)

| Net change in fund balances - total governmental funds   |                    | \$<br>3,541,371 |
|--|--------------------|-----------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:   |                    |                 |
| Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. Also, infrastructure was adjusted to primarily reflect reduction in construction in progress resulting from certain infrastructure projects being reclassified from capital outlay to non-capital. This is the amount by which capital outlays exceeded depreciation and infrastructure adjustments in the current period.   |                    |                 |
| Capital outlay   | 645,455            |                 |
| Infrastructure adjustment  | (25,837)           |                 |
| Depreciation expense   | (166,755)          |                 |
| Amortization expense   | (45,067)           | 407,796         |
| The adjusted change in net position of the internal service funds allocable to governmental activities is included in the Statement of Activities.   |                    | (58,606)        |
| Net change in certain revenues reported in the Statement of Activities do not provide current financial resources and, therefore, are reported as unavailable deferred inflows of resources in the governmental funds:   |                    |                 |
| Sales taxes  | 15,410             |                 |
| Income taxes   | 34,386             |                 |
| Opioid settlement  | 450,845            |                 |
| Operating grants   | (115,098)          |                 |
| Capital grants   | 27,906             |                 |
| Other revenue  | (732)              | 412,717         |
| land is reported, whereas in the governmental funds, the proceeds from the collection of mortgage payments are<br>reported. In fiscal year 2022, gains resulting from current year land sales exceeded mortgage payments received.<br>In addition, accrued interest on land sales contracts is reported as revenues in the Statement of Activities but are<br>not reported as revenues in the governmental funds.  |                    |                 |
| Excess of gains on sale of land over mortgage receipts   | 143,774            |                 |
| Accrued interest on land sales' contracts  | 29,653             | 173,427         |
| Pension and OPEB contributions are reported as expenditures in the governmental funds in the fiscal year contributed. However, current year contributions are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability and net OPEB asset/liability are measured a year before the State's current fiscal year-end financial statements. Pension and OPEB expenses, which are the changes in the net pension liability and net OPEB asset/liability, adjusted for changes in deferred outflows and inflows of resources related to pensions and OPEB, are reported in the Statement of Activities. |                    |                 |
| Pension contributions made during fiscal year 2022   | 1,505,236          |                 |
| Pension expense and pension-related grant expense  | (337,364)          | 1,167,872       |
| OPEB contributions during fiscal year 2022<br>OPEB expense   | 19,473<br>(51,467) | (31,994)        |
| Certain expenses reported in Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.   |                    |                 |
| AHCCCS accrued programmatic costs  | 145,925            |                 |
| ADOT accrued programmatic costs  | 10,782             |                 |
| Compensated absences   | 14,533             |                 |
| Pollution remediation obligation   | (8,682)            |                 |
| Interest on long-term obligations  | 8,179              | 170,737         |
| —  |                    |                 |

The Notes to the Financial Statements are an integral part of this statement.

# STATE OF ARIZONA **RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES** IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2022

(Expressed in Thousands)

Debt and lease proceeds provide current financial resources to the governmental funds; however, issuing debt and leases increases long-term obligations in the Statement of Net Position. In the current period, proceeds were received from:

| Refunding bonds issued<br>Lease proceeds   | (84,520)<br>(45,622) | (130,142)    |
|--|----------------------|--------------|
| Repayment of long-term debt is reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities and deferred outflows of resources in the Statement of Net Position. Governmental funds report the effect of premiums, discounts, and similar items when debt is issued, whereas these amounts are amortized in the Statement of Activities. In the current year, these amounts consist of: |                      |              |
| Debt service principal   | 1,275,626            |              |
| Payment to refunded bond escrow agent  | 84,005               |              |
| Debt premium/discount amortization   | 33,595               |              |
| Amortization of deferred gains/losses on refundings  | 7,648                | 1,400,874    |
| Loss on in-substance defeaseance   |                      | (24,475)     |
| Change in net position of governmental activities  |                      | \$ 7,029,577 |

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona (the State) conform to U.S. Generally Accepted Accounting Principles (U.S. GAAP) applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

### A. REPORTING ENTITY

The State is a general purpose government. The accompanying financial statements present the activities of the State (the primary government) and its component units. Component Units' footnote disclosures are presented in Note 15 - *Discretely Presented Component Unit Disclosures*.

#### **Component Units**

Component units are legally separate entities for which the State is considered to be financially accountable, or organizations that raise and hold economic resources for the direct benefit of the State. Blended component units, although legally separate entities, are in substance, part of a government's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units of the State, except for component units affiliated with the State's Universities, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the State. Because the component units affiliated with the Universities follow Financial Accounting Standards Board (FASB) statements, these financial statements have been reported on separate pages following the respective counterpart financial statements of the State. For financial reporting purposes, only the statement of financial position and the statement of activities for component units affiliated with the Universities are included in the State's financial statements, as required by the GASB. The Universities' component units have a June 30 year-end, with the exception of the Arizona State University Bermuda Institute of Ocean Sciences which has a December 31 yearend. The State's fiduciary component units have a June 30 year-end, with the exception of the Arizona Power Authority, which has a September 30 year-end, and the Department of Insurance and Financial Institutions Guaranty Funds, which have a December 31 year-end.

GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State. Where the State does not appoint a voting majority of an organization's governing body, GASB requires inclusion in the reporting entity if it is fiscally dependent on the State and there is a potential for the organization to either provide specific financial benefits to, or to impose specific financial burdens on, the State. Further, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the financial statements to be misleading.

In addition, GASB requires that legally separate, tax-exempt entities that meet *all* of the following criteria should be discretely presented as component units: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents, (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization, and (3) The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The Northern Arizona Capital Facilities Finance Corporation (NACFFC), the Arizona State University Bermuda Institute of Ocean Sciences (ASUBIOS), the Thunderbird School of Global Management (Thunderbird), and the Arizona State University Athletic Facilities District (ASUAFD) are blended with the Universities' financial statements. The NACFFC was established for the purpose of acquiring, developing, constructing, and operating student housing and other capital facilities and equipment for the use and benefit of Northern Arizona University's (NAU) students. The NACFFC's debt outstanding is expected to be repaid entirely with resources from the NAU. The ASUBIOS, a New York nonprofit corporation, primarily exists to benefit the Arizona State University (ASU) by providing an Atlantic Ocean hub for research and instructional activities. The ASUBIOS holds assets that are material to the ASU's overall financial position, primarily the ASUBIOS Campus and its research boat fleet, which are all controlled and managed by the ASU and

used to support the ASU's research and academic programs. The Thunderbird primarily exists to benefit the ASU by providing a framework for global education programming. The ASUAFD was formed pursuant to the provisions of Arizona Revised Statutes (A.R.S.) Title 48, Chapter 26 and supports the ASU's efforts to construct, reconstruct, finance, furnish, maintain, and improve intercollegiate athletic facilities located on the ASU's property, including utilities, roads, parking areas or buildings necessary for full use of the athletic facilities.

The State reports the following component units as fiduciary funds:

The Arizona State Retirement System (ASRS) is a cost-sharing, multiple-employer, pension plan that benefits employees of the State and participating political subdivisions and school districts. The ASRS is administered in accordance with provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS is governed by a nine-member board that is appointed by the Governor and approved by the Senate to serve three-year terms. The State has the ability to impose its will on the ASRS as the State Legislature can modify the plan design and benefits. Additionally, per A.R.S. § 38-721, the State Legislature appropriates monies to pay for the administrative expenses of the ASRS. Complete financial statements may be obtained from the ASRS's administrative office at P.O. Box 33910, Phoenix, AZ 85067-3910, (602) 240-2000, or its website at https://www.azasrs.gov.

The Public Safety Personnel Retirement System (PSPRS) is an agent, multiple-employer public employee retirement system that benefits public safety employees of certain state, county, and local governments. The PSPRS is jointly administered by the Board of Trustees and 230 local boards according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. The Board of Trustees, which is comprised of a nine-member board, serve a fixed five-year term. Two board members are appointed by the President of the Senate, two are appointed by the Speaker of the House of Representatives, and five are appointed by the Governor. The State has the ability to impose its will on the PSPRS as the State Legislature can modify the plan design and benefits. Each eligible group participating in the system has a five-member local board. In general, all members serve a fixed four-year term. Complete financial statements may be obtained from the PSPRS's administrative office at 3010 East Camelback Road, Suite 200, Phoenix, AZ 85016-4416, (602) 255-5575, or its website at https://www.psprs.com.

The Elected Officials' Retirement Plan (EORP) is a cost-sharing, multiple-employer public employee retirement plan that benefits elected officials and judges of certain state, county, and local governments who were members of the plan on December 31, 2013, and remain in the plan. As part of the 2013 Fifty-first Legislature, House Bill 2608 effectively closed the EORP to new members and created the Elected Officials' Defined Contribution Retirement System (EODCRS), with an effective date of January 1, 2014. The EODCRS does not meet the GASB criteria for inclusion in the State's reporting entity. The Board of Trustees of the PSPRS administers the EORP plan according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The State has the ability to impose its will on the EORP as the State Legislature can modify the plan design and benefits. Complete financial statements may be obtained from the PSPRS's administrative office at 3010 East Camelback Road, Suite 200, Phoenix, AZ 85016-4416, (602) 255-5575, or its website at https://www.psprs.com.

The Corrections Officer Retirement Plan (CORP) is a multiple-employer public employee retirement plan that benefits prison and jail employees of certain state, county, and local governments. CORP includes a cost-sharing multiple employer plan for Administrative Office of the Courts (AOC) probation officers and an agent multiple-employer plan for all other members. Pension reform legislation (Senate Bill 1442) passed in 2017 created a new tier of benefits for those members who will become members on or after July 1, 2018. Senate Bill 1442 closed CORP to new members for corrections and detention positions. Newly hired corrections and detention officers who work in state prisons, county jails, and municipalities will receive retirement benefits through the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The PSPDCRP does not meet the GASB criteria for inclusion in the State's reporting entity. CORP remains open for new hires of the AOC's probation and surveillance positions. Those hired into these positions will have a choice of enrolling in the defined benefit plan or in the PSPDCRP. The Board of Trustees of the PSPRS, 28 local boards of the CORP, and 15 local boards of the AOC administer the plans according to the provisions of A.R.S. Title 38, Chapter 5, Article 6. The State has the ability to impose its will on the CORP and AOC as the State Legislature can modify the plans design and benefits. Complete financial statements may be obtained from the PSPRS's administrative office at 3010 East Camelback Road, Suite 200, Phoenix, AZ 85016-4416, (602) 255-5575, or its website at <u>https://www.psprs.com</u>.

The State reports the following fiduciary component unit, which is aggregated within the State's fiduciary fund:

The AZ529 (formerly known as the Family College Savings Program) was established pursuant to A.R.S. § 15-1873. The AZ529 is an individual savings account that is exempt from taxation to the extent that income is used to pay for qualified higher education expenses of the designated beneficiary. The AZ529 is governed by the State Board of Investment consisting of the State Treasurer, the Director of the Department of Administration or designee, the Director of the Department of Insurance and Financial Institutions or designee, and two individuals appointed by the State Treasurer. All members of the governing board can be removed at will; thus the State has the ability to impose its will on the AZ529. The assets of the AZ529 are (1) administered through a trust equivalent agreement in which the State itself is not a beneficiary, (2) dedicated to providing benefits to recipients in accordance with benefit terms, and (3) legally protected from creditors of the State. Complete financial statements for the AZ529 may be obtained by contacting the AZ529 Plan Administrator at the State Treasurer's office at: Office of the Arizona State Treasurer, 1700 W. Washington Street, Phoenix, AZ 85007, and at (602) 542-7800.

The State reports the following discretely presented component units:

### Major Component Unit:

Arizona Finance Authority (AFA) – In the Fifty-second Legislature - Second Regular Session (2016), the State Legislature passed into law House Bill 2666 (HB2666) that established the AFA. The AFA was created to provide a one-stop shop for financing, supporting expanding and relocating businesses, communities' infrastructure needs, and first-time homebuyers. The Water Infrastructure Finance Authority (WIFA), the Greater Arizona Development Authority (GADA), and the Arizona Industrial Development Authority (AIDA) are established in the AFA by HB2666 for this purpose. Also enacted by this law, the powers, duties, and responsibilities of the Arizona Health Facilities Authority, the Arizona Housing Finance Authority, and the Arizona International Development Authority succeed to the AIDA. The AFA is governed by a five-member board of directors that also governs the AFA's WIFA, GADA, and AIDA. Members are appointed by the Governor and serve at the pleasure of the Governor; thus, the State has the ability to impose its will on AFA.

The AFA's WIFA is authorized to administer the Clean Water Revolving Fund. The Clean Water Revolving Fund was created pursuant to the Federal Water Pollution Control Act, which required the State to establish the Clean Water Revolving Fund to accept federal capitalization grants for publicly owned wastewater treatment projects. The AFA's WIFA has also entered into an agreement with the U.S. Environmental Protection Agency to administer the Drinking Water Revolving Fund pursuant to the Safe Drinking Water Act. The AFA's GADA provides cost-effective access to capital for local communities, certain special districts, and tribal governments for public infrastructure projects. The AFA's AIDA provides cost-effective capital for private borrowers by reducing their financing costs through the issuance of tax-exempt bonds. Complete financial statements for AFA's WIFA and GADA may be obtained from the administrative office at 100 North 7th Avenue, Suite 130, Phoenix, AZ 85007, (602) 364-1323. Complete financial statements for AFA's AIDA may be obtained from Kutak Rock LLP's administrative office at 8601 North Scottsdale Road, Suite 300, Scottsdale, AZ 85253.

### Non-major Component Units:

Rio Nuevo Multipurpose Facilities District (Rio Nuevo) – The Rio Nuevo was established in 1999 with the passage of Proposition 400 by the voters in the Cities of Tucson and South Tucson. The Rio Nuevo receives a portion of the State's sales tax revenue generated from within its multipurpose facilities site. The Rio Nuevo is governed by a nine-member board of directors, with five members appointed by the Governor, two members appointed by the President of the Senate, and the remaining two members appointed by the Speaker of the House of Representatives. All board of directors can be removed at will; thus, the State has the ability to impose its will on Rio Nuevo. Complete financial statements may be obtained from Rio Nuevo's administrative office at 1703 East Broadway Boulevard, Tucson, AZ 85719, (520) 623-7336, or its website at <a href="https://rionuevo.org">https://rionuevo.org</a>.

Arizona Power Authority (APA) – The APA purchases the State's allocation of power produced at the federally owned Boulder Canyon Project hydropower plant and resells it to Arizona entities that are eligible purchasers under federal and state laws. The APA is governed by a commission of five members appointed by the Governor and approved by the Senate. The term of office of each member is six years and the members select a chairman and vice-chairman from among their membership for a term of two years. The APA is required to follow specific State policies; thus, the State has the ability to impose its will on APA. Complete financial statements may be obtained from the APA's administrative office at 1810 West Adams Street, Phoenix, AZ 85007-2679, (602) 368-4265.

Arizona Commerce Authority (ACA) – The ACA is charged with the following responsibilities: job creation and expansion of capital investment through business attraction, expansion, and retention, including business incubation and entrepreneurship; creation, monitoring, and execution of a comprehensive economic and workforce strategy; management and administration of economic development and workforce programs; providing statewide marketing leadership; utilization of all means necessary, prudent and practical to integrate private sector-based innovation, flexibility, focus, and responsiveness; and advancement of public policy to meet the State's economic development objectives. The ACA is governed by a nineteen-member board of directors consisting of the Governor serving as Chairperson, a Chief Executive Officer, and seventeen members consisting of private sector business leaders serving staggered three-year terms, of which, nine are appointed by the Governor, four are appointed by the President of the Senate, and the other four are appointed by the Speaker of the House of Representatives. A financial benefit/burden relationship exists between the State and ACA as its primary funding source is the allocated State General Fund withholding tax revenues received in each fiscal year according to A.R.S. § 43-409. Complete financial statements may be obtained from the ACA's administrative office at 100 North 7<sup>th</sup> Avenue, Suite 400, Phoenix, AZ 85007, (602) 845-1200.

Arizona Public School Credit Enhancement (APSCE) – The APSCE was established to assist achievement district schools in obtaining more favorable financing by guaranteeing the payment of principal and interest on guaranteed financings issued by or on behalf of achievement district schools. The APSCE is governed by a three-member board of directors that is established by A.R.S. § 41-5852 and consists of the Governor (or designee), State Treasurer (or designee), and the director of the Department of Administration (or designee). A financial benefit/burden relationship exists between the State and APSCE as monies were appropriated by the State Legislature for partial capitalization of its fund. Separate financial statements are not prepared for the APSCE.

Department of Insurance and Financial Institutions Guaranty Funds (DIFIGF) – The DIFIGF, a division of the Arizona Department of Insurance and Financial Institutions (ADIFI), is comprised of the Arizona Property and Casualty Insurance Guaranty Fund (APCIGF) and the Arizona Life and Disability Insurance Guaranty Fund (ALDIGF). The DIFIGF pays for claims against insolvent insurance companies under certain property and casualty insurance contracts (also includes return of unearned premiums) and contractual obligations under certain life, annuity and disability insurance contracts. The APCIGF and ALDIGF hold corporate powers in accordance with A.R.S. § 20-664 and A.R.S. § 20-685 respectively, which distinguish them as being legally separate from the State. The APCIGF and the ALDIGF are each governed by an eleven-member board of directors appointed by the Governor. The ADIFI maintains the ability to hire and dismiss the persons responsible for day-to-day operations of the DIFIGF; thus, the State has the ability to impose its will on the DIFIGF. Complete financial statements may be obtained from the DIFIGF's administrative office at 100 North 15<sup>th</sup> Avenue, Suite 261, Phoenix, AZ 85007, (602) 364-3863.

Component units of the State affiliated with the Universities are legally separate, tax-exempt organizations controlled by separate boards of directors that meet the criteria established in GASB, with the exception of the Campus Research Corporation (CRC). The CRC is included because the U of A approves the budget and can access its resources.

The following discretely presented component units of the State affiliated with the Universities are reported as *major* component units:

Arizona State University Enterprise Partners (ASUEP) – The ASUEP's resources are disbursed at the discretion of the ASUEP's independent board of directors, in accordance with donor directions and the ASUEP policy. The directors of the ASUEP make all decisions regarding the ASUEP's business affairs, including distributions made to the ASU. The economic resources held by the ASUEP are significant to the ASU and are entirely for the benefit of the ASU.

University of Arizona Foundation (U of A Foundation) – The U of A Foundation advances the U of A by building relationships, securing philanthropic support, and stewarding assets. The restricted resources held by the U of A Foundation are significant to the U of A and can only be used by, or for the benefit of, the U of A or its constituents.

The following discretely presented component units of the State affiliated with the Universities are reported as *non-major* component units:

Northern Arizona University Foundation, Inc. (NAU Foundation) – The NAU Foundation receives gifts and bequests, administers and invests in securities and property, and disburses payments to and on behalf of the NAU for advancement of its mission. The restricted resources of the NAU Foundation can only be used by, or for the benefit of the NAU or its constituents.

Arizona Capital Facilities Finance Corporation (ACFFC) – The ACFFC provides facilities for use by students of ASU or ASU itself. A fiscal dependency and financial benefit/burden relationship exists between the ACFFC and the ASU.

Arizona State University Alumni Association (ASU Alumni Association) and Sun Angel Foundation – These two component units of the State affiliated with the Universities receive funds primarily through donations, dues, and/or affinity partners and contribute funds to the ASU for support of various programs. The economic resources held by these two component units are for the direct benefit of the ASU, the ASU has the ability to access their economic resources, and the economic resources are significant to the ASU.

Arizona State University Research Park, Inc. (ASU Research Park) – The ASU Research Park manages a research park to promote and support research activities in coordination with ASU. In developing the research park, bonds were issued that are guaranteed by the ASU. A fiscal dependency and financial benefit/burden relationship exists between the ASU Research Park and the ASU.

ASU Preparatory Academy, Inc. (ASU Prep) – The ASU Prep prepares Arizona K-12 students for success with a university-embedded academic program that empowers them to complete college, compete globally, and contribute to their communities. The ASU is able to impose its will on the ASU Prep and the ASU appoints the voting majority of its board. Additionally, a fiscal dependency and financial benefit/burden exists between the ASU Prep and the ASU.

University of Arizona Law College Association (Law Association) – The Law Association was established to provide support and financial assistance to the College of Law at the U of A. The Law Association funds provide support to the College on many levels, from endowed student scholarships to named faculty professorships. The economic resources held by the Law Association are significant to the U of A and are entirely or almost entirely for the benefit of the U of A.

University of Arizona Campus Research Corporation (CRC) – The CRC was established to assist the U of A in the acquisition, improvement, and operation of the U of A Science and Technology Park (Tech Park), the original U of A Tech Park at Rita Road and the U of A Tech Park at the Bridges, related properties and entities. The CRC currently leases from the U of A all the buildings at the U of A Tech Park at Rita Road. The CRC is responsible for assisting in the development of the presently undeveloped portions of the Tech Park and for subleasing unoccupied space, newly developed space, and space now occupied by IBM or its subtenants once the current subleases expire. The U of A is responsible for payment of operational expenses associated with the space occupied by the U of A departments, offices, and programs.

University of Arizona Global Campus (UAGC) – The UAGC was established to expand access to higher education for adult learners and other non-traditional students, expand and accelerate online higher education offerings aimed at workforce and economic development goals with the State of Arizona, and extend those same offerings to a national and international student audience consistent with the mission of the U of A.

University of Arizona Eller Executive Education (EEE) – The EEE was established to advance the missions of the Eller College of Management and the U of A through noncredit, non-degree programs for business, government, and nonprofit leaders. The U of A president appoints all EEE board members and can remove any member at will; thus, the U of A can impose its will on the EEE.

Complete financial statements for each of the aforementioned component units, except for the U of A Foundation and the ASUAFD, may be obtained as follows:

ASUEP, ACFFC, ASU Alumni Association, Sun Angel Foundation, ASU Research Park, and the ASU Prep – contact ASU Financial Services at (480) 965-3601

UAGC – contact the Chief Financial Officer at The University of Arizona Global Campus, 180 S. Arizona Ave., Suite 301, Chandler, AZ 85225-9606

Law Association – Law College Association, James E. Rogers College of Law at the University of Arizona, 1201 E. Speedway Blvd., Tucson, AZ 85721-0176

CRC – The Tech Parks Arizona, 9070 South Rita Road, Suite 1750, Tucson, AZ 85747-6112

EEE – Eller Executive Education, P.O. Box 210108, Tucson, AZ 85721-0108

NAU Foundation and NACFFC - Northern Arizona University, Comptroller's Office, P.O. Box 4069, Flagstaff, AZ 86011

The financial statements of the ASUAFD are not available as of June 30, 2022, as there was no financial activity.

The financial statements of the U of A Foundation are not publicly available. For information regarding the U of A Foundation's financial statements, contact the U of A Foundation Comptroller at the following address: The University of Arizona Foundation, Financial Services Office, 1111 N. Cherry Ave., Room 403, Tucson, AZ 85721-0109.

### **Related Organizations**

Related organizations are legally separate entities for which the State is not considered to be financially accountable, and that do not meet the criteria established by GASB for inclusion. The State's accountability for these organizations does not extend beyond making the appointments, nor are the economic resources accessible to the State. As a result, financial activity for the organizations described below are not included in the State's financial statements.

Arizona Sports and Tourism Authority (the Authority) – A.R.S. § 5-802 established the Authority to construct, finance, furnish, maintain, improve, operate, market, and promote the use of a multipurpose facility and do all things necessary or convenient to accomplish those purposes. The Authority may issue revenue bonds in such principal amounts to accomplish the above stated purposes. The Authority is governed by a nine-member board of directors of which five are appointed by the Governor and approved by the Senate and two members each by the President of the Senate and the Speaker of the House. The directors serve terms of five years, may be re-appointed for one full subsequent term, and can be removed only for cause.

### Joint Ventures

As described in Note 11, the U of A participates in joint ventures. In accordance with U.S. GAAP, the financial activities of these joint ventures are not included in the State's financial statements.

### **B. BASIS OF PRESENTATION**

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the State as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

**Government-wide statements** provide information about the primary government and its component units. The statements include a statement of net position and a statement of activities. These statements report the financial activities of the overall government, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the State and between the State and its discretely presented component units. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The **Statement of Net Position** presents the State's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The total of assets and deferred outflows of resources, minus the total of liabilities and deferred inflows of resources, is reported as net position. Both the governmental and business-type activities are presented on a consolidated basis by column.

The **Statement of Activities** presents a comparison between direct expenses and program revenues for each function of the State's governmental activities, and its different business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular program or function. The State does not allocate indirect expenses to programs or functions.

Program revenues include:

- charges to customers or applicants for goods, services, privileges provided, and fines or forfeitures
- operating grants and contributions
- capital grants and contributions, including special assessments

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Interfund balances have been eliminated from the government-wide financial statements to the extent that they occur within either the governmental or business-type activities. Balances between governmental and business-type activities are presented as internal balances and are eliminated in the total column. Revenues and expenses associated with reciprocal transactions within governmental or within business-type activities have not been eliminated.

**Fund financial statements** provide information about the State's funds, including fiduciary funds. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses include the cost of sales and services, administrative expenses, and depreciation/amortization on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The State reports the following major governmental funds:

*The General Fund* – is the State's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

*The Transportation and Aviation Planning, Highway Maintenance and Safety Fund* – accounts for all financial transactions applicable to the general operations of the ADOT. The ADOT builds and maintains the State's highway system and the Grand Canyon Airport. The fund primarily receives revenues from motor vehicle and fuel taxes and federal grants.

*The Land Endowments Fund* – holds lands granted to the State by the Federal government for the benefit of public schools and other public institutions. Principal is maintained intact and investment earnings and lease revenues are distributed to beneficiaries in accordance with State statute.

The State reports the following major enterprise funds:

The Universities - account for transactions of the State's three universities, which comprise the State's university system.

Unemployment Compensation - pays claims for unemployment to eligible recipients from employer contributions and reimbursements.

Additionally, the State reports the following fund types:

*Internal Service Funds* – account for insurance coverage, employee benefits, automotive maintenance and operation, highway equipment rentals, data processing, telecommunications, information technology, personnel administration, postage and mailing, and surplus material services provided to State agencies on a cost-reimbursement basis.

*Pension and Other Employee Benefit Trust Funds* – account for the fiduciary activities of the ASRS, the PSPRS, the EORP, and the CORP (collectively, the Retirement Systems), for which the State acts as a trustee. These retirement and other post-employment benefit plans accumulate resources to pay pension, health insurance premium subsidies, and long-term disability benefits of State employees and employees of other governmental entities participating in the plans.

*Private-Purpose Trust Funds* – accounts for all fiduciary activities that are (1) not required to be reported in the Pension and Other Employee Benefit Trust Funds and (2) assets associated with the activity are administered through a trust or trust equivalent arrangement in which the State is not a beneficiary, are dedicated to providing benefits to recipients in accordance with the benefit terms, and are legally protected from the creditors of the State. The State has two Private-Purpose Trust Funds, (1) the AZ529 is an individual savings account that is exempt from taxation to the extent that income is used to pay for qualified higher education expenses of the designated beneficiary, and (2) the Developmental Disabilities Client Investment fund where the State acts as a representative payee for members.

*Custodial Funds* – are used to report fiduciary activities that are not required to be reported in the Pension and Other Employee Benefit Trust Funds or Private-Purpose Trust Funds. They include the external investment pool which is used to account for the investments related to external participants in the State Treasurer's investment pools that are not held in trust. The custodial funds also include funds related to restitutions, inmate accounts, child support payments, applicant deposits, and condemnation proceedings.

### C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Grants and donations are recognized as revenues as soon as all eligibility requirements the provider imposed have been met. Fiduciary fund liabilities are incurred when an event has happened that compels the State to disburse resources or when no further action, approval or condition is required to be taken or met by the beneficiary to release the assets.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The State considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Those revenues susceptible to accrual are highway user revenue tax and state sales tax. Expenditures are recorded when the related fund liability is incurred, except for net pension liability, net other postemployment benefits (OPEB) liability, principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under leases are reported as other financing sources.

When an expense is incurred for purposes for which restricted and unrestricted net position are available, the State considers restricted and unrestricted amounts to have been spent in that order.

### D. DEPOSITS AND INVESTMENTS

### 1. Cash and Cash Equivalents

On the Statement of Cash Flows, the amount reported as "Cash and Cash Equivalents" is equal to the total of the amounts on the Statement of Net Position (unrestricted/restricted) "Cash", "Cash with U.S. Treasury", "Cash and pooled investments with State Treasurer", "Cash held by trustee" and "Collateral investment pool". For purposes of the Statement of Cash Flows, the State considers only those highly liquid debt instruments with an original maturity of ninety days or less to be cash equivalents.

- *Cash* includes un-deposited receipts, petty cash, bank accounts, non-negotiable certificates of deposit, and demand deposits with banking institutions other than the State Treasurer.
- *Cash with U.S. Treasury* consists of unemployment compensation contributions from Arizona employers that are deposited in a trust fund maintained by the United States Treasury.
- *Cash and pooled investments with State Treasurer* consists of a centralized management of most State cash resources maintained by the State Treasurer. From the perspective of the various State funds, the pool functions as both a cash management pool and a demand deposit account. The operations and investments of the State Treasurer's pooled investments are described in Note 2.
- *Cash held by trustee* consists of capital projects and bond debt service funds invested by the trustee in accordance with the applicable financing indenture, generally limited to United States Treasury securities and other Federal agency securities, certificates of deposit, commercial paper, and money market funds.
- *Collateral investment pool* consists of cash received as collateral on securities lending transactions and investments made with that cash. The State records the collateral received as an asset. A corresponding liability is also recorded for such securities lending transactions.

### 2. Investment Valuation

Investments maintained by the State Treasurer are reported at fair value using State Street prices, as determined by independent, industry recognized data vendors who provide values that are either exchange based or based on an evaluation bid. Equities are priced utilizing the primary exchange closing price. All bonds are priced using an evaluated bid, except securities with a remaining maturity of 90 days or less are priced at amortized cost (amortizing premium/accreting discount on a straight-line to maturity method). The evaluated bid is based on a compilation of primary observable market information or a broker quote in a non-active market.

The ASRS' publicly traded investments are reported at fair value determined by the custodial agents. The agents' determination of fair values includes, among other things, using pricing services or prices quoted by independent brokers at current exchange rates. The derivative instruments held by the ASRS consist of futures, forward contracts, options, swaps, rights, and warrants. Fair value of derivative instruments are determined by the custodial agent and reported on the Statement of Fiduciary Net Position. The fair value of limited partnership investments are based on estimated current values and accepted industry practice. Fair value is based on estimates and assumptions from information and representations provided by the respective general partners, in the absence of readily ascertainable market values.

For the PSPRS, the EORP, and the CORP, short term investments are reported at cost plus accrued interest.

For the AZ529, publicly traded mutual funds are presented at fair value based on published quotations.

A schedule of investments measured at fair value and additional information regarding the inputs used to determine the fair value of investments are provided in Note 2.

### E. TAXES RECEIVABLE

Taxes receivable include amounts owed by taxpayers for prior periods including assessments for underpayments, penalties, and interest. In the government-wide financial statements, a corresponding amount is recorded as revenue using the accrual basis of accounting. In the governmental fund financial statements, revenue is recorded using the modified accrual basis of accounting. The remainder is recorded as deferred inflows of resources.

The income tax receivable is composed of individual and corporate estimated payments, withholding payments, and payments with final returns and assessments that relate to income earned through June 30, 2022. Sales and motor vehicle and fuel tax receivables represent amounts that are earned by the State in the fiscal period ended June 30, 2022, but not collected until the following month.

### F. LEASES RECEIVABLE

As a lessor, the State recognizes a lease receivable and a deferred inflow of resources in the government-wide and fund financial statements. The State's threshold for lease accounting is for all leases where the undiscounted total lease payments is \$500,000 or more. At the commencement of a lease, the State initially measures the lease receivable at the present value of payments expected to be received during the lease term. In the absence of a stated interest rate provided in the lease contracts or if the implicit rate cannot be determined, present value is calculated using the State's incremental borrowing rate which is based on a blend of revenue lease bond rates provided by the State Treasurer's office and State-issued COP yield rates. Over the lease term, the lease receivable is reduced by the principal portion of lease payments received at or before the commencement of the lease term that relate to future periods, less any lease incentives paid at or before the commencement of the lease term. Over the lease term, the State recognizes revenue from the interest income when it is earned and also recognizes revenue from the amortization of deferred inflows of resources on a straight-line basis.

### G. INVENTORIES

Inventories consist of expendable supplies held for consumption in all funds and merchandise intended for sale to customers in the proprietary funds. Inventories are stated at cost using the first-in, first-out method, weighted average, or lower of cost or market. In the governmental funds, inventories are accounted for using the consumption method. Under this method, inventories are recorded as expenditures as they are used.

### H. CAPITAL ASSETS

Capital assets are stated at cost or, if donated, at acquisition value.

Most capital assets are depreciated over their estimated useful lives. However, the State reports most infrastructure assets using the modified approach, as provided by the GASB. Under this approach, rather than being depreciated, costs to maintain and preserve these assets are expensed. This approach is discussed further in the Required Supplementary Information portion of this report. The State has adopted a general policy for capitalization thresholds, depreciation, and estimated useful lives of capital assets. In addition, the State has approved alternative policies for some State agencies.

Depreciable capital assets are depreciated on a straight-line basis. Capitalization thresholds (the dollar values at which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets being depreciated in the government-wide financial statements and the proprietary funds are as follows:

|                                   | General Sta                 | ate Policy                       | Other Authorized Agency Policies |                                  |  |  |  |  |
|-----------------------------------|-----------------------------|----------------------------------|----------------------------------|----------------------------------|--|--|--|--|
| Asset Category                    | Capitalization<br>Threshold | Estimated Useful<br>Life (years) | Capitalization<br>Threshold      | Estimated Useful<br>Life (years) |  |  |  |  |
| Land                              | All capitalized             | Not depreciated                  | All Capitalized                  | Not Depreciated                  |  |  |  |  |
| Buildings                         | All capitalized             | 25 - 40                          | \$0 - \$100,000                  | 10 - 50                          |  |  |  |  |
| Improvements other than buildings | \$5,000                     | 15                               | —                                | —                                |  |  |  |  |
| Equipment                         | \$5,000                     | 3 - 15                           | \$0 - \$5,000                    | 3 - 25                           |  |  |  |  |
| Infrastructure                    | All capitalized             | Not depreciated                  | \$0 - \$100,000                  | 10 - 100                         |  |  |  |  |
| Software                          | \$1,000,000                 | 5 - 10                           | \$1,000,000 - \$5,000,000        | 5 - 10                           |  |  |  |  |
| Other intangibles                 | \$100,000                   | Varied                           | \$100,000                        | Varied                           |  |  |  |  |

Other intangibles include non-software licenses and permits, patents, copyrights and trademarks, websites, rights-of-way and easements, and natural resource extraction rights. These are amortized over the shorter of the legal or estimated useful life if the useful life is definite or limited. If the life is indefinite or unlimited, they are not amortized. In addition, rights-of-way and easements are amortized only if the value is separable from the underlying land and natural resource extraction rights are not amortized unless the value of the underlying asset is identifiable.

Capitalization thresholds and estimated useful lives of right-to-use lease assets being amortized in the government-wide financial statements and the proprietary funds are as follows:

|                                       | General St                  | ate Policy                       | Other Authorized Agency Policies |                                  |  |  |  |  |
|---------------------------------------|-----------------------------|----------------------------------|----------------------------------|----------------------------------|--|--|--|--|
| Asset Category                        | Capitalization<br>Threshold | Estimated Useful<br>Life (years) | Capitalization<br>Threshold      | Estimated Useful<br>Life (years) |  |  |  |  |
| Right-to-use lease assets - land      | \$500,000                   | Varied                           | _                                |                                  |  |  |  |  |
| Right-to-use lease assets – buildings | \$500,000                   | Varied                           | \$100,000-\$500,000              | Varied                           |  |  |  |  |
| Right-to-use lease assets – equipment | \$500,000                   | Varied                           | \$5,000-\$500,000                | Varied                           |  |  |  |  |

The right-to-use lease asset is initially measured at the value of the lease liability, plus any payments made at or before the commencement of the lease term plus direct costs to place the asset into service, less any lease incentives received at or before the commencement of the lease term. Right-to-use lease assets – land is amortized over the length of the lease term unless the lease contains a purchase option that the lessee has determined is reasonably certain of being exercised, in which case the lease assets – buildings/equipment are amortized on a straight-line basis over the shorter of the lease term or useful life of the underlying asset unless the lease contains a purchase option that the lessee has determined is reasonably certain of being exercised, in which case the lease assets – buildings/equipment are amortized on a straight-line basis over the shorter of the lease term or useful life of the underlying asset unless the lease contains a purchase option that the lessee has determined is reasonably certain of being exercised, in which case the lease assets would be amortized over the useful life of the underlying asset.

The State is trustee to approximately 9.2 million acres of land acquired through U.S. Government land grants in the early 1900's. The State's unit of account for trust land is total acres for purposes of applying GASB requirements. Grazing lease agreements with open recreation use comprise the primary use of trust land and the nominal charge received from lease agreements fund the cost of the State's stewardship responsibilities. Trust land is classified as a capital asset. It does not meet the GASB definition of an investment as it's not held primarily for the purpose of income or profit nor does it have a present service capacity based solely on its ability to generate cash or to be sold to generate cash. The State acquired a substantial portion of trust land at no cost and its acquisition value has not been reliably estimated. Accordingly, trust land is not reported in the accompanying financial statements.

The State has interest in and maintains significant special collections, works of art, and historical treasures. Except for the ASU, all special collections, works of art, and historical treasures which are held for financial gain are capitalized at fair value at the date of acquisition or acquisition value if donated. Those special collections, works of art, and historical treasures which are held for educational, research, or public exhibition purposes are not capitalized, as they are not subject to disposal for financial gain or encumbrance. Such items are inventoried for property control purposes. The ASU capitalizes all works of art and historical treasures with a unit cost of \$5,000 or more.

Additional disclosures related to capital assets are provided in Note 4.

### I. INVESTMENT EARNINGS

Investment earnings are composed of interest, dividends, and net changes in fair value of applicable investments.

### J. SCHOLARSHIP ALLOWANCES

Student tuition and fee revenues, and certain other revenues earned by the three State Universities are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses and Changes in Fund Net Position. A scholarship discount and allowance is the difference between the stated charge for goods and services provided and the amount that is paid by the student or third party making payment on behalf of the student. Accordingly, some types of student financial aid such as fee waivers, Pell grants, and scholarships awarded by the Universities are considered to be scholarship allowances. These allowances are netted against applicable revenues in the Statement of Revenues, Expenses and Changes in Fund Net Position.

### K. UNEARNED REVENUE

In the government-wide, governmental fund, and proprietary fund financial statements, unearned revenue is recorded when cash, receivables, or other assets are received prior to their being earned.

### L. POSTEMPLOYMENT BENEFITS

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### M. COMPENSATED ABSENCES

In the government-wide and proprietary fund financial statements, the State accrues liabilities for compensated absences as required by the GASB. In the governmental fund financial statements, liabilities for compensated absences are not accrued, because they are not considered due and payable.

In general, State employees accrue vested annual leave at a variable rate based on years of service. Except for uncovered State employees and University employees, an employee generally forfeits accumulated annual leave in excess of 240 hours as of the last day of the last pay period for a calendar year, unless the Director of the Department of Administration authorizes an exception. Uncovered State employees shall forfeit accumulated annual leave in excess of 320 hours as of the end of each calendar year, unless an exception is authorized. University employees may accumulate up to 320 hours of vacation, and any vacation hours in excess of the maximum

amount that are unused at December 31 are forfeited Except for University employees, an employee who separates from State employment is paid for all unused and unforfeited annual leave at the employee's rate of pay at the time of separation. University employees, upon termination of employment, are paid all unused vacation benefits not exceeding 176 hours (annual accrual amount), depending on years of service and full-time equivalent employment status.

Some employees accumulate compensatory leave for time worked over 40 hours per week. An employee may accumulate up to 240 hours of compensatory leave (480 hours if working in a public safety activity or an emergency response activity). An employee who separates from State employment is paid for all unused compensatory leave at a rate of compensation not less than the higher of: (1) the average regular rate received by such employee during the last three years of employment or (2) the final regular rate received by such employee.

For sick leave policy, see Note 12.C.

### N. LONG-TERM OBLIGATIONS

In the government-wide and proprietary fund financial statements, long-term debt and long-term liabilities are reported as liabilities. Amounts due within one year are reported as current liabilities, and amounts due thereafter are reported as non-current liabilities. Premiums and discounts on revenue bonds and COPs are deferred and amortized over the life of the debt instrument using the straight-line method. Bonds and COPs are reported net of the applicable premium or discount.

As a lessee, the State recognizes a right-to-use lease asset and a corresponding lease liability. The State's threshold for lease accounting is for all leases where the undiscounted total lease payments is \$500,000 or more. The lease liability is measured at the commencement of the lease based on the present value of the future minimum lease payments expected to be made less any lease incentives. In the absence of a stated interest rate provided in the lease contracts or if the implicit rate cannot be determined, present value is calculated using the State's incremental borrowing rate which is based on a blend of revenue lease bond rates provided by the State Treasurer's office and State-issued COP yield rates. The lease liability is reduced by the principal portion of the payments made with a corresponding interest expense component.

In the fund financial statements, governmental fund types recognize proceeds from leases, revenue bonds, COPs, other issuances, and premiums and discounts on debt as other financing sources and uses in the current period. Long-term obligations are more fully described in Note 6.

### **O. NET POSITION/FUND BALANCES**

The difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources is "Net Position" on the government-wide, proprietary fund, and fiduciary fund financial statements and "Fund Balance" on the governmental fund financial statements.

Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

**Restricted net position** results when constraints placed on net position use are either externally imposed by creditors, grantors, and contributors, or imposed by law through constitutional provisions, voter initiatives, or court orders.

**Unrestricted net position** consists of net position which does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources, which are imposed by management, but can be removed or modified.

In the governmental fund financial statements, fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Five classifications are available for reporting fund balances:

**Nonspendable fund balance** includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted or committed) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

**Restricted fund balances** have constraints placed upon the use of the resources that are either externally imposed by creditors, grantors, and contributors, or imposed by law through constitutional provisions, voter initiatives, or court orders.

**Committed fund balances** can be used only for specific purposes pursuant to constraints imposed by a formal action of the Arizona State Legislature, the State's highest level of decision-making authority. This formal action is the passage of law by the Legislature, creating, modifying, or rescinding fund balance commitments.

Assigned fund balance includes amounts that are constrained by the State's intent to be used for a specific purpose, but are neither restricted nor committed. The State does not have policies or procedures comparable to the policies that underlie this classification and, accordingly, does not report assigned fund balances.

**Unassigned fund balance** is the residual amount of the General Fund not included in the four categories described above. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

When an expenditure is incurred for purposes for which restricted, committed, and unassigned fund balance is available, the State considers restricted, committed, and unassigned amounts to have been spent in that order.

### **Budget Stabilization Fund**

The State's Budget Stabilization Fund (BSF) was enacted in 1990 by A.R.S. § 35-144. The BSF is administered by the State Treasurer, who is responsible for transferring General Fund money into and out of the BSF as required by law. The BSF is designed to set revenue aside during times of above-trend economic growth and to utilize this revenue during times of below-trend growth. The BSF is also known as the "Rainy Day Fund."

There is a statutory formula to calculate the amount to be appropriated to (deposit) or transferred out (withdrawal) of the BSF. The amount is based on calculations from the Arizona Economic Estimates Commission (EEC). The EEC compares the annual growth rate of real adjusted Arizona personal income (AZPI) for the calendar year ending in the fiscal year to the trend growth rate of real adjusted AZPI for the most recent 7 years. AZPI in the BSF formula is defined as total AZPI less transfer payments, adjusted by the gross domestic product price deflator index. If the annual growth rate exceeds the trend growth rate, the "excess" percent multiplied by General Fund revenue of the prior fiscal year would equal the amount to be deposited into the BSF. If the annual growth rate of AZPI is both less than 2% and less than the trend growth rate, the deficiency when multiplied by the General Fund revenue of the prior year would equal the amount to be withdrawn from the BSF. The BSF's total fund balance cannot be larger than 10% of the current year's General Fund revenues, excluding the beginning balance.

The budgets developed by the Governor and the Joint Legislative Budget Committee and submitted to the State Legislature at the start of each regular session include estimates of the amount to be appropriated to or transferred from the BSF for the upcoming budget year. The final determination of the amount is made by the EEC on June 1 of the budget year. The EEC calculations, however, do not result in any automatic deposits or withdrawals, as they must be authorized by legislative action. Additionally, by a two-thirds majority, the State Legislature, with the concurrence of the Governor, can decrease a deposit or increase a withdrawal. The BSF's fund balance, including earnings on investments, as of June 30, 2022, was \$981.2 million.

### P. NEW ACCOUNTING PRONOUNCEMENTS AND CHANGE IN REPORTING ENTITY

GASB Statement No. 87 (GASB 87), *Leases*, establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the

relevance and consistency of information about government's leasing activities. This Statement is effective for fiscal years beginning after June 15, 2021, as amended by GASB Statement No. 95 (GASB 95), *Postponement of the Effective Dates of Certain Authoritative Guidance*. The State has implemented the requirements of this standard.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement is effective for reporting periods beginning after December 15, 2020, as amended by GASB 95. The State has implemented the requirements of this standard.

GASB Statement No. 92, *Omnibus 2020 (multiple effective dates)* establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activities of public entity risk pools, fair value measurements, and derivative instruments. The State has implemented the requirements of this standard.

GASB Statement No. 93, *Replacement of Interbank Offered Rates (paragraphs 11b, 13, and 14)* establishes accounting and financial reporting requirements related to the replacement of an interbank offered rate. This Statement is effective for reporting periods ending after December 31, 2021 for paragraph 11b and for fiscal years beginning after June 15, 2021 for paragraphs 13 and 14, as amended by GASB 95. The implementation of this standard had no significant effect in the financial statements.

GASB Statement No. 97 (GASB 97), Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statement No. 14 and No. 84, and a supersession of GASB Statement No. 32, requires that for purposes of determining whether a primary government is financially accountable for a potential component unit, except for a potential component unit that is a defined contribution pension plan, a defined contribution OPEB plan, or an other employee benefit plan (for example, certain Section 457 plans), the absence of a governing board should be treated the same as the appointment of a voting majority of a governing board if the primary government performs the duties that a governing board typically would perform. The requirements of this statement are effective for fiscal years beginning after June 15, 2021. The State has implemented the requirements of this standard.

In fiscal year 2022, the ASUBIOS was added as a blended component unit of the Universities. Additionally, the Arizona Smart Save was removed from the State's fiduciary component units. See Note 8 for further information about the changes to the State's reporting entity and the impact on beginning net position.

### NOTE 2. DEPOSITS AND INVESTMENTS

### A. DEPOSITS AND INVESTMENT POLICIES

The State's deposits and investments are primarily under the control of the State Treasurer, the Retirement Systems, the Universities, the Industrial Commission (the Commission), and the AZ529. These entities maintain the majority of the deposits and investments of the primary government. The investment policies of these organizations are defined according to State statutes, or a governing board, or both, and are described below.

A.R.S. § 35-312, § 35-313, and § 35-314 authorize the State Treasurer to invest operating, trust, and permanent endowment fund monies. Monies deposited with the State Treasurer by State agencies are invested by the State Treasurer in a pooled fund. Any interest earned is allocated monthly into each respective pool based on average daily cash balances. There is no income from investments associated with one pool that is assigned to another pool.

The State statutes and the State Treasurer's investment policies designed to administer these statutes restrict investments to obligations of the U.S. Government and its agencies, obligations or other evidence of indebtedness of the State and certain local government subdivisions, negotiable certificates of deposit, bonds, debentures and notes issued by entities which are U.S. dollar denominated, commercial paper issued by entities which are U.S. dollar denominated, bankers acceptances, collateralized repurchase agreements, money market mutual funds, exchange traded funds, equities, and other securities. The State Treasurer is not allowed to invest in foreign investments unless the investment is denominated in U.S. dollars.

The State Treasurer maintains external investment pools [the Local Government Investment Pool (LGIP), Local Government Investment Pool – FF&C, Local Government Investment Pool – Medium Term, and Local Government Investment Pool – Medium Term FF&C]. The pools are not required to register (and are not registered) with the Securities and Exchange Commission under the Dodd-Frank Act of 2010. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. § 35-311.

In September 2008, the State agencies' and an external investment pool's share of the Lehman Brothers bond value of \$39.4 million was transferred to the Lehman Brothers Pool due to Lehman Brothers filing for Chapter 11 bankruptcy protection on September 15, 2008. The transfer was made to provide for the decline in fair value of the Lehman Brothers securities.

In December 2011, the United States Bankruptcy Court for the Southern District of New York entered an order confirming the Modified Third Amended Lehman Brothers Joint Plan of Liquidation. During the current year, approximately \$49.0 thousand was received as payout of funds being held by the Indenture Trustee for Lehman Brothers securities. The payout received was allocated to participants based on the participant's share balance and then transferred to the LGIP, reducing the carry or cost basis in the Lehman Brothers Pool. As of June 30, 2022, the carry or cost basis and the fair value for the Lehman Brothers Pool were \$21.0 million and \$44.0 thousand, respectively. There was a distribution in June 2022 during fiscal year 2022. Future distributions are generally expected every year thereafter. The remaining amount to be recovered is unknown.

The fair value of investments is measured on a monthly basis. Participant shares are purchased and sold based on the Net Position Value (NPV) of the shares. The NPV is determined by dividing the fair value of the investment pools by the total shares outstanding. The State Treasurer does not contract with an outside insurer in order to guarantee the value of the investment pools or the price of shares redeemed.

The Central Arizona Water Conservation District is an individual investment account.

The State Treasurer's deposits and investments disclosures include the amounts reported by the State's component units as (unrestricted/restricted) "Cash and pooled investments with State Treasurer" in the accompanying financial statements, as applicable.

State statutes authorize the retirement systems to make investments in accordance with the "Prudent Person" rule. As such, investment management shall discharge the duties of their position with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a "prudent person" acting in a like capacity and familiar with the same matters would use in the conduct of an enterprise of a like character and with like aims as that of the system.

The ASRS invests in short-term securities, obligations of the U.S. government or agencies of the U.S. government, corporate bonds, common and preferred stocks (domestic and foreign), mortgages, derivatives, commodities, real estate, loans, and direct investments in partnerships. Per A.R.S. § 38-718, no more than 80% of the ASRS' assets may be invested at any given time in equities, measured at fair value. No more than 40% of the ASRS' assets may be in non-U.S. public equity investments, measured at fair value. No more than 60% of the ASRS' assets may be invested internally, measured at fair value. No more than 10% of the ASRS' assets may be invested in bonds or other evidences of indebtedness of those multinational development banks in which the U.S. is a member nation, including the International Bank for Reconstruction and Development, the African Development Bank, the Asian Development Bank, and the Inter-American Development Bank, measured at fair value. The ASRS Board has not formally adopted more restrictive policies for the various types of risks.

Per A.R.S. § 38-848F(1), § 38-803A(4), and § 38-883A(4), the PSPRS, the EORP, and the CORP, respectively, may not invest at any given time more than 80% of the combined assets of the system or other plans that the Board of Trustees manages in corporate stocks, based on cost value of such stocks irrespective of capital appreciation. In addition, the PSPRS, the EORP, and the CORP investments shall be restricted to stocks and exchange traded funds that, except for bank and insurance stocks and membership interests in limited liability companies, are either: 1) listed or approved on issuance for listing on an exchange registered under the Securities Exchange Act of 1934, as amended, 2) designated or approved on notice of issuance for designation on the national market system of a national securities association registered under the Securities Exchange Act of 1934, as amended, 3) listed or approved on issuance for listing on an exchange registered of a foreign country with which the U.S. is maintaining diplomatic relations at the time of purchase, except that no more than 20% of the combined assets of the system or other plans that the board manages shall be invested in foreign securities, based on the cost value of the stocks irrespective of capital appreciation, or 5) an exchange traded fund that is recommended by the chief investment officer of the system, that is registered under the Investment Company Act of 1940, and that is both traded on a public exchange and based on a publicly recognized index. Not more than 5% of the combined assets of the system or other plans that the board manages shall be invested in corporate stock issued by any one corporation, other than corporate stock issued by corporations chartered by the U.S. government or corporate stock issued by a bank or insurance company. Not more than 5% of the voting stock of any one corporation

shall be owned by the system and other plans that the board administers, except that this limitation does not apply to membership interests in limited liability companies.

The Arizona Board of Regents (ABOR) governs the investment policies of the Universities. The Universities are generally limited to investing their pooled operating funds in collateralized certificates of deposit and repurchase agreements, U.S. Treasury securities, Federal agency securities, investment grade corporate bonds, or in the LGIP administered by the State Treasurer. Investment of capital project funds is also governed by the financing indenture agreements. For endowment investments, ABOR policy dictates that these funds are to be invested under the direction of an investment committee designated by the president of each university. The investment committee is responsible for advising on the definition, development, and implementation of investment objectives, policies, and restrictions. However, if donors restrict the investments, ABOR policy requires the University to invest those funds separately as directed by the donor, and the individual endowments bear all changes in value.

Per A.R.S. § 23-1065, the Commission's investment committee is responsible for prescribing investment policies and supervising the investment activities of the Commission. The Commission requires that their investment policy be responsive to the unpredictable nature of the incidence and severity of claims, the long periods over which losses may be paid, and the effect on both claims and losses of increases in treatment and rehabilitation costs. The investment committee may invest in any legal investment authorized under A.R.S. § 38-718.

The State Board of Investment serves as trustee of the AZ529, and the State Treasurer administers the fund. On the recommendation of the Treasurer, the board selects financial institutions to implement the plan. These institutions have been authorized to invest AZ529 assets in securities, including shares of mutual funds advised by affiliates, subsidiaries or divisions of the financial institution, or other property or part interest therein for the account. Investment options include age based, static portfolios and single underlying mutual funds with established target ranges for the allocation of the portfolio's assets for the U.S. equity, international equity, investment grade bond, non-investment grade bond and short-term bond asset classes. Two additional fund types may be offered with mutual agreement of the Trustee and Investment Manager – a stable value portfolio and a sustainability portfolio.

Since all investments for the AZ529 are participant directed, all investment risks (custodial credit risk, interest rate risk, credit risk, concentration of credit risk, and foreign currency risk) exist at the participant level and not with the State. Each individual participant has the ability to liquidate their positions on demand and has responsibility for managing their exposure to fair value loss. Therefore, as there is no investment risk exposure to the State, these investments are not included in the risk disclosures in Note 2.B through Note 2.F. However, they are included in the fair value measurement disclosures in Note 2.G.4.

### **B.** CUSTODIAL CREDIT RISK - DEPOSITS AND INVESTMENTS

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party. The State Treasurer's, the Retirement Systems', and the Universities' deposits of State treasury monies with financial institutions are required by State statutes to be entirely covered by the Federal Depository Insurance Corporation (FDIC) or, alternatively, collateralized for amounts in excess of the amount insured. Surety collateral for the Universities and the ASRS must be equal to at least 100% of the bank balance required to be collateralized (102% for the State Treasurer, the PSPRS, the EORP, and the CORP). Beyond this requirement, these organizations do not have a formal policy specifically addressing custodial credit risk on deposits, except for the State Treasurer. The State statutes require surety collateral for the State Treasurer to consist of either: 1) U.S. Government obligations, State obligations, or obligations of counties or municipalities within the State, 2) State Treasurer's warrant notes, or 3) the safekeeping receipt of the financial institution accepting the deposit.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered. The State does not have a formal policy in regard to custodial credit risk for investments. As of June 30, 2022, the State had \$43.5 million in securities that were uninsured, not registered in the State's name, and held by either the counterparty or counterparty's trust department or agent, but not in the State's name.

### C. INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The State manages interest rate risk using the segmented time distribution, weighted average maturity, and effective duration methods.

The State Treasurer manages interest rate risk by incorporating A.R.S. limitations into their investment policy and setting forth various thresholds or parameters relating to interest rate risk in accordance with each investment pool's structure. The State Treasurer's policy provides either maturity or duration limitations for the various investment pools. The interest rate risk inherent in the investment pool is monitored monthly by measuring the weighted average maturity and/or duration.

The ASRS has not adopted a specific formal policy for interest rate risk, but does set more restrictive requirements in its contracts with external money managers.

The ASU's policies do not limit the overall maturity of the investments held by the operating and endowment funds; however, the operating fund investment policy includes guidelines addressing diversification and liquidity. The capital projects fund's portfolio is not limited as to the overall maturity of its investments, with the funds invested per the financing indentures to coincide with capital spending needs and debt service requirements, which are typically less than three years, with the additional limitation that certificates of deposit and commercial paper have maximum maturities of 360 days and 270 days, respectively.

The Commission approves and contracts with different investment managers of fixed income securities in order to manage the exposure to interest rate risk with each different manager focusing on different goals of yield periods or duration of maturities of their particular portion of the investment pool.

The following table presents the State Treasurer's, the ASRS', the ASU's, and the Commission's weighted average maturity in years by investment type as of June 30, 2022 (expressed in thousands):

| Investment Type                                     | <br>Fair Value   | Weighted Average<br>Maturity (in years) |
|---|------------------|---|
| Asset backed securities                             | \$<br>391,220    | 2.87                                    |
| Certificates of deposit (negotiable)                | 102,543          | 0.07                                    |
| Commercial mortgage backed securities               | 124,091          | 17.53                                   |
| Commercial paper                                    | 7,466,311        | 0.12                                    |
| Commingled funds – fixed income                     | 1,608,516        | 8.80                                    |
| Corporate notes & bonds                             | 5,059,316        | 3.45                                    |
| Government bonds                                    | 1,340,748        | 6.58                                    |
| Money market mutual funds                           | 2,134,359        | 0.03                                    |
| Private market fixed income                         | 11,506,055       | *                                       |

\*Weighted average maturity information for some securities is not available.

The PSPRS, the EORP, and the CORP do not have a formal policy in regard to interest rate risk. The PSPRS, the EORP, and the CORP utilize effective duration to identify and manage its interest rate risk.

The following table presents the PSPRS', the EORP's, and the CORP's effective duration by investment type as of June 30, 2022 (expressed in thousands):

| Investment Type                        | F  | air Value | Effective Duration<br>(in years) |
|--|----|-----------|----------------------------------|
| Asset backed securities                | \$ | 1         | 4.89                             |
| Corporate notes & bonds                |    | 1,986     | —                                |
| U.S. agency mortgage backed securities |    | 6,422     | 7.08                             |

| Total                                  | \$ | 572,796   |                                  |

The U of A does not have a formal policy in regard to interest rate risk. The NAU's investment policy for its operating funds limits the maximum maturity of any fixed-rate or variable-rate security to five years from the settlement date of purchase. The NAU's endowment fund portfolio has no such limitation.

The following table presents the interest rate risk for the NAU, the U of A, and other State agencies utilizing the segmented time distribution as of June 30, 2022 (expressed in thousands):

|                                      |    | Investment Maturities (in years) |    |             |    |         |    |        |    |             |

### D. CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the holder of the investment.

State statutes and the State Treasurer's investment policy require that commercial paper must be rated by at least two nationally recognized statistical rating organizations (NRSROs) and that the ratings assigned by at least two of the NRSROs be of the two highest rating categories for short-term obligations when purchased. Corporate bonds, debentures, notes, negotiable certificates of deposit, and municipal bonds must carry an investment grade rating by any NRSRO. For securities of, or any other interests in, any open-end management type investment company or investment trust, including exchange traded funds, the underlying investments must be securities which are allowable under State statutes. There is no statute or investment policy on ratings or credit quality for obligations issued by the U.S. Government or its agencies, or repurchase agreements. The underlying securities for repurchase agreements are either directly guaranteed by the U.S. Government (Treasury securities) or implicitly guaranteed by the U.S. Government (agency securities).

The ASRS has not adopted a formal policy with respect to credit risk.

The PSPRS', the EORP's, and the CORP's investment policies are specific as to permissible credit quality ranges, exposure levels within individual quality tiers, and the average credit quality of the overall portfolios.

The Universities' policies mirror that of the ABOR, which requires that negotiable certificates of deposit, corporate bonds, debentures and notes, bankers acceptances, and State of Arizona bonds carry a minimum BBB or better rating from S & P or Baa or better rating from Moody's at the time of purchase and that the investment will be sold in an orderly manner or held until maturity without further investments being made if it falls below this credit rating; and that commercial paper be rated by at least two NRSROs and be of the two highest rating categories for short-term obligations of at least two of the NRSROs. In addition, the Universities do not have formal policies that specifically address credit risk over endowment funds. The Universities' endowment funds are primarily invested in their Foundations' endowment pools, which are not rated. The Foundations' investment committees manage the credit risk of the pools' investments. Also, the ASU's capital projects and bond debt service funds are invested by the bond trustee in accordance with the applicable financing indenture.

The Commission's investment policy requires that purchases of fixed income securities will consist of U.S. Treasury or Federal agency obligations or those bonds rated not less than Baa3 by Moody's or BBB- by S & P, except for fixed income managers who have been hired to manage funds in a specialized manner (high yield).

The following table presents the State's investments which were rated by S & P and/or an equivalent national rating organization as of June 30, 2022. The ratings are presented using S & P's rating scale (expressed in thousands):

| Investment Type                        | Fair Value    | AAA          | AA           | Α            | BBB             | BB     | A-1 Thru A-3 | Not<br>Rated  |

| Total                                  | \$ 35,726,561 | \$ 3,768,457 | \$ 6,935,481 | \$ 3,341,843 | \$ 1,958,913 \$ | 24,465 | \$ 7,466,101 | \$ 12,231,301 |

### E. CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The State Treasurer's, the ASRS', the Universities', and the Commission's investment policies provide that no more than 5% of their investments shall be invested in securities issued by a single corporation and its subsidiaries/affiliates. However, securities issued by the U.S. government or its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities are exempt. The State Treasurer also exempts from this policy bonds issued by an agency of the State, and pre-refunded municipal bonds issued by any entity that are invested in obligations issued or guaranteed by the U.S. government or any of its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities. The PSPRS', the EORP's, and the CORP's investment policies state that no more than 5% of the Fund or its fixed income portfolio at fair value shall be invested in bonds issued by any one institution, agency, or corporation other than bonds issued as direct obligations of, and fully guaranteed by, the U.S. Government. At June 30, 2022, no investments in any one issuer exceeded more than 5% of the primary government's total investments.

### F. FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in the foreign exchange rate will adversely impact the fair value of an investment or deposit. The State does not have a formal policy regarding foreign currency risk. The ASRS, the PSPRS, the EORP, and the CORP are the primary State agencies that have foreign currency risk. Per A.R.S. § 38-718, no more than 40% of the ASRS' assets may be invested in foreign securities and those investments shall be made only by investment managers with expertise in those investments. The ASRS has not adopted a formal policy that is more restrictive. Per A.R.S. § 38-848, the PSPRS, the EORP, and the CORP shall not invest more than 20% of the combined assets of the system or other plans that the Board of Trustees manages in foreign securities.

The following table summarizes the State's foreign currency risk as of June 30, 2022 (expressed in thousands):

|                        | Foreign Cu    | rrency Risk by I | nvestment Type at | Fair Value   |  |  |  |  |  |  |

### G. FAIR VALUE MEASUREMENT OF INVESTMENTS

Fair value measurements are categorized within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements) as follows:

- Level 1 Quoted prices for identical investments in active markets that are accessible at the measurement date;
- Level 2 Inputs, other than quoted market prices included in Level 1, that are observable, either directly or indirectly;
- Level 3 Prices or valuations that require inputs that are significant to the fair value measurement and unobservable.

### 1. Primary Government (excluding Universities and Fiduciary Funds)

#### a. Investments Classified in Fair Value Hierarchy

The investments held by the primary government (excluding Universities and Fiduciary Funds) at June 30, 2022, categorized within the fair value hierarchy, were as follows (expressed in thousands):

|   |               | Fair Value Measurements Using  |   |  |  |  |
|---|---------------|--|---|--|--|--|
| Investments by Fair Value Level                     | June 30, 2022 | Quoted Prices<br>In Active<br>Markets for<br>Identical Assets<br>(Level 1) | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) | Significant<br>Unobservable<br>Inputs<br>(Level 3) |  |  |

| Money market mutual funds                           | 1,600,379     | 12,300   | 1,588,079   | —  |  |  |
| Repurchase agreements                               | 6,778,911     |  | 6,778,911   | —  |  |  |
| Security lending collateral investments             | 121,645       | —  | 121,645   | —  |  |  |
| U.S. agency mortgage backed securities              | 388,593       | —  | 388,593   | —  |  |  |
| U.S. agency mortgage backed securities - full faith | 424,670       | —  | 424,670   |  |  |  |
| U.S. agency securities                              | 926,989       | —  | 926,989   |  |  |  |
| U.S. agency securities – full faith                 | 164,805       | —  | 164,805   | —  |  |  |
| U.S. Treasury securities                            | 3,152,750     | —  | 3,152,750   |  |  |  |
| Other   | 24,294        | 23,096   | 1,198   |  |  |  |
| Total investments by fair value level               | 30,472,317    | \$ 4,307,182   | \$ 26,165,135   | <u>\$                                    </u>      |  |  |
| Investments Measured at the Net Asset Value (NAV)   |               |  |   |  |  |  |
| Bank loan partnership fund                          | 17,831        |  |   |  |  |  |
| Foreign large value fund                            | 28,464        |  |   |  |  |  |
| High yield short term duration bond fund            | 21,843        | _  |   |  |  |  |
| Total investments measured at the NAV               | 68,138        | _  |   |  |  |  |
| Total investments measured at fair value            | \$ 30,540,455 | -  |   |  |  |  |

Investments categorized as Level 1 of the fair value hierarchy are primarily valued using prices quoted in active markets for those investments. Investments categorized as Level 2 of the fair value hierarchy are primarily valued using evaluated bids. The evaluated bid is based on a compilation of primary observable market information or a broker quote in a non-active market.

#### b. Investments Measured at the NAV

The investments held at June 30, 2022, valued using the NAV per share were as follows (expressed in thousands):

| Investments Measured at the NAV          | Fa | ir Value | Unfunded<br>Commitments | Redemption<br>Frequency (if<br>Currently Eligible) | Redemption<br>Notice<br>Period |
|--|----|----------|-------------------------|--|--------------------------------|

| U of A – Split Interest Endowment        | 10,036        |  |   |  |  |  |  |  |  |  |
| Total other investments at fair value    | 895,683       | -  |   |  |  |  |  |  |  |  |
| Investments Measured at the NAV          |               | -  |   |  |  |  |  |  |  |  |
| Equity mutual funds                      | 9,061         |  |   |  |  |  |  |  |  |  |
| Total investments measured at the NAV    | 9,061         | -  |   |  |  |  |  |  |  |  |
| Total investments measured at fair value | \$ 3,443,154  | -  |   |  |  |  |  |  |  |  |
|  |               | -  |   |  |  |  |  |  |  |  |

Investments categorized as Level 1 of the fair value hierarchy are valued using unadjusted prices quoted for identical assets in active, exchange, and brokered markets for those securities. Investments categorized as Level 2 of the fair value hierarchy are primarily valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Investments categorized as Level 3 of the fair value hierarchy are valued using various methods. The fair value of equities are valued using multiple pricing options. For managed assets, business appraisers use valuation methodologies based on a number of assumptions to create the price. For non-managed assets, pricing is provided by various sources including the issuer or private investment manager. Real estate is valued by using either (1) the market approach industry standard valuation technique which includes independent appraisals or (2) the income approach to measuring fair value which discounts future amounts to a single current amount. When the income approach is used, the fair value measurement reflects current market expectations about those future amounts.

#### b. Other Investments at Fair Value

The fair value of the ASU's position in the ASU Foundation Endowment Pool is based on the ASU's proportionate share of the Pool, which is valued at marked-to-market monthly. The fair values of the U of A Academic Enhancement Fund Trust and Interest in Permanent Endowment are derived from their respective custodial bank's independent pricing services. The U of A has beneficial interests in these investment accounts, and determines fair value based on the U of A's percentage of beneficial interest, which is the unit of account for purposes of fair value determination. The fair value of the U of A's position in the U of A Foundation Pool is based on the U of A's proportionate share of the Pool, which is valued at marked-to-market monthly.

#### c. Investments Measured at the NAV

The investments held by the Universities at June 30, 2022, valued using the NAV per share were as follows (expressed in thousands):

| Investments Measured at the NAV | Fair | ·Value | Unfunded<br>Commitments | Redemption<br>Frequency (if<br>Currently Eligible) | Redemption<br>Notice<br>Period |
|---------------------------------|------|--------|-------------------------|--|--------------------------------|
| Equity mutual funds             | \$   | 9,061  |                         | Quarterly  | 90 days                        |
| Total                           | \$   | 9,061  |                         |  |                                |

Equity mutual funds include event-driven hedge funds investing in corporate financial restructurings, major operations reorganizations, distressed situations, and other events.

#### 3. Pension and Other Employee Benefit Trust Funds

#### a. Investments Classified in Fair Value Hierarchy

The investments held by the ASRS, PSPRS, EORP, and CORP at June 30, 2022, categorized within the fair value hierarchy, were as follows (expressed in thousands):

Equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Equity securities classified as Level 2 are generally valued using most recent trade price available in inactive markets. Equity securities classified in Level 3 are valued using unobservable inputs, including situations where there is little market activity, if any. U.S. Treasury notes and bonds classified in level 1 are valued using prices quoted in active markets for those securities. Interest rate sensitive securities classified in Level 2 are primarily valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Real estate investments classified in Level 1 are valued using prices quoted in active markets. Real estate assets classified in Level 3 are real estate investments valued by external appraisals generally obtained at least annually and performed by an independent appraiser.

#### b. Investments Measured at the NAV

The investments held by the ASRS, PSPRS, EORP, and CORP at June 30, 2022, valued using the NAV per share were as follows (expressed in thousands):

| Investments Measured at the NAV                   | Fair Value    | Unfunded<br>Commitments | Redemption Frequency<br>(if Currently Eligible)                            | Redemption<br>Notice Period   |
|---|---------------|-------------------------|--|---|
| Commingled funds - interest rate sensitive        | \$ 1,608,516  | \$                      | Daily  | 2 days  |
| Commingled funds – international emerging markets | 2,047,795     | _                       | Daily  | 1 - 2 days  |
| Credit funds                                      | 11,506,055    | 5,618,299               | N/A  | N/A   |

| Real estate funds                                 | 9,173,606     | 5,083,674               | N/A  | , N/A   |
| U.S. fixed income                                 | 106,973       | _                       | Daily  | 2 - 5 days  |
| U.S. public equities                              | 438,280       | _                       | Daily, Monthly   | 1 day - 1 month   |
| Other – capital appreciation                      | 100,290       | 85,441                  | N/A  | N/A   |
| Other – contractual income                        | 529,605       | 220,995                 | N/A for the private<br>holdings; Daily for liquid<br>placeholders (if any) | N/A for the private<br>holdings; 2 days for liquid<br>placeholders (if any) |
| Total   | \$ 39,479,096 | \$ 17,840,467           |  |   |

*Commingled Funds* – The types of strategies within commingled funds can include investments in public markets interest rate sensitive and public markets international equities. The funds have a perpetual life. Redemption frequencies are daily. There are no plans to liquidate the total portfolio.

*Credit Funds* – Credit investments are invested within limited partnerships or limited liability companies. The types of investment strategies within these structures consist of corporate debt, asset backed securities and special situations. These investments have an approximate life of 3 to 10 years and are generally illiquid. Redemption restrictions are generally in place throughout the life of the investment unless an early termination right exists. If the early termination right is exercised, the result is an acceleration of distributions and the approximate life of the investment would be reduced. Distributions are received as investments are realized. There are no plans to liquidate the portfolio.

*Diversifying Strategies* – Diversifying strategy investments are held in commingled funds that are designed to offer risk reduction, uncorrelated returns and liquidity.

*Global Private Equity* – Global private equity investments are held in commingled funds focused on middle-market buyouts, venture capital, real estate, real asset and growth equity investments.

Private Credit - Private credit investments are held in commingled funds that focus on middle-market cash-flow lending.

*Private Equity Funds* – Private equity investments are invested primarily within limited partnerships. The types of investment strategies within these partnerships include: buyouts, distressed, special situations, secondaries, mezzanine, and venture capital. These investments have an approximate life of ten years and are considered illiquid. Redemptions are restricted over the life of the partnerships. During the life of the partnerships, distributions are received as underlying partnership investments are realized. There are no plans to liquidate the total portfolio.

*Real Estate Funds* – Investments in real estate funds are invested primarily through highly customized separate accounts as well as within limited partnerships or limited liability companies. Real estate investments include public and private real estate investment trusts, debt instruments, and assets with strategies including opportunistic, stabilized, and develop-to-core assets within multi-family, student housing, senior housing, single family rental, industrial, grocery anchored retail, office, medical office, data centers, and manufacturing housing. Across the separate accounts, the ASRS maintains the ability to sell individual assets. Redemption restrictions are generally in place throughout the life of the investment unless an early termination right exists. If the early termination right is exercised, the result is an acceleration of distributions and the approximate life of the investment would be reduced. Distributions are received as investments are realized. There are no plans to liquidate the portfolio.

*Other - Capital Appreciation* – Capital appreciation investments translate growth in the economy to growth of the Trust's assets through appreciation. Sub-asset classes in capital appreciation include U.S. equity, international equity and the alternative asset class, global private equity.

*Other - Contractual Income –* Contractual income investments include esoteric income oriented transactions such as royalty and/or leasing strategies as well as farmland and reinsurance agreements.

### c. Other Investments at Cost Plus Accrued Interest

Reinvested cash collateral held related to securities lending activities is reported based on the cash deposit value of the collateral held, which approximates fair value.

#### 4. Private-Purpose Trust Funds

#### a. Investments Classified in Fair Value Hierarchy

The investments held by the AZ529 are managed by different investment companies with three different fiscal year ends, September 30, 2021, December 31, 2021, and March 31, 2022. The investments, categorized within the fair value hierarchy, were as follows (expressed in thousands):

|  |  | Fair Value Measurements Using  |   |  |  |  |  |  |
|--|--|--|---|--|--|--|--|--|
| Investments by Fair Value Level            | Fiscal year<br>ending<br>June 30, 2022<br>or earlier | Quoted Prices<br>In Active<br>Markets for<br>Identical Assets<br>(Level 1) | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) | Significant<br>Unobservable<br>Inputs<br>(Level 3) |  |  |  |  |

| Non U.S. equities                          | 22,781   | 3,510  | 19,202  | 69   |  |  |  |  |
| Registered investment companies            | 39,374   | 39,374   | —   |  |  |  |  |  |
| Securities lending collateral – short term | 2,175  | 2,175  | _   | _  |  |  |  |  |
| U.S. agency mortgage backed securities     | 870  | _  | 870   | _  |  |  |  |  |
| U.S. agency securities                     | 5,687  | _  | 5,687   | _  |  |  |  |  |
| U.S. equities                              | 165,584  | 164,930  | 649   | 5  |  |  |  |  |
| U.S. Treasury securities                   | 1,657  |  | 1,657   | _  |  |  |  |  |
| Other                                      | 994  |  | 994   | —  |  |  |  |  |
| Total investments by fair value level      | \$ 1,959,986   | \$ 1,908,753   | \$ 51,159   | \$ 74  |  |  |  |  |

The fair value of gold bullion is at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded and are categorized in Level 1. Mutual funds typically are valued at the net asset value (NAV) each business day and are categorized as Level 1. Equity securities that are stated at the last reported sales price or closing price on the day of valuation taken from the primary exchange where the security is principally traded and to the extent these securities are actively traded are categorized in Level 1. Equity securities traded on inactive markets or valued by reference to similar instruments are generally categorized in Level 2. Equity securities classified in Level 3 are valued using unobservable inputs, including situations where there is little market activity, if any. The fair value of corporate bonds and other fixed income securities, categorized as Level 2, are obtained from an independent pricing service and is estimated using various techniques. In instances where lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they are categorized in Level 3. U.S. government and agency securities, broker quotes, yields, bids, offers, quoted market prices, and reference data. Level 3 investments may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Valuations may also be based upon current market prices of securities that are comparable in coupon, rating, maturity and industry. The derived value of a Level 3 investment may not represent the value which is received upon disposition and this could impact the results of operations.

### H. SECURITIES LENDING

Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. A corresponding liability is also recorded for such securities lending transactions.

#### 1. Arizona State Retirement System

The ASRS is permitted by A.R.S. § 38-718(G) to enter into securities lending transactions. The ASRS' custodial bank enters into agreements with borrowers to loan securities and have the same securities redelivered at a later date. Securities eligible for loan include U.S. interest rate sensitive securities, U.S. equities, and international equities. The ASRS currently receives as collateral at least 102% of the fair value of the loaned securities and maintains collateral at no less than 100% for the duration of the loan. At year-end, the ASRS had limited counter party risk to borrowers because the collateral held by the ASRS for each loan exceeded the fair value owed to the ASRS. Securities loaned are initially fully collateralized by cash (USD), U.S. Government or agency securities, sovereign debt, corporate bonds and/or equities. Cash collateral may be reinvested (under certain constraints) in: a) U.S. Treasury debt instruments, b) U.S. agency debt instruments, c) corporate obligations, d) bank obligations, e) repurchase agreements, and f) Dreyfus Institutional Preferred Plus Government SL Fund. The ASRS records the reinvested cash collateral as an asset, and the cash collateral received as an obligation for securities on loan on the Statement of Fiduciary Net Position. The maturities of the investments are closely matched to those of the security loans to avoid interest rate exposure. The ASRS receives a spread for its lending activities. The obligation for securities on loan is recorded as a liability because the ASRS must return the cash collateral to the borrower upon expiration of the loan. At June 30, 2022, the fair value of securities on loan was \$1.2 billion, of which \$83.5 million were cash collateralized loans. Cash of \$90.4 million received as collateral for securities loaned was reinvested and had a net asset value of \$90.4 million, as of June 30, 2022. The securities lending payable at June 30, 2022 was \$90.4 million. The ASRS does not have the ability to pledge or sell the collateral unless there is a borrower default. There are no statutory restrictions on the dollar amount of security loans that may be made by the ASRS. The ASRS is indemnified against gross negligence and borrower default by the lending agents, but is not indemnified against cash collateral reinvestment risk.

#### 2. Public Safety Personnel Retirement System, Elected Officials' Retirement Plan, and Corrections Officer Retirement Plan

The PSPRS, the EORP, and the CORP are permitted by A.R.S. Title 38, Chapter 5, Articles 4, 3, and 6, respectively, to enter into securities lending transactions. The PSPRS, the EORP, and the CORP are parties to securities lending agreements with a custodial bank. The custodial bank, on behalf of the PSPRS, the EORP, and the CORP, enters into agreements with brokers to loan securities and have the same securities returned at a later date. The loans are fully collateralized by cash and securities. Collateral is marked-to-market on a daily basis. Non-cash collateral can be sold only upon borrower default. The PSPRS, the EORP, and the CORP require collateral of at least 102% of the fair value of the loaned U.S. securities and 105% of the fair value of the loaned international securities, plus any applicable accrued interest in the case of debt securities. Securities on loan are carried at fair value. As of June 30, 2022, the fair values of securities on loan for the PSPRS, the EORP, and the CORP were \$457.9 million, \$12.0 million, and \$116.7 million, respectively. At June 30, 2022, the values of the cash collateral for the PSPRS, the EORP, and the CORP were \$437.7 million, \$11.5 million, and \$111.5 million, respectively. At June 30, 2022, the values of the non-cash collateral for the PSPRS, the EORP were \$38.6 million, \$1.0 million, and \$9.8 million, respectively. The PSPRS, the EORP, and the CORP are indemnified for broker default by the securities lending agent. The PSPRS, the EORP, and the CORP have no credit risk because the associated value of the collateral held exceed the value of the securities loaned.

### 3. State Treasurer

The State Treasurer is permitted under A.R.S. § 35-313 and § 35-324 to enter into securities lending transactions. The State Treasurer's custodial bank manages the securities lending program through a contractual agreement. At fiscal year-end, the State Treasurer had no credit risk exposure to borrowers because the amount the State Treasurer owes to the borrowers exceeds the amount the borrowers owe the State Treasurer. All securities are eligible for loan, but equities and U.S. Treasuries comprise a majority of securities that are on loan. There are no restrictions on the dollar amount of security loans that may be made by the State Treasurer. Securities are loaned for collateral that may include cash (U.S. currency), U.S. and international equities, and other assets permissible under Rule 15c3-3 under the Securities Exchange Act of 1934. Securities are loaned for collateral valued at not less than 102% of the fair value of the securities loaned at the close of trading on the preceding business day. Investments made with cash collateral are done on an individual investment pool basis and are restricted to the limitations for that investment pool set forth in the State Treasurer's investment policy, except for equity investments made for certain equity pools. Permitted investments for these equity pools include those investments authorized in section IV of the State Treasurer's investment policy. Cash collateral investments include: a) obligations issued or guaranteed by the United States or any of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities including repurchase and tri-party repurchase agreements collateralized at no less than 102% by securities and Exchange Commission and rated in the highest category by at least one NRSRO.

The State Treasurer records the cash collateral received as an asset and the same amount as an obligation under security loan agreements. As of June 30, 2022, the cost and fair value of securities on loan were \$191.0 million and \$171.0 million, respectively. The associated fair value of the invested collateral was \$175.0 million, of which \$122.0 million was invested cash collateral. All securities loans can

be terminated on demand by either the State Treasurer or the borrower. For the cash collateral investments, the weighted average maturity was one day. The State Treasurer does not have the ability to pledge or sell the non-cash collateral unless there is a borrower default. The State Treasurer is indemnified against gross negligence, bad faith, or willful misconduct and borrower default by the lending agent. There were no borrower defaults during the current fiscal year.

At June 30, 2022, the State Treasurer had \$122.0 million outstanding as payable for securities lending, and the following securities on loan were uninsured and held by the bank trust department not in the Treasurer's name (expressed in thousands):

| U.S. Treasury securities | \$<br>12,088 |
|--------------------------|--------------|
| Equities                 | 27,096       |
| Corporate notes          | <br>12,476   |
| Total Fair Value         | \$<br>51,660 |

### I. DERIVATIVES

A derivative instrument is a financial instrument or other contract with all three of the following characteristics:

- Settlement factors: It has one or more reference rates and one or more notional amounts or payment provisions or both. Those terms determine the amount of the settlement or settlements, and, in some cases, whether or not a settlement is required.
- Leverage: It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- Net Settlement: Its terms require or permit net settlement, it can readily be settled net by means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

#### 1. Arizona State Retirement System

The ASRS's derivatives are considered "Investment Derivative Instruments" as defined in GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments.

The ASRS's derivative instruments, which can consist of futures contracts, forward contracts, options, swaps, rights, and warrants, are measured at fair value and reported on the Statement of Fiduciary Net Position. Changes in fair value of derivative instruments are reported as net increase (decrease) in fair value of investments on the Statement of Changes in Fiduciary Net Position.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2022, classified by type, and the changes in fair value of derivative instruments for the year then ended as reported in the June 30, 2022 financial statements were as follows (expressed in thousands):

|                               | Investment Der                              | ivat | tives by Type |                    |    |          |          |
|-------------------------------|---|------|---------------|--------------------|----|----------|----------|
|                               | e at June 30, 202                           | 2    |               |                    |    |          |          |
| <b>Investment Derivatives</b> | Classification                              |      | Amount        | Classification     |    | Amount   | Notional |
| Foreign currency forwards     | Net (decrease) in fair value of investments | \$   | (2,431)       | Futures receivable | \$ | (394) \$ | _        |
| Index futures long            | Net (decrease) in fair value of investments |      | (97,011)      | Equity securities  |    | (339)    | 173,109  |
| Total                         |   | \$   | (99,442)      |                    | \$ | (733) \$ | 173,109  |

(1) Excludes futures margin payments.

The fair value of derivative instruments reported by the ASRS is based on quoted market prices off national exchanges. The fair values of foreign currency forward contracts are based on mathematical models and are valued using a pricing service, which uses published Reuters' foreign currency rates as the primary source for the calculation.

The maximum amount of loss due to credit risk that the ASRS would incur if the counterparties to the derivative instrument failed to perform according to the terms of the contract, without respect to any collateral or other security or netting arrangement, is the total unrealized gain of derivatives at the end of the reporting period.

The ASRS has no general investment policy requiring collateral or other security to support derivative instruments. Each investment manager hired has discretion with respect to derivative investments and risk control. Each investment manager is governed by its Investment Manager Agreement.

The ASRS has no general investment policy with respect to netting arrangements. The ASRS's investment managers have master netting arrangements to allow net settlement with the same counterparty in the event the counterparty defaults on its obligations.

As of June 30, 2022, investing activity in derivative instruments consisted of exchange-traded futures contracts. The ASRS did not have any over-the-counter investment derivative instruments as of June 30, 2022. Accordingly, the ASRS was not exposed to loss in case of default of all counterparties of over-the-counter positions as of June 30, 2022.

The ASRS has exposure to interest rate risk due to the investment in interest rate sensitive and credit. The required risk disclosures are included in the Interest Rate Risk schedule in Note 2.C. The ASRS did not have any derivative instruments highly sensitive to interest rate changes as of June 30, 2022.

The ASRS is exposed to foreign currency risk on its foreign currency forward contracts and future contracts. See the Foreign Currency Risk schedule in Note 2.F. for additional information on currency risk exposure. As of June 30, 2022, the ASRS did not hold any derivative instruments that were subject to foreign currency risk.

### 2. Public Safety Personnel Retirement System, Elected Officials' Retirement Plan, and Corrections Officer Retirement Plan

The PSPRS, the EORP, and the CORP have adopted a derivative policy that specifically authorizes external investment managers to enter into certain derivative contracts based on an analysis that the use of such derivatives will have a positive impact on the PSPRS', the EORP's, and the CORP's ability to manage their underlying assets and liabilities. The investment program, indirectly through its external managers, holds investments in futures contracts. External money managers enter into certain derivative instruments primarily to enhance the performance and reduce the volatility of the PSPRS', the EORP's, and the CORP's portfolios, to gain or hedge exposure to certain markets, and to manage interest rate risk. The external managers are required to follow certain controls, documentation and risk management procedures when employing these financial instruments.

Changes in fair value for the year and outstanding futures contracts as of June 30, 2022 were as follows (expressed in thousands):

|                                      | Investment Deriv                            | ativ                  | es by Type |                      |    |             |          |
|--------------------------------------|---|-----------------------|------------|----------------------|----|-------------|----------|
|                                      | <b>Changes in Fair Value</b>                | Changes in Fair Value |            |                      |    |             | 22       |
| <b>Investment Derivatives</b>        | Classification                              |                       | Amount     | Classification       |    | Amount      | Notional |
| U.S. & Non U.S. equity index futures | Net (decrease) in fair value of investments | \$                    | (55,743)   | Equity index futures | \$ | (11,699) \$ | 359,958  |
| Total                                |   | \$                    | (55,743)   |                      | \$ | (11,699) \$ | 359,958  |

### 3. Arizona State University

Refer to Note 6.A.2.a.i. for information on debt derivatives utilized by the ASU.

### J. STATE TREASURER'S SEPARATELY ISSUED FINANCIAL STATEMENTS

The State Treasurer issues separately published Annual Audited Financial Statements. These financial statements provide additional information relating to the State Treasurer's total investing activities, including the investment trust funds. A copy of the State Treasurer's Office Annual Audited Financial Statements can be obtained from their office at: Office of the Arizona State Treasurer, 1700 W. Washington Street, Phoenix, AZ 85007, (602) 542-7800, or their website at <a href="https://aztreasury.gov">https://aztreasury.gov</a>.

### NOTE 3. RECEIVABLES/UNAVAILABLE REVENUE/UNEARNED REVENUE

#### A. TAXES RECEIVABLE

At June 30, 2022, taxes receivable were as follows (expressed in thousands):

| Type of Tax                       |    | General<br>Fund | Transportation &<br>Aviation Planning,<br>Highway<br>Maintenance<br>& Safety Fund |    | Other<br>Governmental<br>Funds |    | Unemployment<br>Compensation |    | Total<br>Government-wide |  |

### **B. LEASES RECEIVABLE**

#### 1. Governmental Activities

At June 30, 2022, leases receivable for Governmental Activities were as follows (expressed in thousands):

|                   |                 | Transportation &<br>Aviation Planning,      | I.I.I                          |    | 04                             | T. (.)                              |
|-------------------|-----------------|---|--------------------------------|----|--------------------------------|-------------------------------------|
|                   | General<br>Fund | <br>Highway<br>Maintenance<br>& Safety Fund | <br>Land<br>Endowments<br>Fund | (  | Other<br>Governmental<br>Funds | Total<br>Governmental<br>Activities |
| Leases Receivable | \$<br>687       | \$<br>21,758                                | \$<br>5 759,401                | \$ | 391,206                        | \$<br>1,173,052                     |

The Department of Public Safety is the lessor of an unmanned commercial wireless communication facility which is available to another party. The agreement is for a period of five years and automatically renews every five years for a total of twenty years. This activity is reported in the General Fund.

The ADOT is the lessor of cell tower site leases that convey control of the right to use the land on which the tower is placed or the connection point to which the antenna is affixed. A Master Lease agreement for limited access right of way for cell towers is entered into by the parties pursuant to A.R.S. § 28-7382.B and is approved by the State Transportation Board. Most agreements are for a five year term and automatically renew every five years for a total of twenty years. This activity is reported in the Transportation & Aviation Planning, Highway Maintenance & Safety Fund.

The Land Department is the lessor for a variety of leases primarily relating to rights of way, grazing, and commercial leases. The agreements range from ten years to ninety-nine years. Due to revenue distributions to beneficiaries, the lease receivables and associated lease revenues are allocated between the Land Endowments Fund and Other Governmental Funds.

### 2. Business-Type Activities

At June 30, 2022, leases receivable for Business-Type Activities were as follows (expressed in thousands):

|                   |          | <b>T</b> T - <b>* * *</b> •   |    | Other<br>Iterprise | Total<br>Business-Type |                    |  |
|-------------------|----------|-------------------------------|----|--------------------|------------------------|--------------------|--|
| Leases Receivable | <u> </u> | <b>niversities</b><br>205,632 | \$ | Funds<br>587       | \$                     | Activities 206,219 |  |

The Universities lease equipment, grounds and building space to third parties under the provisions of various lease agreements for uses including offices, commercial space, clinical space, and mixed-use space. During the fiscal year June 30, 2022, the Universities recorded 1) \$63.6 million, \$32.2 million, and \$109.8 million in lease receivables, and 2) \$3.7 million, \$1.0 million, and \$12.8 million in lease-related revenues, for the ASU, NAU, and U of A, respectively.

The Parks Board leases a building to a third party to provide for a gift shop and cafe for visitors at the Kartchner Caverns State Park. During the fiscal year June 30, 2022, the Parks Board recorded \$0.6 million in lease receivables and \$0.2 million in lease-related revenues. This activity is reported in the Other Enterprise Funds.

### C. UNAVAILABLE REVENUE

At June 30, 2022, the components of unavailable revenue for governmental funds were as follows (expressed in thousands):

|   | General<br>Fund | Transportation<br>& Aviation<br>Planning,<br>Highway<br>Maintenance<br>& Safety Fund | Land<br>Endowments<br>Fund | G  | Other<br>overnmental<br>Funds | G  | Total<br>overnmental<br>Funds |
|---|-----------------|--|----------------------------|----|-------------------------------|----|-------------------------------|
| Unavailable Revenue for Governmental Funds:         |                 |  |                            |    |                               |    |                               |
| Delinquent sales tax                                | \$<br>250,226   | \$   | \$<br>S —                  | \$ | —                             | \$ | 250,226                       |

| Total Capital Assets, Net             | \$ 26,105,757                         | \$ 464,013 | \$ (43,173)    | \$ 9,944 \$                        | 26,536,541        |

(1) Due to a reclassification of a previously reported governmental fund to an enterprise fund, there was a restatement of beginning capital assets and associated accumulated depreciation at July 1, 2021. The impact of the restatement was a net decrease of \$9.2 million to beginning balance for the Total Capital Assets, Net.

(2) The Department of Veteran Services did not properly accrue fixed assets in fiscal year 2021 which caused a restatement of beginning capital assets at July 1, 2021. The impact of the restatement was a decrease of \$20.5 million to beginning balance for Construction in Progress.

#### **Transfer of operations**

In the Fifty-fifth Legislature – First Regular Session (2021), the State Legislature passed into law Senate Bill 1829, Chapter 413 that transferred operations of the State's motor vehicle fleet and its related assets from the ADOA to the ADOT. The transfer is shown in the Internal Service Funds - Combining Statement of Revenues, Expenses and Changes in Fund Net Position, as a Special Item from the Motor Pool fund to the Transportation Vehicle and Equipment fund. As a result of the transfer of assets, the Transportation Vehicle and Equipment fund recognized the following assets and net position as of July 1, 2022 (expressed in thousands):

|  | Carry | ying Values |
|--|-------|-------------|
| Transferred Assets (Net):              |       |             |
| Buildings                              | \$    | 831         |
| Vehicles                               |       | 8,183       |
| Equipment                              |       | 35          |
| Total Capital Assets                   | \$    | 9,049       |
| Net Position of Transferred Operation: |       |             |
| Net Investment in Capital Assets       | \$    | 9,049       |

#### **B. BUSINESS-TYPE ACTIVITIES**

Capital asset and intangible right-to-use lease asset activity for Business-type Activities for the fiscal year ended June 30, 2022 were as follows (expressed in thousands):

|                                       | Beginning<br>Balance<br>(as restated) | Additions  | Retirements  | Adjustments &<br>Reclassifications | Ending<br>Balance |

(1) As a result of the inclusion of the ASUBIOS as a blended component unit of the ASU and the implementation of GASB 87, there was a restatement of associated beginning capital assets and accumulated depreciation at July 1, 2021. The impact of the restatement was a net decrease of \$12.0 million to beginning balance for the Total Capital Assets, Net.

(2) Due to a reclassification of a previously reported governmental fund to an enterprise fund, there was a restatement of beginning capital assets and associated accumulated depreciation at July 1, 2021. The impact of the restatement was a net increase of \$9.2 million to beginning balance for the Total Capital Assets, Net.

(3) The Department of Veteran Services did not properly accrue fixed assets in fiscal year 2021 which caused a restatement of beginning capital assets at July 1, 2021. The impact of the restatement was an increase of \$17.0 million to beginning balance for Construction in Progress.

### NOTE 5. PENSION AND OTHER POSTEMPLOYMENT BENEFITS

The State contributes to several pension plans. The ASRS, PSPRS – DPS, CORP – DCRR, and EORP are described below. Benefits are established by State statutes and provide retirement, disability, and survivor benefits to State employees. The PSPRS' Attorney General Investigators, Department of Liquor License and Control Investigators, the ASU Campus Police, the NAU Campus Police, the U of A Campus Police, State Park Rangers, Department of Emergency and Military Affairs, and Game and Fish Department agent multiple-employer defined benefit pension plans and the cost-sharing multiple-employer defined benefit pension plan are not further disclosed because of their relative insignificance to the State's financial statements. Employees participate in either the agent plan or the cost-sharing plan based on their date of hire. The CORP's Department of Juvenile Corrections, Department of Public Safety Dispatchers, and Department of Public Safety Detention agent multiple-employer defined benefit pension plans are not further disclosed because of their relative insignificance to the State's financial statements. Also, the Teachers Insurance Annuity Association/College Retirement Equities Fund and Fidelity Investments Tax-Exempt Services Company defined contribution plans are not further disclosed because of their relative insignificance to the State's financial statements.

The State contributes to several OPEB plans. The ADOA Defined Benefit Healthcare Plan is described below. The ASRS Health Benefit Supplement Fund (HBS), ASRS Long Term Disability Fund (LTD), and EORP health insurance premium subsidy cost-sharing multipleemployer defined benefit post-employment plans are not further disclosed because of their relative insignificance to the State's financial statements. The PSPRS' Department of Public Safety, Attorney General Investigators, Department of Liquor License and Control Investigators, the ASU Campus Police, the NAU Campus Police, the U of A Campus Police, State Park Rangers, Department of Emergency and Military Affairs, and Game and Fish Department agent multiple-employer defined benefit post-employment plans are not further disclosed because of their relative insignificance to the State's financial statements. The CORP's DCRR, Department of Juvenile Corrections, Department of Public Safety Dispatchers, and Department of Public Safety Detention agent multiple-employer defined benefit post-employment plans are not further disclosed because of their relative insignificance to the State's financial statements. Also, the PSPRS health insurance premium subsidy cost-sharing multiple-employer defined benefit post-employment plan is not further disclosed because of its relative insignificance to the State's financial statements.

Changes in the State's net pension liability and total OPEB (asset)/liability during the fiscal year ended June 30, 2022, were as follows (expressed in thousands):

|                   |    | Pen                        | sio | n                           | ОРЕВ |                            |    |                             |  |  |  |

|                                     |   | Any years, age 65                                   |
| Final average salary is based on    | Highest 36 consecutive months<br>of last 120 months | Highest 60 consecutive months<br>of last 120 months |
| Benefit percent per year of service | 2.1% to 2.3%  | 2.1% to 2.3%  |

\* With actuarially reduced benefits.

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions** – In accordance with State statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2022, statute required active ASRS members to contribute for retirement at the actuarially determined rate of 12.22 percent of the members' annual covered payroll, and statute required the State to contribute at the actuarially determined rate of 12.01 percent of the active members' annual covered payroll. In addition, the State was required by statute to contribute at the actuarially determined rate of 10.13 percent of annual covered payroll of retired members who worked during fiscal year 2022 for the State in positions that an employee who contributes to the ASRS would typically fill. The State's contributions to the pension plan for the year ended June 30, 2022, were \$300.8 million.

During fiscal year 2022, the State paid for ASRS pension contributions from governmental funds as follows: 71.95 percent from the General Fund, 13.47 percent from major funds, and 14.58 percent from other funds.

**Pension Liability** – At June 30, 2022, the State reported a liability of \$2.8 billion for its proportionate share of the ASRS' net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2020, to the measurement date of June 30, 2021. The total pension liability as of June 30, 2021, reflects changes in actuarial assumptions based on the results of an actuarial experience study for the 5-year period ended June 30, 2020, including decreasing the discount rate from 7.5 percent to 7.0 percent and changing the projected salary increases from 2.7 - 7.2 percent to 2.9 - 8.4 percent.

The State's proportion of the net pension liability was based on the State's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2021. The State's proportion measured as of June 30, 2021, was 21.38 percent, which was an increase of 0.01 from its proportion measured as of June 30, 2020.

**Pension Expense and Deferred Outflows/Inflows of Resources** – For the year ended June 30, 2022, the State recognized pension expense for ASRS of \$232.9 million. At June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

|   | ferred Outflows<br>of Resources | Deferred Inflows<br>of Resources |
|---|---------------------------------|----------------------------------|
| Differences between expected and actual experience      | \$<br>42,828                    | \$<br>_                          |
| Changes of assumptions or other inputs                  | 365,675                         | —                                |
| Net difference between projected and actual earnings on |                                 |                                  |
| pension plan investments                                | —                               | 890,140                          |
| Changes in proportion and differences between State     |                                 |                                  |
| contributions and proportionate share of contributions  | 54,137                          | 71,218                           |
| State contributions subsequent to the measurement date  | 300,755                         | _                                |
| Total   | \$<br>763,395                   | \$<br>961,358                    |

The \$300.8 million reported as deferred outflows of resources related to ASRS pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows (expressed in thousands):

| Year ending<br>June 30 | _  |           |
|------------------------|----|-----------|
| 2023                   | \$ | (6,379)   |
| 2024                   |    | 10,678    |
| 2025                   |    | (196,230) |
| 2026                   |    | (306,787) |
| 2027                   |    | _         |
| Thereafter             |    | _         |

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

| Actuarial valuation date    | June 30, 2020       |
|-----------------------------|---------------------|
| Actuarial roll forward date | June 30, 2021       |
| Actuarial cost method       | Entry age normal    |
| Investment rate of return   | 7.0%                |
| Projected salary increases  | 2.9 - 8.4%          |
| Inflation                   | 2.3%                |
| Permanent benefit increase  | Included            |
| Mortality rates             | 2017 SRA Scale U-MP |

Actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2020.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class                            | Target<br>Allocation | Long-Term<br>Expected Geometric<br>Real Rate of Return |
|--|----------------------|--|
| Equity                                 | 50%                  | 4.90%  |
| Fixed income – credit                  | 20%                  | 5.20%  |
| Fixed income – interest rate sensitive | 10%                  | 0.70%  |
| Real estate                            | 20%                  | 5.70%  |
| Total                                  | 100%                 |  |

**Discount Rate** – At June 30, 2021, the discount rate used to measure the ASRS total pension liability was 7.0 percent, which was a decrease of 0.5 from the discount rate used as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the State's Proportionate Share of the ASRS Net Pension Liability to Changes in the Discount Rate** – The following table presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0 percent) or 1 percentage point higher (8.0 percent) than the current rate (expressed in thousands):

|  | Current |                      |    |                        |    |                      |
|--|---------|----------------------|----|------------------------|----|----------------------|
|  | 1%      | % Decrease<br>(6.0%) | D  | iscount Rate<br>(7.0%) | 1  | % Increase<br>(8.0%) |
| State's proportionate share of the net |         |                      |    |                        |    |                      |
| pension liability                      | \$      | 4,419,065            | \$ | 2,809,472              | \$ | 1,467,518            |

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

## B. PUBLIC SAFETY PERSONNEL RETIREMENT SYSTEM AND CORRECTIONS OFFICER RETIREMENT PLAN

**Benefits Provided** – PSPRS and CORP retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

|  |  | Initial Membership Date:   |   |
|--|--|--|---|
| -  | D.C  | On or after January 1, 2012  | 0   |
| PSPRS  | Before January 1, 2012   | and before July 1, 2017  | On or after July 1, 2017  |
| PSPRS<br>Retirement and<br>Disability                      | Tier 1   | Tier 2   | Tier 3  |
| Years of service and<br>age required to<br>receive benefit | 20 years of service, any age<br>15 years of service, age 62  | 25 years of service or<br>15 years of credited service, age 52.5                               | <ul><li>15 years of credited service, age 52.5*</li><li>15 or more years of service, age 55</li></ul> |
| Final average salary is based on                           | Highest 36 consecutive months of last 20 years   | Highest 60 consecutive months of last 20 years   | Highest 60 consecutive months<br>of last 15 years   |
| Benefit percent:   |  |  |   |
| Normal retirement  | 50% less 2.0% for each year of<br>credited service less than 20 years<br>OR plus 2.0% to 2.5% for each<br>year of credited service over 20<br>years, not to exceed 80% | 1.5% to 2.5% per year of cred:   | ited service, not to exceed 80%   |

| Ordinary disability retirement            | 2.5% per year of  | credited service                                       |  |  |  |  |
| Survivor Benefit                          |   |  |  |  |  |  |
| Retired members                           | 80% of retired memb   | per's pension benefit                                  |  |  |  |  |
| Active members                            | 40% of average monthly compensation or 100% of average monthly compensation if death was the result of injuries received on the job. If there is no surviving spouse or eligible children, the beneficiary is entitled to 2 times the member's contributions. |  |  |  |  |  |

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

**Employees Covered by Benefit Terms** – At June 30, 2022, the following employees were covered by the agent pension plans' benefit terms:

|   | PSPRS – DPS | CORP – DCRR |
|---|-------------|-------------|
| Retirees or beneficiaries currently receiving benefits        | 1,457       | 3,883       |
| Inactive employees entitled to but not yet receiving benefits | 161         | 1,422       |
| Active employees  | 1,016       | 5,350       |
| Total   | 2,634       | 10,655      |

The CORP – DCRR plan was closed to new members as of July 1, 2018.

**Contributions** – State statutes establish the pension contribution requirements for active PSPRS and CORP employees. In accordance with State statutes, annual actuarial valuations determine employer contribution requirements for PSPRS and CORP pension benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contribution rates for the year ended June 30, 2022, are indicated below. Rates are a percentage of active members' annual covered payroll. As part of the 2022 Fifty-fifth Legislature, House Bill 2862, the State appropriated \$895.2 million to reduce the unfunded accrued liability for the PSPRS – DPS plan affecting Tiers 1 and 2 (which received \$420.6 million) and the CORP – DCRR plan (which received \$474.6 million) which is also reflected in the tables below.

|                         | Active Member –<br>Pension | State –<br>Pension | State – Pension with<br>Appropriation |
|-------------------------|----------------------------|--------------------|---------------------------------------|
| PSPRS – DPS Tiers 1 & 2 | 7.65% - 11.65%             | 101.95%            | 618.09%                               |
| PSPRS – DPS Tier 3      | 10.43%                     | 98.12%             | N/A                                   |
| CORP – DCRR             | 8.41%                      | 30.88%             | 187.94%                               |

In addition, statute required the State to contribute at the actuarially determined rate indicated below of annual covered payroll of retired members who worked during fiscal year 2022 for the State in positions that an employee who contributes to the PSPRS or CORP would typically fill.

|             | Pension |
|-------------|---------|
| PSPRS – DPS | 88.67%  |
| CORP – DCRR | 25.73%  |

The State's contributions to the pension plan for the year ended June 30, 2022, were (expressed in thousands):

|                         | т  | Pension | Pension           | Total Pension     |
|-------------------------|----|---------|-------------------|-------------------|
|                         | 1  | clision | <br>Appropriation | <br>Contributions |
| PSPRS – DPS Tiers 1 & 2 | \$ | 83,070  | \$<br>420,560     | \$<br>503,630     |
| PSPRS – DPS Tier 3      |    | 12,599  | —                 | 12,599            |
| CORP – DCRR             |    | 93,322  | 474,635           | 567,957           |

During fiscal year 2022, the State paid for PSPRS and CORP pension contributions as follows: 93.95 percent from the General Fund and 6.05 percent from other funds.

Pension Liability - At June 30, 2022, the State reported the following net pension liabilities (expressed in thousands):

|             | Net Pension Liability |         |  |  |  |
|-------------|-----------------------|---------|--|--|--|
| PSPRS – DPS | \$                    | 344,585 |  |  |  |
| CORP – DCRR |                       | 365,452 |  |  |  |

The net pension liabilities were measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

| <b>PSPRS and CORP – Pension</b> |                  |
|---------------------------------|------------------|
| Actuarial valuation date        | June 30, 2021    |
| Actuarial cost method           | Entry age normal |
| Investment rate of return       | 7.3%             |
| Wage inflation                  | 3.5%             |
| Price inflation                 | 2.5%             |
| Cost-of-living adjustment       | 1.75%            |
| Mortality rates                 | PubS-2010 Tables |

Actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the 5-year period ending June 30, 2017.

The long-term expected rate of return on PSPRS and CORP pension plan investments was determined to be 7.3 percent using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Target<br>Allocation | Long-Term Expected<br>Geometric Real Rate<br>of Return          |
|----------------------|---|
| 24%                  | 4.08%   |
| 16%                  | 5.20%   |
| 20%                  | 7.67%   |
| 7%                   | 5.43%   |
| 2%                   | 0.42%   |
| 20%                  | 5.74%   |
| 10%                  | 3.99%   |
| 1%                   | (0.31)%   |
| 100%                 |   |
|                      | Allocation<br>24%<br>16%<br>20%<br>7%<br>2%<br>20%<br>10%<br>1% |

**Discount Rate** – At June 30, 2021, the discount rate used to measure the PSPRS and CORP total pension liabilities was 7.3 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### **Changes in the Net Pension Liability**

(expressed in thousands):

|   |  | Incre | ase (Decrease                            | )  |  |
|---|--|-------|--|----|--|
| PSPRS – DPS   | <br>Total<br>Pension<br>Liability<br>(a) |       | Plan<br>Fiduciary<br>(et Position<br>(b) |    | Net<br>Pension<br>Liability<br>(a) – (b) |
| Balances at June 30, 2021                                     | \$<br>1,322,128                          | \$    | 388,476                                  | \$ | 933,652                                  |
| Changes for the year:   |  |       |  |    |  |

| Thereafter  |     |           | —           |

### C. ELECTED OFFICIALS' RETIREMENT PLAN

**Benefits Provided** – Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

|   | Initial Membership Date:              |  |  |  |  |
|---|---------------------------------------|--|--|--|--|
| -   | Before January 1, 2012                | On or after January 1, 2012              |  |  |  |
|   |                                       |  |  |  |  |
| Years of service and age                  | 20 years, any age                     | 10 years, age 62                         |  |  |  |
| required to receive benefit               | 10 years, age 62                      | 5 years, age 65                          |  |  |  |
|   | 5 years, age 65                       | any years and age if disabled            |  |  |  |
|   | 5 years, any age*                     |  |  |  |  |
|   | any years and age if disabled         |  |  |  |  |
|   | Highest 36 consecutive months         | Highest 60 consecutive months            |  |  |  |
| Final average salary is based on          | of last 10 years                      | of last 10 years                         |  |  |  |
| Benefit percent:                          |                                       |  |  |  |  |
| Normal retirement                         | 4% per year of service,               | 3% per year of service,                  |  |  |  |
|   | not to exceed 80%                     | not to exceed 75%                        |  |  |  |
| Disability retirement                     | 80% with 10 or more years of service  | 75% with 10 or more years of service     |  |  |  |
|   | 40% with 5 to 10 years of service     | 37.5% with 5 to 10 years of service      |  |  |  |
|   | 20% with less than 5 years of service | 18.75% with less than 5 years of service |  |  |  |
| Survivor Benefit                          |                                       |  |  |  |  |
| Retired members                           | 75% of retired member's benefit       | 50% of retired member's benefit          |  |  |  |
| Active members and other inactive members | 75% of disability retirement benefit  | 50% of disability retirement benefit     |  |  |  |

\* With reduced benefits of .25% for each month early retirement precedes the member's normal retirement age, with a maximum reduction of 30%.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. In addition, the Legislature may enact permanent one-time benefit increases after a Joint Legislative Budget Committee analysis of the increase's effects of the plan.

**Contributions** – State statutes establish active member and employer contribution requirements. A.R.S. § 38-810 also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State to supplement the normal cost plus an amount to amortize the unfunded accrued liability and designates a portion of certain court fees for the EORP. For the year ended June 30, 2022, statute required active EORP members to contribute 7 or 13 percent of the members' annual covered payroll and the State to contribute at the actuarially determined rate of 61.43 percent of active EORP members' annual covered payroll. Also, statute required the State to contribute 49.21 percent to EORP of the annual covered payroll of elected officials and judges who were ASRS members and 55.43 percent to EORP of the annual covered payroll of elected officials and judges. In addition, statute required the State to contribute 41.59 percent of annual covered payroll of retired members who worked during fiscal year 2022 for the State in positions that an employee who contributes to the EORP would typically fill. The State's contributions to the pension plan for the year ended June 30, 2022, were \$16.5 million, including \$3.6 million related to State support, as a nonemployer contributing entity.

During fiscal year 2022, the State paid for EORP pension contributions as follows: 98.14 percent from the General Fund and 1.86 percent from other funds. In addition, during fiscal year 2022, the State, as a nonemployer contributing entity, paid for EORP pension contributions as follows: 100.00 percent from the General Fund.

**Pension Liability** – At June 30, 2022, the amount the State recognized as its proportionate share of the net pension liability, the related State support, as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the State were as follows (expressed in thousands):

| State's proportionate share of the EORP net pension liability     | \$<br>164,660 |
|---|---------------|
| State's proportionate share of the EORP net pension liability, as |               |
| a nonemployer contributing entity                                 | 40,544        |
| Total   | \$<br>205,204 |

The net pension liabilities were measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The State's proportion of the net pension liability was based on the State's required contributions to the pension plan relative to the total of all participating employers' required contributions for the year ended June 30, 2021. The State's proportion measured as of June 30, 2021, was 27.06 percent, which was an increase of 4.71 from its proportion measured as of June 30, 2020. The State's proportion, as a nonemployer contributing entity, measured as of June 30, 2021, was 6.66 percent, which was a decrease of 0.08 from its proportion measured as of June 30, 2020.

**Pension Expense, Grant Expense, and Deferred Outflows/Inflows of Resources** – For the year ended June 30, 2022, the State recognized a pension expense for EORP of \$43.3 million and revenue of \$2.6 million for the designated court fees. In addition, the State recognized a grant expense of \$1.1 million, as a result of its requirement to contribute to EORP as a nonemployer contributing entity. At June 30, 2022, the State and the State, as a result of its requirement to contribute to EORP as a nonemployer contributing entity, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

|  | The State |                           |    |                               |    | The S<br>as a none<br>contribut | emp | loyer                            |

| Net difference between projected and actual earnings on pension plan investments |           |                           |    | 8,389                         |    |                                 |     | 2,066                            |
| Changes in proportion and differences between State                              |           |                           |    |                               |    |                                 |     |                                  |
| contributions and proportionate share of contributions                           |           | 13,547                    |    | —                             |    | 1,098                           |     |                                  |
| State contributions subsequent to the measurement date                           |           | 12,878                    |    | _                             |    | 3,592                           |     |                                  |
| Total  | \$        | 26,425                    | \$ | 10,580                        | \$ | 4,690                           | \$  | 2,606                            |

The amounts reported as deferred outflows of resources related to EORP pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions will be recognized in pension expense as follows (expressed in thousands):

| Year ending<br>June 30 | TI | he State | as a no | e State,<br>nemployer<br>uting entity |
|------------------------|----|----------|---------|---------------------------------------|
| 2023                   | \$ | 9,634    | \$      | 134                                   |
| 2024                   |    | (1,747)  |         | (430)                                 |
| 2025                   |    | (2,063)  |         | (508)                                 |
| 2026                   |    | (2,857)  |         | (704)                                 |
| 2027                   |    | _        |         |                                       |
| Thereafter             |    |          |         | —                                     |

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

| Actuarial valuation date  | June 30, 2021    |
|---------------------------|------------------|
| Actuarial cost method     | Entry age normal |
| Investment rate of return | 7.3%             |
| Wage inflation            | 3.75%            |
| Price inflation           | 2.5%             |
| Cost-of-living adjustment | 1.75%            |
| Mortality rates           | PubG-2010 Tables |

Actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2017.

The long-term expected rate of return on EORP pension plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

|                                     | Target     | Long-Term<br>Expected Geometric |
|-------------------------------------|------------|---------------------------------|
| Asset Class                         | Allocation | Real Rate of Return             |
| U.S. public equity                  | 24%        | 4.08%                           |
| International public equity         | 16%        | 5.20%                           |
| Global private equity               | 20%        | 7.67%                           |
| Other assets (capital appreciation) | 7%         | 5.43%                           |
| Core bonds                          | 2%         | 0.42%                           |
| Private credit                      | 20%        | 5.74%                           |
| Diversifying strategies             | 10%        | 3.99%                           |
| Cash – Mellon                       | 1%         | (0.31)%                         |
| Total                               | 100%       |                                 |

**Discount Rate** – At June 30, 2021, the discount rate used to measure the EORP total pension liability was 7.3 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the actuarially determined rates, and non-employer contributions will be made as currently required by statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the State's Proportionate Share of the EORP Net Pension Liability to Changes in the Discount Rate** – The following table presents the State's and the State's, as a result of its requirement to contribute to EORP as a nonemployer contributing entity, proportionate share of the net pension liability calculated using the discount rate of 7.3 percent, as well as what the State's and the State's, as a result of its requirement to contribute to EORP as a nonemployer contributing entity, proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.3 percent) or 1 percentage point higher (8.3 percent) than the current rate (expressed in thousands):

|  | Current |                    |                         |         |    |                   |
|--|---------|--------------------|-------------------------|---------|----|-------------------|
|  |         | Decrease<br>(6.3%) | Discount Rate<br>(7.3%) |         |    | Increase<br>8.3%) |
| State's proportionate share of the net pension liability       | \$      | 189,207            | \$                      | 164,660 | \$ | 143,593           |
| State's proportionate share of the net pension liability, as a |         |                    |                         |         |    |                   |
| nonemployer contributing entity                                |         | 46,588             |                         | 40,544  |    | 35,357            |

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan's fiduciary net position is available in the separately issued EORP financial report.

## D. ARIZONA DEPARTMENT OF ADMINISTRATION DEFINED BENEFIT HEALTHCARE PLAN

**Plan Description** – The ADOA provides medical and accident benefits to retired State employees and their dependents, which is a single-employer defined benefit post-employment plan. Title 38, Chapter 4 of the A.R.S. assigns the authority to establish and amend the benefit provisions to the Arizona State Legislature. The ADOA does not issue a separate, publicly available financial report.

**Benefits Provided** – The ADOA pays the medical costs incurred by retired employees minus a specified premium amount, which is paid for entirely by the retiree or on behalf of the retiree, except for the NAU, which through the ADOA plan pays its medical costs directly. Premium rates are based on a blend of active employee and retiree experience, resulting in a contribution basis which is lower than the expected claim costs for retirees only, which results in an implicit subsidization of retirees by the State.

**Funding Policy** – The ADOA's current funding policy is pay-as-you-go for OPEB benefits. Therefore, the current funded ratio (ratio of assets to the Total OPEB Liability) is 0.00% and there are no dedicated assets at this time to offset the total OPEB liability.

Contributions – The State's contribution to the ADOA OPEB plan for the year ended June 30, 2022, was \$24.6 million.

**Employees Covered by Benefit Terms** – For the plan's fiscal year end of June 30, 2021, the following employees were covered by the ADOA OPEB plan's benefit terms:

| Retirees or beneficiaries currently receiving benefits | 5,276  |
|--|--------|
| Active employees                                       | 53,872 |
| Total  | 59,148 |

**OPEB Liability** – At June 30, 2022, the State reported a liability of \$1.2 billion for the ADOA total OPEB liability. The total OPEB liability measured as of June 30, 2021 was determined by an actuarial valuation as of that date.

Actuarial Assumptions – The significant actuarial assumptions used to measure the total OPEB liability are as follows:

| Actuarial valuation date     | June 30, 2021  |
|------------------------------|--|
| Actuarial cost method        | Entry age normal   |
| Salary increases             | 0.0% to 5.5%, not including wage inflation of 2.9%   |
| Discount rate                | 1.92%  |
| Healthcare cost trend rates  |  |
| Medical (pre-65)             | 7.0% graded to 4.2% over 13 years  |
| Medical (post-65)            | 5.3% graded to 4.2% over 13 years  |
| Administrative costs         | No explicit assumption   |
| Contribution trend rates     | 7.0% graded to 4.2% over 13 years  |
| Mortality rates              |  |
| Healthy employees            | Pub-2010 General Employee Mortality table. Generational mortality improvements in accordance with the Ultimate MP scales are projected from the year 2017.                           |
| Healthy retirees and spouses | 2017 State Retirees of Arizona (SRA) mortality table. Generational mortality improvements in accordance with the Ultimate MP scales (through 2020) and projected from the year 2017. |
| Disabled retirees            | Pub-2010 Disabled Retiree Mortality. Generational mortality improvements in accordance with  |
|                              | the Ultimate MP scales are projected from the year 2017.   |

Benefit projections assume the specified premium amount will follow the current pattern of practice of being paid for entirely by the retiree or on behalf of the retiree. Actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2020.

**Discount Rate** – The discount rate was based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date.

#### **Changes in the Total OPEB Liability**

(expressed in thousands):

|   | Increase (Decrease) |                         |  |
|---|---------------------|-------------------------|--|
|   |                     | Total OPEB<br>Liability |  |
| Balance at June 30, 2021  | \$                  | 1,577,121               |  |
| Changes for the year:   |                     |                         |  |
| Service cost  |                     | 123,719                 |  |
| Interest on the total OPEB liability  |                     | 41,284                  |  |
| Differences between expected and actual experience in the measurement of the OPEB |                     |                         |  |
| liability   |                     | (485,617)               |  |
| Changes of assumptions or other inputs  |                     | (27,051)                |  |
| Benefit payments  |                     | (31,551)                |  |
| Net changes   |                     | (379,216)               |  |
| Balance at June 30, 2022  | \$                  | 1,197,905               |  |

The total OPEB liability as of June 30, 2021 reflects a decrease in the discount rate due to changes in the bond index.

**Sensitivity of the State's Total OPEB Liability to Changes in the Discount Rate** – The following table presents the State's total OPEB liabilities calculated using the discount rate of 1.92 percent, as well as what the State's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (0.92 percent) or 1 percentage point higher (2.92 percent) than the current rate (expressed in thousands):

|                      | 1% Curr         |    | Current      |    | 1%        |
|----------------------|-----------------|----|--------------|----|-----------|
|                      | Decrease        | Ľ  | iscount Rate |    | Increase  |
|                      | <br>(0.92%)     |    | (1.92%)      |    | (2.92%)   |
| Total OPEB liability | \$<br>1,441,804 | \$ | 1,197,905    | \$ | 1,008,947 |

**Sensitivity of the State's Total OPEB Liability to Changes in the Healthcare Cost Trend Rates** – The following table presents the State's total OPEB liabilities calculated using the current healthcare cost trend rates stated in the actuarial assumptions, as well as what the State's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current rates (expressed in thousands):

|                      | _  | 1%<br>Decrease | <br>Current<br>Trend Rate | <br>1%<br>Increase |
|----------------------|----|----------------|---------------------------|--------------------|
| Total OPEB liability | \$ | 974,917        | \$<br>1,197,905           | \$<br>1,496,179    |

**OPEB Expense and Deferred Outflows/Inflows of Resources** – For the year ended June 30, 2022, the State recognized OPEB expense of \$111.6 million. At June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (expressed in thousands):

|   | Deferred<br>Outflows<br>of Resources |                   | Deferred<br>Inflows<br>of Resources |                    |  |
|---|--------------------------------------|-------------------|-------------------------------------|--------------------|--|
| Differences between expected and actual<br>experience<br>Changes of assumptions or other inputs | \$                                   | 24,361<br>293,879 | \$                                  | 434,525<br>134,930 |  |
| State benefit payments subsequent to the<br>measurement date<br>Total                           | \$                                   | 24,575<br>342,815 | \$                                  | 569,455            |  |

The \$24.6 million reported as deferred outflows of resources related to OPEB resulting from State benefit payments subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (expressed in thousands):

| \$<br>(47,967) |

| (92,704)       |
| \$             |

### NOTE 6. LONG-TERM OBLIGATIONS

### A. REVENUE BONDS

### 1. Governmental Activities

### a. Department of Administration

The State has pledged portions of its gross revenues towards the payment of debt service on the Lottery Refunding Bonds (Series 2019). These bonds provide additional working capital to the State to pay appropriated expenditures of the State's General Fund. The bonds are secured solely by pledged revenues consisting of all Lottery revenues deposited to the Lottery Fund net of operating expenses. In August 2021, the Series 2019 was defeased, per Senate Bill 1823, thus eliminating the underlying pledged revenues of the Lottery. The outstanding principal at the time of defeasance was \$223.1 million. The State placed \$266.7 million in an escrow account to be used to purchase securities that will provide resources for all future debt service payments on the debt. The escrow agent will pay the debt service requirements of the defeased bonds on each scheduled payment date through July 1, 2029. The defeased bonds are not subject to optional redemption prior to maturity. Accordingly, the escrow account assets and liabilities for these defeased bonds are not included in the accompanying financial statements.

### b. Arizona Department of Transportation

The ADOT has issued Senior and Subordinated Lien Highway Revenue Bonds to provide funds for acquisition of right-of-way, design, and construction of federal and state highways. The balance of Highway Revenue Bonds issued in prior years and outstanding at the start of the fiscal year was \$1.1 billion.

The Highway Revenue Bonds are secured by a prior lien on and a pledge of motor vehicle and related fuel fees and taxes. On September 21, 2006, House Bill 2206 became effective and eliminated the restriction that limited the principal amount of the Highway Revenue Bonds that could be outstanding at any time to \$1.3 billion. Also during fiscal year 2007, the ADOT received legislative authority to begin issuing Highway Revenue Bonds with maturities of up to 30 years in length, replacing the 20-year maturity requirement that had been in place since 1980.

The ADOT has pledged future motor vehicle and related fuel fees and taxes to repay \$988.1 million in outstanding Highway Revenue Bonds issued since 2011. Proceeds from the bonds finance portions of the ADOT's Five-Year Transportation Facilities Construction Program, and to refund certain maturities of outstanding Highway Revenue bond issues. The bonds are payable solely from motor vehicle and related fuel fees and taxes and are payable through 2038. The total principal and interest remaining to be paid on the bonds is \$1.3 billion. Principal and interest paid for the current year and total pledged revenues were \$137.5 million and \$820.2 million, respectively. The annual principal and interest payments on the bonds required 16.8% of the pledged revenues. The pledged revenues of \$820.2 million also apply to the ADOT's direct placement Highway Revenue Bonds discussed within Note 6.D.1.b.

The Maricopa County Regional Area Road Construction Fund is used to record all payments of principal and interest for Transportation Excise Tax Revenue Bonds issued by the ADOT. These bonds are secured by a portion of transportation excise taxes collected by the Arizona Department of Revenue on behalf of Maricopa County. The balance of Transportation Excise Tax Revenue Bonds issued in prior years and outstanding at the start of the fiscal year was \$511.1 million.

The ADOT has pledged future transportation excise taxes to repay \$377.5 million in outstanding Transportation Excise Tax Revenue Bonds issued since 2009. Proceeds from the bonds pay the costs of design, right-of-way purchase, or construction of certain freeways and other routes within Maricopa County and to refund certain maturities of various outstanding Transportation Excise Tax Revenue bond issues. The bonds are payable solely from transportation excise taxes and are payable through 2025. The total principal and interest remaining to be paid on the bonds is \$415.1 million. Principal and interest paid for the current year and total pledged revenues were \$129.7 million and \$443.5 million, respectively. The annual principal and interest payments on the bonds required 29.2% of the pledged revenues. The pledged revenues of \$443.5 million also apply to the ADOT's direct placement Transportation Excise Tax Revenue Bonds discussed within Note 6.D.1.b.

### 2. Business-Type Activities

### a. Universities

### i. Arizona State University

As of June 30, 2022, the ASU had issued fixed and variable rate bonds, of which \$2.0 billion is outstanding. The ASU's long-term obligations generally are structured with semi-annual interest and call options at a prescribed date. Certain revenue bonds of the ASU have been defeased through advance refundings by depositing sufficient cash and/or U.S. Government securities in an irrevocable trust to pay all future debt service. Accordingly, the liabilities for these defeased bonds are not included in the accompanying financial statements. The principal amount of defeased bonds outstanding at June 30, 2022 totaled \$187.7 million.

The ASU has pledged gross revenues as defined in the bond indentures towards the payment of debt related to various senior lien system revenue bonds outstanding at June 30, 2022. These related system revenue bonds are primarily for new academic and research facilities, academic and laboratory renovations, and technology and infrastructure improvements. The pledged revenues include student tuition and fees, certain auxiliary enterprise revenue, net investment income, and indirect cost recovery revenue. Pledged revenues do not include State appropriations, gifts, endowment income, or other restricted revenues. For the year ended June 30, 2022, pledged revenues totaled \$2.2 billion, of which 6.4% (\$137.7 million, net of Federal direct payments) was required to cover current year debt service.

In April 2022, the ASU issued \$172.2 million of system revenue bonds, Series 2022A, B and C, with an average maturity of 16.9 years and an average interest rate of 3.69%. The bonds were issued to fund the construction and improvements to the Bateman Physical Sciences Center, Durham Hall Language and Literature Building, Infrastructure and Deferred Maintenance, and the Multipurpose Arena. In addition to using pledged revenues to pay the debt service, the ASU will pay half the debt service of the 2022A bonds from the Capital Infrastructure Fund (CIF) established by the State pursuant to A.R.S. § 15-1671. Pursuant to the CIF Law, State General Fund monies will be appropriated and deposited into the ASU's CIF for fiscal year 2019 through fiscal year 2043. The annual deposit will be adjusted annually by a growth rate of 2.0% or the change in the U.S. Gross Domestic Product Price Deflator between the two prior fiscal years, whichever is less, but not less than the prior fiscal year's appropriated amount. CIF funds are available exclusively for either paying the costs of, or paying up to one-half of the debt service on debt financing for, capital projects of the ASU. While funding for the payment of debt service will be made as described, pledged revenues secure all of the 2022 Bonds.

In June 2008, the Legislature approved the Stimulus Plan for Economic and Educational Development (SPEED) which provides the Universities with capital improvement funds for critical construction and deferred maintenance projects. SPEED projects are debt financed with revenue bonds and repaid primarily with Lottery revenues. Specifically, up to 80% of SPEED debt service is paid from Lottery revenues, with the balance being the responsibility of the ASU as evidenced by the subordinated pledge of the ASU revenues.

The ASU has two series of variable rate demand system revenue refunding bonds outstanding, Series 2008A and Series 2008B, totaling \$69.0 million with final maturities of July 1, 2034. The interest rate in effect on June 30, 2022 was 0.90% for the Series 2008A bonds and 0.89% for the Series 2008B bonds. The ASU's variable rate demand bonds have remarketing features which allow bondholders to put debt back to the ASU. In accordance with GASB Interpretation No. 1, *Demand Bonds Issued by State and Local Government Entities*, the total outstanding principal balance for variable rate demand bonds is required to be classified as a current liability. As of May 4, 2016, the ASU executed a self-liquidity facility agreement to provide liquidity if the bonds are put by bondholders. It is the ASU's intent to repay its variable rate demand bonds in accordance with the maturities set forth in the official statement; however, in the absence of a "take out agreement" the ASU has classified the total outstanding principal balance of the 2008 bonds as a current liability.

Future pledged revenues required to pay all remaining debt service for the ASU's senior and subordinate revenue bonds through final maturity of July 1, 2053 total \$3.1 billion. In addition to a senior pledge of revenues for ASU system revenue bonds, the ASU has pledged the same revenues on a subordinated basis to secure the ASU SPEED revenue bonds.

The Taxable Series 2010A System Revenue Bonds were issued as Build America Bonds under the provisions of the American Recovery and Reinvestment Act (ARRA). As such, the ASU is eligible to receive Federal Direct Payments from the U.S. Treasury equal to 35% of the interest owed on each interest payment date. The amount paid to the ASU by the Federal government may be reduced or limited due to such issues as failure by the ASU to submit the required information, offsets to reflect any amounts owed by the ASU to the

Federal government, or changes in the law that would reduce or eliminate such payments. During fiscal year 2022, the ASU recorded Federal Direct Payments totaling \$2.8 million, net of \$0.2 million or 5.7% reduction due to the Federal budget sequestration. For accounting purposes, any direct payments received from the U.S. Treasury are recorded as nonoperating revenue. Fiscal year 2022 is the last year the Federal subsidy will be received for the 2010A SPEED revenue bonds that were refunded by the 2021 SPEED refunding bonds.

Securities and cash restricted for bonds debt service held by the trustee at June 30, 2022 totaled \$110.7 million.

Effective January 1, 2007, the ASU entered into a \$103.0 million notional amount swap agreement (hedging derivative instrument) expiring on July 1, 2034, in conjunction with the 2008 variable rate demand system revenue refunding bonds (2008 Bonds). The outstanding \$68.6 million notional amount at June 30, 2022 is not exchanged; it is only the basis on which the interest payments are calculated and it decreases as principal payments are made on the 2008 Bonds. The intention of the swap is to effectively convert the variable rate interest on the 2008 Bonds to a synthetic fixed rate. Under the terms of the swap agreement, the ASU pays the counterparty interest calculated at a fixed rate of 3.91% and receives payments from the counterparty based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index set weekly. The SIFMA rate at June 30, 2022 was 0.91%.

At June 30, 2022, the synthetic fixed interest rate on the bonds was:

| Interest Rate Swap                     | Terms           | Rates (%) |
|--|-----------------|-----------|
| Fixed payment to counterparty          | Fixed           | 3.91      |
| Variable payment from counterparty     | SIFMA           | (0.91)    |
| Net interest rate swap payments        |                 | 3.00      |
| Variable-rate bond coupon payments     | Spread to SIFMA | 0.91      |
| Synthetic fixed interest rate on bonds |                 | 3.91      |

The ASU continues to pay interest to the bondholders at the variable rate provided by the bonds. However, during the term of the swap agreement, the ASU effectively pays a fixed rate on the debt. If the counterparty defaults or if the swap is terminated, the ASU will revert to paying a variable rate. A termination of the swap agreement may also result in the ASU making or receiving a termination payment.

The ASU is exposed to interest rate risk based on the SIFMA indexed variable payment received from the counterparty versus the variable rate paid to bondholders. The swap exposes the ASU to basis risk should the weekly SIFMA rate paid by the counterparty fall below the weekly interest rate due on the bonds.

As of June 30, 2022, the ASU was not exposed to credit risk because the swap had a negative fair value. However, should interest rates change and the fair value of the swap become positive, the ASU would be exposed to credit risk in the amount of the derivative's fair value. The swap counterparty was rated AA by Fitch, A+ by S&P, and Aa2 by Moody's as of June 30, 2022. Based on current ratings, the counterparty was not required to provide collateral. In the event a rating downgrade occurs, the counterparty may be required to provide collateral if the ASU's overall exposure exceeds predetermined levels. Collateral may be held by the ASU or a third party custodian.

As of June 30, 2022, the swap had a fair value of \$(5.8) million, which represents the cost to the ASU to terminate the swap. The June 30, 2021 fair value was \$(15.0) million. The fair value was developed by an independent third party, with no vested interest in the transaction, using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement on the swaps. In accordance with GASB 53, as amended by GASB 63, the fair value of the ASU's hedging derivative instrument is reported on the statement of net position as a deferred outflow of resources (interest rate swap) and a liability (derivative instrument – interest rate swap).

### ii. University of Arizona

The U of A's bonded debt consists of various issues of System Revenue bonds and SPEED revenue bonds that are generally callable with interest payable semi-annually. Bond proceeds are used to pay for acquiring or constructing capital facilities, infrastructure and for refunding obligations from previously issued bonds.

For all outstanding SPEED revenue bonds, up to 80% of the debt service payments are payable from the U of A's SPEED revenue bond account monies, which are derived from certain revenues of the Lottery as defined by State Statute. To the extent SPEED revenue bond account monies are not sufficient to make debt service payments, the SPEED revenue bonds are secured by a pledge of certain U of A gross revenues, such as student tuition and fees, but that pledge is subordinate to the pledge of those gross revenues for the U of A's System Revenue Bonds.

In fiscal year 2020, the U of A refunded, in advance of maturity, a portion of outstanding System Revenue Bonds Series 2013A. At June 30, 2022, the total outstanding principal balance of the refunded bonds was \$11.5 million, which will be paid by investments held in an irrevocable trust with a fair value of \$11.7 million. Accordingly, the trust account assets and liability for these defeased bonds are not included in the accompanying financial statements.

In fiscal year 2020, the U of A refunded, in advance of maturity, a portion of outstanding SPEED Revenue Bonds Series 2013. At June 30, 2022, the total outstanding principal balance of the refunded bonds was \$17.4 million, which will be paid by investments held in an irrevocable trust with a fair value of \$18.2 million. Accordingly, the trust account assets and liability for these defeased bonds are not included in the accompanying financial statements.

The U of A has pledged portions of its gross revenues towards the payment of debt related to all system revenue bonds, system revenue refunding bonds, and SPEED revenue bonds outstanding at June 30, 2022. The bonds generally provide financing for various capital projects of the U of A. These pledged revenues include student tuition and fees, auxiliary enterprise revenue, sales and service revenue and other operating revenues, such as indirect cost recovery and certain investment income. Pledged revenues do not include State appropriations, gifts, endowment income or other restricted revenues. At June 30, 2022, pledged revenues totaled \$1.4 billion of which 7.0% (\$100.4 million) was required to cover current year debt service. Future annual principal and interest payments on the bonds are expected to require approximately 5.2% of pledged revenues. Future pledged revenues required to pay all remaining debt service for the bonds through final maturity of August 1, 2048 is \$2.0 billion.

### iii. Northern Arizona University

The NAU's bonded debt consists of various issues of System Revenue, Lease Revenue, and SPEED revenue bonds that are generally callable with interest payable semiannually. Bond proceeds are used to pay for acquiring or constructing capital facilities, infrastructure, and for refunding obligations from previously issued bonds.

For all outstanding SPEED revenue bonds, up to 80% of the debt service payments are payable from the NAU's SPEED revenue bond account monies, which are derived from certain revenues of the Lottery as defined by State Statute. To the extent SPEED revenue bond account monies are not sufficient to make debt service payments, the SPEED revenue bonds are secured by a pledge of certain gross revenues, such as student tuition and fees, but that pledge is subordinate to the pledge of those gross revenues for the NAU's system revenue bonds.

In prior years, the NAU refunded, in advance of maturity, a portion of the outstanding System Revenue Bonds Series 2014 by placing the bond proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. As of June 30, 2022, the outstanding principal balance of the refunded 2014 Bonds was \$15.1 million, which will be paid by investments held in the trust with a fair value of \$15.7 million. The term bonds have a call date of June 1, 2024. Accordingly, the trust account assets and liabilities for these defeased bonds are not included in the accompanying financial statements.

In prior years, the NAU refunded, in advance of maturity, a portion of the outstanding SPEED Revenue Bonds Series 2013 by issuing SPEED Revenue Bonds Series 2020A and placing the bond proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. As of June 30, 2022, the outstanding principal balance of the refunded bonds was \$32.2 million, which will be paid by investments held in the trust with a fair value of \$33.8 million. The serial and term bonds with an optional

redemption date of August 1, 2023 will be called on that date. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the accompanying financial statements.

The NAU utilizes Lease Revenue Bonds (LRBs) to acquire buildings, land, and infrastructure. LRBs are generally callable, with interest payable semiannually and are collateralized by the acquired assets. In the event of a default, the underlying asset value would be removed from the accompanying financial statements and the control of the assets would return to the trustee. The LRBs were used by the NAU to purchase the Student and Academic Services building.

The NAU has pledged portions of its gross revenues towards the payment of debt related to system revenue bonds, system revenue refunding bonds, and SPEED revenue bonds outstanding at June 30, 2022. The bonds generally provide financing for various capital projects of the NAU. These pledged revenues include student tuition and fees, certain auxiliary enterprises revenue, investment income, and indirect cost recovery revenue. Pledged revenues do not include State appropriations, gifts, endowment income, or other restricted revenues. Pledged revenues have averaged \$311.8 million for the prior five years. For fiscal year 2022, pledged revenues totaled \$292.4 million of which 10% (\$29.2 million) was required to cover current year debt service. Future annual principal and interest payments on the bonds are expected to require approximately 8.8% of pledged revenues. Future pledged revenues required to pay all remaining related debt service for the bonds through final maturity of June 1, 2044, is \$569.0 million.

#### 3. Summary of Revenue Bonds

The following schedule summarizes revenue bonds outstanding at June 30, 2022 (expressed in thousands):

| Revenue Bonds<br>Outstanding                              | Dates<br>Issued | Maturity<br>Dates | Interest<br>Rates | Outstanding<br>Balance at<br>1ne 30, 2022 |
|---|-----------------|-------------------|-------------------|---|
| Governmental Activities:                                  |                 |                   |                   | <br>                                      |
| Department of Transportation<br>Business-type Activities: | 2014 - 2020     | 2023 - 2038       | 1.80 - 5.00%      | \$<br>1,365,585                           |
| University Revenue Bonds                                  | 2008 - 2022     | 2023 - 2054       | 0.52 - 5.99%      | 3,676,945                                 |

Principal and interest payments on revenue bonds outstanding at June 30, 2022 are as follows (expressed in thousands):

|                |                    |                   |              | Annual Debt Sei    | rvice             |   |              |
|----------------|--------------------|-------------------|--------------|--------------------|-------------------|---|--------------|
|                | C                  |                   |              |                    |                   |   |              |
| Fiscal<br>Year | Total<br>Principal | Total<br>Interest | Total        | Total<br>Principal | Total<br>Interest | Net<br>Payments<br>(Receipts) on<br>Swap<br>Agreement | Total        |

### **B.** GRANT ANTICIPATION NOTES

Grant Anticipation Notes (GANs) are issued by the ADOT and secured by revenues received from the Federal Highway Administration under grant agreements and certain other federal-aid revenues. The balance of GANs issued in prior years and outstanding at the start of the fiscal year was \$184.5 million.

The ADOT has pledged federal revenues to repay \$163.7 million in outstanding GANs. Proceeds from the GANs pay the costs of design, right-of-way purchase, or construction of certain freeways and other routes within Arizona and to refund certain maturities of various outstanding GANs. The GANs are payable solely from federal revenues and are payable through 2034. The total principal and interest remaining to be paid on the GANs is \$204.6 million. Principal and interest paid for the current year and total pledged revenues were \$30.0 million and \$843.9 million, respectively. The annual principal and interest payments on the GANs required 3.6% of the pledged revenues.

GANs currently outstanding are as follows (expressed in thousands):

| Grant Anticipation Notes<br>Outstanding | Dates<br>Issued | Maturity<br>Dates | Interest<br>Rates | Outstanding<br>Balance at<br>June 30, 2022 |         |  |
|---|-----------------|-------------------|-------------------|--|---------|--|
| Governmental Activities:                |                 |                   |                   |  |         |  |
| Department of Transportation            | 2016 - 2019     | 2023 - 2034       | 5.00%             | \$   | 163,705 |  |

Principal and interest payments on GANs outstanding at June 30, 2022 are as follows (expressed in thousands):

|             | <br>Annual Debt Service |       |                   |                       |         |  |  |  |  |  |  |  |  |

## C. CERTIFICATES OF PARTICIPATION

#### 1. Governmental Activities

#### a. Department of Administration

The State has issued COPs to finance construction or improvements of various capital assets and to refund prior outstanding COPs. The State's obligation to make lease payments and any other obligations of the State under the lease are subject to, and dependent upon, annual appropriations made by the Legislature and annual allocations of such appropriations being made by the Department of Administration (ADOA) for such purpose. The ADOA agrees to use its best efforts to budget, obtain, allocate, and maintain sufficient appropriated monies to make lease payments. In the event any such appropriation and allocation is not made, the leases will terminate and there can be no assurance that the proceeds for the re-leasing or sale of the projects will be sufficient to pay principal and interest with respect to the then outstanding COPs. The certificates are collateralized by several office complexes, parking structures, and a laboratory. In the event of default, the properties would revert to the trustee, and the underlying asset value would be removed from the accompanying financial statements. The State's obligation to make lease payments does not constitute a debt or liability of the State

within the meaning of any constitutional or statutory limitation. Neither the full faith and credit nor the general taxing power of the State is pledged to make payments of principal or interest due with respect to the COPs. Such payments will be made solely from amounts derived under the terms of the lease, including lease payments, and amounts from time to time on deposit under the terms of the declaration of trust.

In August 2021, the State defeased COP Series 2016 (Series 2016) and Refunding COP Series 2019A (Series 2019A) per Senate Bill 1823. The outstanding principal at the time of the defeasances was \$60.0 million (Series 2016) and \$389.2 million (Series 2019A). The State placed \$65.6 million (Series 2016) and \$467.0 million (Series 2019A) in escrow accounts to be used to purchase securities that will provide resources for all future debt service payments on the debt. The trustee will pay the debt service requirements according to the debt service schedule through September 30, 2024 (Series 2016) and September 15, 2029 (Series 2019A). The defeased COPs are not subject to optional redemption prior to maturity. Accordingly, the trustee accounts assets and liabilities for these defeased COPs are not included in the accompanying financial statements.

See Note 14 for the subsequent partial defeasance of the COP Series 2015 in August 2022.

### b. Department of Administration - School Facilities Board

The School Facilities Board (SFB), under the ADOA, has issued COPs to finance the purchase, construction, and equipment for several school sites. In the event of default, the properties will revert to the trustee. Additionally, the SFB Series 2010 COPs are not subject to mandatory sinking fund prepayment. However, as a means to provide a source of funds that will be available to pay the principal with respect to the Series 2010 COPs at maturity, the lease agreement with the trustee for the 2010 COPs will provide for mandatory sinking fund payments to be made as part of the base rent due under the lease. The SFB Series 2010 COPs are subject to extraordinary mandatory prepayment from unexpended proceeds pursuant to the debt documents. On February 6, 2014, the SFB redeemed \$9.5 million of the Series 2010 COPs pursuant to the extraordinary mandatory prepayment provisions in the debt documents. Beginning August 15, 2012, annual deposits to the sinking fund were scheduled to be made on August 15 of each year through August 15, 2027, at which time, the accumulated balance (including investment earnings and losses) in the sinking fund will be sufficient to retire the Series 2010 COPs on their stated maturity date of September 1, 2027. The sinking fund deposit requirements were adjusted to reflect the extraordinary mandatory prepayment redemption which occurred on February 6, 2014. All proceeds received from the issuance of the Series 2010 COPs have been expended as of June 30, 2015. As a result, the extraordinary mandatory prepayment discussed above no longer applies. All other prepayment provisions remain in force pursuant to the debt documents.

In August 2021, the State defeased SFB Refunding COP Series 2015A per Senate Bill 1823. The outstanding principal at the time of defeasance was \$161.5 million. The State placed \$171.4 million in an escrow account to be used to purchase securities that will provide resources for all future debt service payments on the debt. The trustee will pay the debt service requirements according to the debt service schedule through August 21, 2023. The defeased COP is not subject to optional prepayment prior to maturity date of September 1, 2023. Accordingly, the trust account assets and liabilities for these defeased bonds are not included in the accompanying financial statements.

### c. Game and Fish Department

In November 2006, the Game and Fish Department (GFA) issued Beneficial Interest Certificates (Series 2006) in a lease purchase agreement for \$20.4 million primarily to finance the construction of the GFA headquarters building and facilities and to fund related site improvements. As of June 30, 2022, the Series 2006 COPs include term certificates with interest rates ranging from 4.35% to 5.00% and maturity dates of July 1, 2026 and July 1, 2032. The COPs are subject to extraordinary optional redemption prior to maturity pursuant to the debt documents. The certificates are collateralized by GFA's headquarters building and facilities. In the event of default, the properties would revert to the trustee, and the underlying asset value would be removed from the accompanying financial statements.

### 2. Business-Type Activities

### a. Universities

### i. Arizona State University

As of June 30, 2022, the ASU has issued fixed rate COPs, of which \$46.8 million is outstanding. The ASU's long-term obligations generally are structured with semi-annual interest and call options at a prescribed date. Securities and cash restricted for COP debt service held by the trustee at June 30, 2022 totaled \$4.4 million.

### ii. University of Arizona

The U of A utilizes COPs to acquire buildings, equipment, and land. The COPs are generally callable, and are collateralized by the acquired assets. In the event of a default, the underlying asset value would be removed from the accompanying financial statements and the control of the assets would return to the trustee.

### iii. Northern Arizona University

The NAU utilizes COPs to acquire buildings, land, and infrastructure. COPs are generally callable, with interest payable semiannually and are collateralized by the acquired assets. In the event of a default, the underlying asset value would be removed from the accompanying financial statements and the control of the assets would return to the trustee. COPs were used to build the Applied Research and Development building, the Science Lab Facility, and to renovate the Engineering building.

### 3. Summary of COPs

A summary of the COPs issued as of June 30, 2022 is as follows (expressed in thousands):

| Project   |      | Final<br>Maturity<br>Date | Original<br>Amount<br>Issued |    | Dutstanding<br>Balance | Interest<br>Rates |
|---|------|---------------------------|------------------------------|----|------------------------|-------------------|
| Governmental Activities:                                  |      |                           |                              |    |                        |                   |

### **D. DIRECT PLACEMENTS**

### 1. Governmental Activities

#### a. Department of Administration

The State issued a direct placement COP Series 2017 during fiscal year 2018 to refund the remaining portion of a COP. The direct placement is collateralized by a prison and forensic lab. In the event of default, the facilities would revert to the trustee, any accrued and unpaid obligations for which monies are lawfully available would be paid, and the underlying asset value would be removed from the accompanying financial statements.

See Note 14 for subsequent defeasance of the COP Series 2017 in August 2022.

## b. Department of Transportation

The ADOT negotiated two direct placement bonds to refund, in advance of maturity, certain outstanding Highway Revenue Bonds and Transportation Excise Tax Revenue Bonds.

On November 10, 2021, the ADOT issued \$56.4 million of Taxable Highway Revenue Refunding Bonds Series 2021 (Series 2021 bonds), with an interest rate of 0.60% and serial maturities ranging from 2022 to 2023. Net proceeds totaled \$56.1 million, after payment of \$0.3 million of issuance costs and underwriter's discount. The net proceeds were used to refund, in advance of maturity, portions of the outstanding Series 2013A Highway Revenue Bonds. The advance-refunding resulted in a debt service savings of \$1.8 million, and a net present value economic gain of \$1.8 million (difference between the present values of the old and new debt service payments). The advance-refunding resulted in a difference between the reacquisition price and the net carrying amount of the refunded debt of \$11.1 million. This gain was recognized in fiscal year 2022 as the 2013A bonds were called on July 1, 2022.

The ADOT has pledged future motor vehicle and related fuel fees and taxes to repay \$54.7 million in outstanding direct placement bonds issued in fiscal year 2022. Proceeds from the bonds finance portions of the ADOT's Five-Year Transportation Facilities Construction Program and to refund certain maturities of outstanding Highway Revenue bonds. The bonds are payable solely from motor vehicle and related fuel fees and taxes and is payable through 2023. The total principal and interest remaining to be paid on the bonds are \$55.1 million. Principal and interest paid for the current year and total pledged revenues were \$2.0 million and \$820.2 million, respectively. The annual principal and interest payments on the bonds required 0.2% of the pledged revenues. The pledged revenues of \$820.2 million also apply to the ADOT's Highway Revenue Bonds discussed within Note 6.A.1.b.

On July 8, 2021, the ADOT issued \$28.1 million of Transportation Excise Tax Revenue Refunding Bonds Series 2021 (Series 2021 bonds) with an interest rate of 0.78% and serial maturities ranging from 2022 to 2025. Net proceeds totaled \$27.9 million after payment of \$0.2 million of issuance costs and underwriter's discount. The net proceeds were used to refund, in advance of maturity, portions of the outstanding Series 2011 Regional Area Road Fund Bonds. The advance-refunding resulted in a debt service savings of \$1.3 million, and a net present value economic gain of \$1.3 million (difference between the present values of the old and new debt service payments). The advance-refunding resulted in a difference between the reacquisition price and the net carrying amount of the refunded debt of \$0.5 million. This gain was recognized in fiscal year 2022 as the 2011 bonds were called on July 20, 2021.

The ADOT has pledged future transportation excise taxes to repay \$14.7 million in outstanding direct placement bonds issued in fiscal year 2022. Proceeds from the bonds pay the costs to refund certain maturities of various outstanding Transportation Excise Tax Revenue bond issues. The bonds are payable solely from transportation excise taxes and are payable through 2025. The total principal and interest remaining to be paid on the bonds is \$14.9 million. Principal and interest paid for the current year and pledge revenues were \$13.7 million and total pledged revenues were \$443.5 million, respectively. The annual principal and interest payments on the bonds required 3.1% of the pledged revenues. The pledged revenues of \$443.5 million also apply to the ADOT's Transportation Excise Tax Revenue bonds discussed within Note 6.A.1.b.

## 2. Business-Type Activities

## a. Universities

## i. Arizona State University

The ASU has outstanding two series of direct placement COPs, the Series 2014 Refunding COPs and the 2017 Refunding COPs. The direct placement COPs were issued with similar terms to the ASU's other outstanding COPs with no acceleration or priority provisions. The ASU utilizes COPs to acquire buildings, equipment and land. The COPs are generally callable and collateralized by the acquired asset which is subject to a leasehold interest by the trustee. In the event of a default, the underlying asset value would be removed from the accompanying financial statements.

### ii. Northern Arizona University

The NAU utilizes direct placement Lease Revenue Bonds (LRBs) to acquire buildings, land, and infrastructure. The LRBs are generally callable, with interest payable semiannually and are collateralized by the acquired assets. In the event of a default, the underlying asset value would be removed from the accompanying financial statements and the control of the assets would return to the trustee. The LRBs purchased Pine Ridge Village, McKay Village, High Country Conference Center, and the Student Athlete Health Performance Center (SAHPC). Construction on the SAHPC started during fiscal year 2020 and was completed in February 2022.

### 3. Summary of Direct Placements

### E. FINANCED PURCHASES

The State has entered into financed purchase agreements for the acquisition of land, buildings (including State Prisons), and equipment. The associated assets and liabilities are recorded on the government-wide Statement of Net Position. Financed purchases are agreements that transfer ownership of the financed asset to the lessee by the end of the contract term, do not contain termination options, but may contain a fiscal funding or cancellation clause that is not reasonably certain of being exercised.

The future minimum payments for long-term financed purchases as of June 30, 2022 are summarized below (expressed in thousands):

### F. LEASES

### 1. Governmental Activities

The State has entered into leases with various entities for buildings, land and office space. The leases constitute significant right-to-use lease assets and corresponding lease labilities for the State.

The following State agencies have entered into lease agreements for buildings: (1) the Attorney General, the Board of Regents, and the Early Childhood Development and Health Board leases were for administrative buildings located in Phoenix, Arizona; (2) the Arizona Health Care Cost Containment System lease was for the Arizona Long Term Care Services administrative building located in Tucson, Arizona; (3) the Department of Agriculture lease was for a laboratory located in Chandler, Arizona; (4) the Department of Child Safety leases were for administrative buildings, field service office buildings, storage facilities, and a 24-hour Emergency Transition Care Facility for Children located throughout Arizona; (5) the Department of Corrections, Rehabilitation & Reentry lease was for a parole office located in Phoenix, Arizona; (6) the Department of Economic Security leases were for buildings located throughout Arizona for administrative purposes and for providing critical services, including Employment and Rehabilitation, Benefits and Medical Eligibility, Developmental Disabilities, Child Support, Community Assistance and Development, Aging and Adult, and Child Care; (7) the Department of Public Safety leases were for Public Services Center building, the Northern Regional Crime Laboratory, Property and Evidence Storage, and Fleet Maintenance building, and the Arizona Counter Terrorism Information Center building located throughout Arizona.

The Department of Public Safety has also entered into a lease agreement for land at the Tucson International Airport located in Pima County.

Additionally, the Department of Child Safety has committed to four new building office space leases at fiscal year-end that will commence in fiscal year 2023. Those new lease payment amounts, in total, equal approximately \$22.1 million.

All lease payments are fixed and not variable.

#### 2. Business-type Activities

#### a. Universities

#### i. Arizona State University

The ASU has entered into leases with various entities for equipment, classroom, office, research and student housing and activity space. The following leases constitute significant right-to-use lease assets and corresponding lease liabilities for the ASU:

Brickyard – In July 2004, the ASU entered into a 25 year master lease of the Brickyard, owned by the ASUF Brickyard, LLC, an Arizona limited liability company, of which the sole member is the University Reality, LLC, an Arizona limited liability company, whose sole member is ASU Enterprise Partners. The majority of the facility is being used by the ASU for classrooms, offices and research areas, with the remaining portion being leased by the ASU to various firms for retail and restaurant operations. In June 2018, the ASU entered into an additional 5 year lease in the interest of executing a mixed-use project of existing improvements consisting of a parking garage and commercial building.

SkySong – In June 2006, the ASU entered into a 15 year lease, for approximately 80,000 square feet of office space within a development known as SkySong. The ASU's use of the leased space focuses on supporting entrepreneurial activities and interdisciplinary research programs in engineering-related fields and education technology. The ASU has since entered into multiple leases for additional space within SkySong development for an additional 72,212 square feet of space for similar uses.

Herald Examiner Building – In August 2018, the ASU entered into a 12 year lease for 85,118 square feet of office space known as Herald Examiner Building located in Downtown Los Angeles to create the ASU California Center. The century-old former newspaper headquarters provides educational, community engagement and other programming space for the Herberger Institute, the Walter Cronkite School of Journalism and Mass Communication and other ASU programs.

Phoenix Biomedical Building (Wexford) – In December 2018, the ASU entered into a 15 year lease for 113,615 square feet of the Wexford facility. Wexford is the first public-private development effort between the city of Phoenix, the ASU and Wexford Science and Technology and serves as a global center for interdisciplinary research, discovery and development. The ASU portion of the facility houses academic research and clinical space.

Ascentris-224 – In March 2019, the ASU entered into a 10 year lease with Ryan University Realty, LLC for 169,223 square feet of office and ground floor retail space located within the Novus Innovation Corridor. The ASU utilizes the property for general office, administrative and educational purposes including classrooms and collaborative spaces.

ASU Barrett and O'Connor Washington Center – In December 2014, the ASU entered into a 20 year lease for multi-use office building in Washington, D.C. Previously reported as a capital lease, the implementation of GASB Statement No. 87, *Leases*, required a restatement of net capital assets amounts between subcategories and restatement of lease liabilities.

### ii. Northern Arizona University

The NAU has entered into leases with various entities for equipment, vehicles, classroom, office and student housing purposes.

Statewide Campus Operations – The NAU maintains classroom and office space throughout 20 plus statewide locations with various levels of operations. Many sites are located on community college campuses and other key locations that help meet the NAU goals of providing accessible educational opportunities statewide. Combined leased office and classroom space total approximately 94,400 square feet for significant sites. Lease terms are typically 5 years in duration, and future minimum lease payments for significant sites total approximately \$3.6 million.

Honors College – Located in the center of the NAU's main campus since 2019, the Honors College residence building houses over 700 students. The NAU operates the residence building under a 40-year sub lease with American Campus Communities, which constructed the building under a 40-year land lease with the NAU. Base lease payments increase 3% annually over the 40-year term and future minimum lease payments total approximately \$290.0 million through June 2057.

Arizona Access Technology Program (AzTAP) – Created in 1994, the AzTAP works to improve the availability of assistive technology to individuals with disabilities and their families. The NAU's Institute for Human Development serves as the lead agency in the program, which operates in central Phoenix in leased space of approximately 5,700 square feet. Future minimum lease payments through January 2030 total approximately \$0.9 million.

Arizona K-12 Center (AZ K-12 Center) – The AZ K-12 Center improves teaching and learning through high-quality professional development. The NAU is a leader in the center's operations, which occupies approximately 7,300 square feet of leased space in central Phoenix. Future minimum lease payments through June 2024 total approximately \$0.3 million.

#### iii. University of Arizona

The U of A has entered into certain leases that convey control of the right to use another entity's nonfinancial asset for a period of time in an exchange or exchange-like transaction. These are generally for real property.

#### 3. Summary of Leases

Principal and interest payments for leases outstanding at June 30, 2022 are as follows (expressed in thousands):

|                | Annual Debt Service            |                    |                   |        |                          |         |                          |                    |    |                   |                          |         |
|----------------|--------------------------------|--------------------|-------------------|--------|--------------------------|---------|--------------------------|--------------------|----|-------------------|--------------------------|---------|

### G. COMPENSATED ABSENCES

Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. The compensated absence liability attributable to governmental activities will be liquidated primarily by the General Fund. During fiscal year 2022, the State paid for compensated absences from governmental funds as follows: 78.08% from the General Fund, 15.64% from other funds, and 6.28% from other major funds.

## H. CHANGES IN LONG-TERM OBLIGATIONS

The following is a summary of changes in Long-term Obligations (expressed in thousands):

|   |    | Balance<br>uly 1, 2021<br>as restated) | Increases Decrea |         | Decreases | Balance<br>June 30, 2022 |    | ıe Within<br>Dne Year |               | Due<br>Thereafter |           |

(1) As a result of implementation of GASB 87, previously reported capital lease obligations are now reported as financed purchases. Leases are also being reported beginning in fiscal year 2022.

(2) Beginning balances were restated due to reclassifying a previously reported capital lease obligations for the Department of Game and Fish to a COP. This resulted in an \$11.9 million increase to COP with a corresponding \$11.9 million decrease to financed purchases.

(3) Beginning balances were restated as a result of implementation of GASB 87 for the Universities which resulted in a \$34.1 million decrease to financed purchases.

The above long-term obligations relating to governmental activities include internal service funds. Amounts for compensated absences differ from those in the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position, because \$198.6

million of compensated absences are attributable to internal service funds. These amounts are included in the reconciliation as part of internal service fund net position.

Interfund balances represent (1) amounts due to and from the internal service funds for goods and services rendered, and (2) cash transferred between funds for various interfund activities subsequent to the balance sheet date. The cash is recorded in the fund which initiated the transfer, and a corresponding liability is recorded. The receiving fund records an interfund receivable.

#### **Interfund Transfers**

Transfers for the year ended June 30, 2022 were as follows (expressed in thousands):

| Total Transfers In   | \$ | 379,382    | \$            | 59,622   | \$ | 2,853                     | \$<br>846,055                     | \$   | 975,641              | \$<br>62,000 | \$<br>11,150            | \$   | 8,938                  | \$<br>2,345,641           |

Interfund transfers represent legally authorized non-exchange transfers of funds. These transfers include: (1) legislative appropriations from the General Fund, (2) other legislative transfers, (3) statutorily required transfers, (4) transfers related to the elimination of funds, and (5) transfers for debt service.

#### Change in reporting entity

The ASU acquired the ASUBIOS in fiscal year 2022 which is recorded as a blended component unit in the Universities' financial statements. The ASUBIOS primarily exists to benefit the ASU by providing an Atlantic Ocean hub for research and instructional activities. The inclusion of the ASUBIOS resulted in a \$38.7 million increase to net position in the Universities' fund and a \$38.7 million increase to net position in the business-type activities of the primary government.

The Arizona Smart Save was an addition to the State's fiduciary component units in fiscal year 2021 as a result of implementing GASB Statement No. 84, *Fiduciary Activities*. However, in fiscal year 2022 the Arizona Smart Save was removed from the State's reporting entity. As part of the 2021 Fifty-fifth Legislature, Senate Bill 1348 repealed Title 38, Chapter 5, Article 5 and amended A.R.S. § 38-715 and A.R.S. § 38-781. As a result, the Arizona Smart Save no longer has a governing board and meets the exception in GASB 97, paragraph 4. Thus, financial accountability is no longer established and the Arizona Smart Save does not meet the criteria of a component unit. Additionally, it would not be misleading to exclude the Arizona Smart Save from the State's reporting entity. Elimination of the Arizona Smart Save resulted in a \$1.9 billion decrease to beginning net position in the fiduciary funds.

## **Correction of error**

The State Park's Revenue Fund was previously reported as a general fund and has been reclassified to an enterprise fund. The nature of the fund changed in prior years and remained classified as an incorrect fund type due to oversight. This has been corrected in the current fiscal year and resulted in a \$32.7 million decrease to beginning fund balance in the general fund, a \$41.9 million decrease to beginning net position in the governmental activities of the primary government, a \$41.9 million increase to beginning net position in the other non-major enterprise fund, and a \$41.9 million increase to beginning net position in the business-type activities of the primary government.

The Department of Veteran Services did not properly accrue construction in progress in the prior fiscal year due to oversight. This has been corrected in the current fiscal year and resulted in a \$20.5 million decrease to beginning net position in the governmental activities of the primary government, a \$17.1 million increase to beginning net position in the other non-major enterprise fund, and a \$17.1 million increase to beginning net position in the business-type activities of the primary government.

#### Change in accounting principle

In fiscal year 2007, the Game & Fish issued Beneficial Interest Certificates for \$20.4 million which was classified in long-term debt obligations as a capital lease. With the implementation of GASB 87, the capital lease was reclassified to certificates of participation. As a result of the change, the cash held with trustee was reported in the other non-major governmental fund. This resulted in a \$2.8 million increase to beginning fund balance in the other non-major governmental fund and a \$2.8 million increase to beginning net position in the governmental activities of the primary government.

The implementation of GASB 87 for the NAU resulted in a \$4.0 million decrease to beginning net position in the Universities' fund and a \$4.0 million decrease to beginning net position in the business-type activities of the primary government.

#### Change in accounting estimate

The ADOT changed the calculations on deferred gains/losses on refundings from amortizing bond premiums on a straight-line basis to the effective interest method which resulted in a \$12.3 million decrease to beginning net position in the governmental activities of the primary government.

# NOTE 9. GOVERNMENTAL FUND BALANCES

Detail of the fund balance categories and classifications shown in the aggregate on the governmental funds balance sheet for the year ended June 30, 2022 were as follows (expressed in thousands):

# NOTE 10. DEFICIT NET POSITION

The Risk Management Fund (RMF), an internal service fund, reported a deficit net position of \$314.0 million primarily due to the RMF receiving annual funding only for expected paid insurance losses (including loss adjustment expenditures) within the State's self-insured retention for the specific fiscal year. Accrued insurance losses of the RMF beyond the specific fiscal year are not considered when determining funding for each fiscal year.

The Retiree Accumulated Sick Leave Fund (RASL), an internal service fund, pays retirees for their accumulated sick leave upon retirement from State service when they meet certain criteria. Beginning with fiscal year 2008, the State applied the provisions of GASB Statement No. 16, *Accounting for Compensated Absences* to the RASL. This results in a liability in the RASL which is significantly greater than the actual funding of the RASL, because the liability is based upon an estimate of the total RASL benefit earned by existing employees at the balance sheet date; however, State agencies pay for only one year based on a 0.40% charge on gross payroll. The \$186.9 million deficit net position is primarily due to the above funding mechanism.

The Health Insurance Trust Fund (HITF), an internal service fund, reported a deficit net position of \$77.6 million primarily due to a decrease of \$59.4 million in sales and charges for services as compared to fiscal year 2021. In addition, the actuary estimates of the incurred but not reported (IBNR) reserves increased 43% from fiscal year 2021 which caused cost of sales and benefits to increase by \$32.5 million as compared to fiscal year 2021.

# NOTE 11. JOINT VENTURES

# A. LARGE BINOCULAR TELESCOPE CORPORATION

The U of A is a participant in the Large Binocular Telescope Corporation (LBT). The LBT was formally incorporated as a nonprofit corporation in August 1992 pursuant to a Memorandum of Understanding, as amended, executed on February 24, 1989, between the U of A and the INAF Astrophysical Observatory in Florence, Italy. The purpose of the joint venture is to design, develop, construct, own, operate, and maintain a binocular telescope located in Arizona. The current members of the LBT are the U of A, Istituto Nazionale di Astrofisica, Ohio State University, and LBT Beteiligungsgesellschaft.

The U of A has committed resources equivalent to 26.25% of the LBT's construction costs and annual operating costs. As of June 30, 2022, the U of A has made total cash contributions of \$19.2 million and contributions of services and materials of \$3.5 million, which is recorded as equity interest in joint venture on the Statement of Net Position. The U of A's financial interest represents future viewing/observation rights. As of December 31, 2007, the assets had been substantially completed and the telescope entered the commissioning phase. During calendar year 2007, the telescope became operational for research purposes and depreciation of the property and equipment commenced. The U of A recorded its proportionate share of the use of the viewing/observation rights, \$1.9 million in calendar year 2022, as a reduction in its equity interest. At June 30, 2022, the equity interest totaled \$5.0 million. According to the most recent audited financial statements of the LBT for the year ended December 31, 2021, assets, liabilities, revenues, and expenses totaled \$104.6 million, \$7.6 million, \$12.0 million, and \$19.9 million, respectively.

Information regarding the LBT's financial statements can be obtained from the University of Arizona Comptroller at the University of Arizona, Financial Services, 888 N. Euclid Ave., Room 502, Tucson, Arizona 85721.

# B. GIANT MAGELLAN TELESCOPE ORGANIZATION

The Giant Magellan Telescope Organization (GMTO) is a non-stock, nonprofit, jointly governed corporation founded to own and administer the planning, design, construction, and operation of the 25-meter Giant Magellan Telescope, a proposed astronomical telescope and its associated buildings, equipment and instrumentation, to be located in northern Chile. The GMTO is jointly governed by several leading educational and research institutions from the United States, South Korea, and Australia, including the U of A. The U of A comprises two of the fifteen members of the GMTO Board of Directors, and is one of thirteen founders and participants. The GMTO will hold all rights, title and interest to and in the telescope. Although the U of A does not have a defined equity interest, as a founder the U of A will receive viewing rights to the telescope in proportion to their voluntary contributions to the project. The U of A has recognized an intangible asset related to the costs incurred during the design, development, and construction/commissioning phases. The U of A has also signed agreements outlining capital commitments to the GMTO between June 2016 and June 2022. Capital commitments in the amount of \$6.4 million related to the GMT as of June 30, 2022 are reported in Note 6.H.

The U of A has contributed a total of \$85.6 million to the GMTO as of June 30, 2022. The U of A has been and will be responsible for manufacturing the telescope's mirrors and will receive compensation from other GMTO founders and participants based on individual contractual agreements. As of June 30, 2022, the U of A has received contractual payments related to the project from the GMTO and related partners totaling \$87.0 million. Contractual payments were for projects related to mirror construction and process development and include the acquisition of glass and mold materials, the development of mirror testing systems, design study, and engineering support.

# NOTE 12. COMMITMENTS, CONTINGENCIES, AND COMPLIANCE

## A. INSURANCE LOSSES

The ADOA – Risk Management Division manages the State's property, environmental, general liability, and workers' compensation losses. The State has determined that the management of these losses can be performed effectively and efficiently through the Risk Management Division. Consequently, all agencies are required to participate in this program. The State's Risk Management Division evaluates the proper mix of purchased commercial insurance and self-insurance annually.

The Special Fund provides payment of workers' compensation benefits. The fund processes payment of claims for injured workers where the employer failed to provide workers' compensation insurance; provides continual workers' compensation benefits for bankrupt self-insured employers; provides partial coverage of workers' compensation benefits for second injury claims (apportionment claims); provides vocational rehabilitation benefits; and provides continuing medical benefits for pre-1973 workers' compensation claims.

The Health Insurance Trust Fund (HITF) provides self-funded health insurance benefit plans that are available to employees and retirees in accordance with A.R.S. § 38-654. The HITF receives funding from legislative appropriations, premiums collected from agencies and employees for the health insurance benefit plans, and investment earnings on premiums collected from employees. Premium rates are set using a prospective experience rating method.

To ensure that the HITF remains financially solvent, reserving is required. The reserving methods used by the HITF actuary are based on generally accepted actuarial principles and comply with A.R.S. § 20-516. The HITF's reserves are estimates of the plan's claim liabilities for the current plan year and future periods. Contract reserves are generally known as the IBNR liability – the estimated liability for an enrollee. The IBNR liability is estimated using the monthly pattern of incurred and paid claims. The calculation of the IBNR liability is based upon the claim lag pattern experienced through December 31, 2021, trended forward. The amount to hold for the IBNR liability is calculated by taking the distribution of the claim probabilities.

The Risk Management Fund and the Special Fund record claims liability when the reported loss is probable and reasonably estimated. On an annual basis, independent actuarial firms are engaged to estimate the Risk Management Fund's and the Special Fund's total yearend outstanding claims liability, which takes into account recorded claims and related allocated claims adjustment expenditures, loss development factors, and an estimate for IBNR claims. There were no non-incremental claims adjustment expenses included in the liability for claims and adjustments.

The management and payment of these losses is accomplished through the funding mechanism of the Risk Management Fund and the Special Fund. As discussed in the above paragraph, an independent annual actuarial analysis is performed to evaluate the needed funding. The Risk Management Division will assess each agency an annual portion of the necessary funding for the Risk Management Fund based on their exposures and prior loss experience. Assessments on gross premium revenues and settlement income primarily fund the Special Fund. To provide funding for the payment of these workers' compensation benefits, the Special Fund may direct the payment of assessments into the State Treasury under A.R.S. § 23-1065(A) (general liability assessment - not to exceed 1.0%) and A.R.S. § 23-1065(F) (apportionment assessment - not to exceed .5%), in a total amount not to exceed 1.5% of all premiums received by private insurance carriers and what would have been paid by self-insured employers if they had been fully insured by an insurance carrier authorized to transact workers compensation insurance during the immediately preceding calendar year. The Special Fund was determined to be actuarially sound since June 30, 2015 and as a result did not levy an A.R.S. § 23-1065(A) or A.R.S. § 23-1065(F) assessment since calendar year 2015.

AMI Risk Consultants, Inc. was retained to evaluate the medical and compensation related liabilities of the Special Fund as of June 30, 2022. The total estimated loss reserve of \$214.6 million decreased by 4.83%, or \$10.9 million, from the prior year estimated loss reserve of \$225.5 million. The 4.83% decrease in estimated loss reserves was primarily the result of an increase in reported claims reserves for all reward categories. A confidence level of 80 percent was used in calculating medical and compensation related liabilities. A confidence level of 80 percent indicates a confidence that the estimated liability will be adequate to cover actual costs 80 out of 100 years. The reserves are discounted at an assumed rate of 0.90% for the compensation benefits and zero percent for the medical benefits. For medical benefits, it is assumed that the inflation in medical costs will equal the investment return earned by the Special Fund on those reserves.

The Special Fund has filed proofs of claim with bankruptcy trustees for bankrupt self-insured employers. Additionally, the Special Fund has filed proofs of claim with ancillary receivers and liquidators regarding the recovery of statutory deposits and other monies for insurance carrier insolvencies that the Special Fund was responsible for prior to July 1, 2015. Effective July 1, 2015, the responsibility for insolvent carriers was transferred to the Department of Insurance and Financial Institutions Guaranty Funds. Since the actual amount

that will ultimately be received cannot be determined, the Special Fund will continue to recognize receipt of insolvent carrier and bankrupt self-insured employer deposits as revenue at the time received rather than recording a receivable.

Occasionally, the Risk Management Division agrees with claimants to purchase an annuity contract to settle specific claims when it is determined that it is in the best interest of the State to do so. In these instances, the State obtains a release agreement from the claimant and transfers its obligation to make future periodic payments to an assignment company. The State requires a secondary guarantor which is obtained when the assignment company transfers the obligation to make the payments through the use of a qualified assignment (typically a life insurance company with an approved rating). As a result of these requirements, the likelihood that the State will be required to make future payments on these claims is remote.

There have been no significant reductions in the current fiscal year insurance coverage. There have been no settlements that have exceeded insurance premium coverage in the last three fiscal years. Effective September 24, 2022, the State began providing cyber coverage with the establishment of the Cyber Risk Insurance Fund which provides cyber coverage to protect the State's agencies, boards, and commissions.

The following table presents the changes in claims liabilities balances (short- and long-term combined) during fiscal years ended June 30, 2021 and June 30, 2022 (expressed in thousands):

| Fiscal Year                         |    | Beginning<br>Balance | (  | urrent Year<br>Claims and<br>Changes in<br>Estimates | Claims<br>Payments | Ending<br>Balance |

| Health Insurance Trust Fund:        |    |                      |    |  |                    |                   |
| 2021                                |    | 76,944               |    | 795,722  | (796,501)          | 76,165            |
| 2022                                |    | 76,165               |    | 799,684  | (767,198)          | 108,651           |

## **B. LITIGATION**

The State has a variety of claims pending against it that arose during the normal course of its activities. Management believes, based on advice of legal counsel, losses, if any, resulting from settlement of these claims will not have a material effect on the financial position of the State. All losses for any unsettled litigation or contingencies involving workers' compensation, medical malpractice, health benefit settlements, construction and design, highway operations, employment practices, criminal justice, fidelity and surety, environmental property damage, general liability, environmental liability, building and contracts, auto liability, or auto physical damage are determined on an actuarial basis and included in the Accrued Insurance Losses of the Risk Management Fund, Industrial Commission Special Fund, and the Health Insurance Trust Fund.

## C. ACCUMULATED SICK LEAVE

Sick leave includes any approved period of paid absence granted to an employee due to illness, injury, or disability. Most State employees accrue sick leave at the rate of eight hours per month without an accumulation limit. State employees are eligible to receive payment for an accumulated sick leave balance of at least 500 hours, with a maximum of 1,500 hours, upon retirement directly from State service. The benefit value is calculated by taking the State employee's hourly rate of pay at the retirement date, multiplied by the number of sick hours at the retirement date times the eligibility percentage. The eligibility percentage varies based upon the number of accumulated sick hours from 25% for 500 hours to a maximum of 50% for 1,500 hours. The maximum benefit value is \$30 thousand. The benefit shall be paid either in a lump sum or in installments over a three-year period. The RASL Fund is accounted for in the financial statements as an internal service fund and accounts for the retiree accumulated sick leave liability of \$195.4 million at June 30, 2022.

## **D. UNCLAIMED PROPERTY**

The State of Arizona's Uniform Unclaimed Property Act requires the deposit of certain unclaimed assets into a managed fund. A total of approximately \$2.0 billion (net of refunds issued) has been collected since the inception of the fund. The State is also holding securities valued at \$39.4 million and mutual funds valued at \$38.9 million. In accordance with A.R.S. § 44-313 and A.R.S. § 44-314, for fiscal year 2022, \$24.5 million was deposited in the Department of Revenue Administrative Fund, \$2.5 million was deposited in the Housing Trust Fund, \$2.0 million was deposited in the Seriously Mentally III Housing Trust Fund, \$124.0 million was deposited in other funds as required by State statute. The remittances to the General Fund and the holdings by the State represent contingencies, as claims for refunds can be made by the owners of the property. The GASB requires that a liability be reported to the extent that it is probable that escheat property will be reclaimed and paid to claimants. This liability is also reported as a reduction of revenue. At June 30, 2022, \$513.8 million of this liability is reported in the General Fund, because it is the fund to which the property ultimately escheats in Arizona.

# E. CONSTRUCTION COMMITMENTS

The ADOT had outstanding commitments under construction contracts of \$3.2 billion at June 30, 2022 as presented in the following table (expressed in thousands):

|                             | <br>Remaining<br>Commitments |
|-----------------------------|------------------------------|
| Local government assistance | \$<br>185,443                |
| State highways              |                              |
| Construction                | 1,756,916                    |
| Design                      | 243,049                      |

# F. ARIZONA STATE LOTTERY

Winners are offered the option of cash or 30-year annuity for the PICK on-line game and a select number of Scratcher games. The annuities are purchased from qualifying insurance companies which have the highest ratings from among A.M. Best Company, S & P, Moody's, Duff & Phelps, or Weiss. Purchases of annuities transfer liabilities for prizes to the insurance company. However, the Lottery may incur liabilities for prizes in the event of a default of an insurance company. Aggregate future payments to prize winners on existing annuities totaled \$50.7 million at June 30, 2022. Approximately \$46.5 million of the total aggregate future payments at June 30, 2022 relate to annuities purchased from five separate insurance companies, of which approximately \$16.9 million relates to a single insurance company.

## G. AHCCCS PROVIDER BILLING

The AHCCCS' Office of the Inspector General (OIG) and the Arizona Attorney General's Office (AAGO) became aware of potential fraudulent billing practices including significant increases in outpatient behavioral health services. The AHCCCS connected the irregular billing with alleged criminal activity targeting tribal communities and other Arizonans. On May 16, 2023, the AHCCCS suspended payments to 102 providers and additional Credible Allegation of Fraud payment suspensions will be placed as the AHCCCS determines that there are additional fraudulent providers through their investigations. The payments relate to periods which includes fiscal year 2022 and prior years. Despite the scale of potential Behavioral Health services fraud, the AHCCCS has taken rapid steps to limit potential liability through holistic, system-wide strategies to find and eliminate fraudulent billing, including recommendations from the AAGO.

The AHCCCS' OIG continues to investigate and identify areas of concern and implement necessary system improvements until it is determined that the integrity of the AHCCCS provider network is restored. A determination of any potential liability cannot be made because the investigations are in the early stages. Accordingly, the accompanying financial statements do not include any adjustments

relating to amounts due to the Centers for Medicare and Medicaid Services for the improper billings or recovery of such funds from providers.

## NOTE 13. SETTLEMENTS

## 1. Tobacco Settlement

The State is one of many states participating in the settlement of litigation with the tobacco industry over the reimbursement of healthcare costs. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The State expects to receive settlement payments through 2025.

The State recorded tobacco settlement revenue of \$108.4 million in the fund statements and the government-wide statements in fiscal year 2022. Future settlement payments are subject to several adjustments, but the amounts are not presently determinable. These adjustments include a volume adjustment, which could reflect any decreasing cigarette production under a formula that also takes into account increased operating income from sales. Other factors that might affect the amounts of future payments include ongoing and future litigation against the tobacco industry and the future financial health of the tobacco manufacturers. Because the net realizable value of the future settlement payments is not measurable and there is no obligation for the tobacco companies to make settlement payments until cigarettes are shipped, the State did not record a receivable for the future payments related to cigarette sales after June 30, 2022.

## 2. Opioid Settlement

Beginning in fiscal year 2022, the State of Arizona signed settlement agreements with the pharmaceutical distributors who manufactured and marketed opioids where the State expects to receive settlement revenue over 18 years. The State recorded opioid settlement revenue of \$9.3 million and unavailable revenue of \$450.8 million in the fund statements in fiscal year 2022. In the government-wide statements, the State recorded opioid settlement revenue of \$450.8 million in fiscal year 2022.

## NOTE 14. SUBSEQUENT EVENTS

On July 18, 2022, the U of A entered into a fifth amendment to the commitment agreement for the Giant Magellan Telescope. The original commitment agreement was dated December 5, 2014. The new amendment was for an additional funding round associated with the continued construction of the telescope. This included a capital commitment by the U of A for \$50.0 million to be paid on an annual schedule through July 2031 with average annual payments of approximately \$5.0 million per year.

On August 11, 2022, the ADOA Direct Placements – Certificates of Participation, Series 2017 and the Certificates of Participation, Series 2015 (partial relating to the refunding portion of Certificates of Participation, Series 2008A) were defeased. Pursuant to Laws 2022, Chapter 313, Section 99, the ADOA was appropriated \$93.5 million from the State of Arizona's General Fund for the defeasances with a final closing amount of \$88.4 million.

On May 10, 2023, the ASU issued \$72.9 million in System Revenue Bonds, Series 2023A (Series 2023A Bonds), \$88.8 million in System Revenue Bonds, Series 2023B (Series 2023B Bonds), and \$27.7 million in System Revenue Bonds, Series 2023C (Series 2023C Bonds). The Series 2023A Bonds include serial and term bonds with an interest rate ranging from 5.00% to 5.50% and maturity dates ranging from 2024 to 2048. The Series 2023B Bonds include serial and term bonds with an interest rate ranging from 4.00% to 5.00% and maturity dates ranging from 2024 to 2053. The Series 2023C Bonds include serial bonds with interest rates ranging from 4.00% to 5.00% and maturity dates ranging from 2024 to 2053. The Series 2023A Bonds include serial bonds with interest rates ranging from 4.39% to 4.93% and maturity dates ranging from 2025 to 2037. The Series 2023A, Series 2023B, and Series 2023C Bonds were issued to provide funds for: (a) the construction of a parking structure project on Mill Avenue on the ASU's Tempe campus, (b) the construction and equipping of a new academic building on the ASU's Tempe campus, (c) the construction and equipping of an academic and office space project on the ASU's Tempe campus, (d) improvements to information technology infrastructure on the ASU's campuses, (e) renovations to research laboratories on the ASU's campuses, (f) renovations to classroom and academic facilities on the ASU's campuses, and (g) paying costs related to the issuance of the Series 2023 Bonds. Prior to their stated maturity date pursuant to the debt documents, the Series 2023A and Series 2023B Bonds are subject to optional and mandatory redemption whereas the Series 2023C Bonds are subject to optional redemption.

On September 20, 2023, the ADOT issued \$351.4 million in Highway Revenue and Revenue Refunding Bonds, Series 2023 (Series 2023 Bonds). The Series 2023 Bonds include serial bonds with interest rate of 5.00% and maturity dates ranging from 2024 to 2033. The Series 2023 Bonds were issued for the purposes of: (1) financing portions of the State Transportation Board's Five-Year Capital Program, (2) repurchasing by means of a tender offer, certain outstanding Series 2020 Bonds of the State Transportation Board, and (3) paying costs of issuance. The Series 2023 Bonds are not subject to redemption prior to maturity.

# NOTE 15. DISCRETELY PRESENTED COMPONENT UNIT DISCLOSURES

The accounting policies of the State's component units conform to U.S. GAAP applicable to governmental units adopted by the GASB, except for those component units affiliated with the State's Universities. Because the component units affiliated with the Universities are not governmental entities, they follow FASB statements for not-for-profit organizations for financial reporting purposes. The disclosures below for the discretely presently component units only include those that are essential for reporting.

# A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## 1. Measurement Focus and Basis of Accounting

The State's component units are presented using the economic resources measurement focus and the accrual basis of accounting, and component units affiliated with the Universities are presented using the accrual basis of accounting.

#### 2. Net Assets

Component units affiliated with the Universities classify net assets, revenues, expenses, gains and losses based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the component units affiliated with the Universities and changes therein are classified and reported as follows:

- *Without donor restrictions* includes assets and contributions that are not restricted by donors or for which such restrictions have expired.
- *With donor restrictions* includes temporarily and permanently restricted assets and contributions for which donor-imposed restrictions have not been met (either by the passage of time or by actions of the Foundations or university), or require that the corpus be invested in perpetuity. Donor-restricted contributions are classified as such even if restrictions are satisfied in the same reporting period in which the contributions are received.

## 3. Investments

The fair values of publicly traded securities are based on quoted market prices and exchange rates, if applicable. Absolute return limited partnership and fund interests are recorded at fair value based on quoted market prices (where the underlying investment is a mutual fund) or as determined by the fund manager. Purchases and sales of investment securities are reflected on a trade-date basis. Realized gains and losses are calculated using the average cost for securities sold. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Investment income or loss comprises the sum of realized and unrealized gains and losses on investments and interest and dividends, less an investment management fee.

In addition, investments include Universities' endowment funds totaling \$628.0 million managed by the Foundations. These funds are primarily held in pooled endowment funds managed for the Universities under service contracts with the Foundations and invested in the Foundations' investment pools.

#### 4. Income Taxes

The Universities-affiliated component units qualify as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code, except for the ACFFC and, accordingly, there is no provision for income taxes in the accompanying financial statements. In addition, they qualify for the charitable contribution deduction and have been classified as organizations that are not private foundations. Any

unrelated business income would be taxable. The ACFFC is exempt from taxes under the provisions of Section 501(c)(4) of the Internal Revenue Code. The ACFFC does not qualify for the charitable contribution deduction.

## 5. Contributions

Contributions received are recorded as without donor restrictions or with donor restrictions depending on the existence and/or nature of any donor restrictions. All donor-restricted support is reported as an increase in with donor restrictions net assets.

#### 6. Net Assets Released from Restriction

As the restrictions on donor-restricted net assets are met, the net assets are released from restriction and reclassified to net assets without donor restrictions. The total net assets reclassified are reported as net assets released from restriction in the accompanying Statement of Activities.

#### 7. Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position by the component units that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. Deferred outflows of resources increase net position, similar to assets.

#### 8. Endowments

The management of the ASUEP and the U of A Foundation endowments is governed by laws in the State of Arizona created under the Arizona Management of Charitable Funds Act.

The ASUEP has interpreted State statute as requiring the preservation of the fair value of the original gifts at the gift date of the donorrestricted endowment funds. As a result of this interpretation, the ASUEP classifies as with donor restriction net assets: (a) the original value of gifts donated to the permanent endowment; (b) the original value of subsequent gifts to the permanent endowment; and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The ASUEP investment policies are reviewed periodically. The long-term financial objectives are to produce a relatively predictable and stable payout stream that increases over time at least as fast as the general rate of inflation and to preserve intergenerational equity by achieving growth of the investments at a rate that at least keeps pace with the general rate of inflation, net of spending.

The U of A Foundation endowment payout rate is a percentage (4.125% of the average fair value at the three previous calendar yearends) of the fair value of each endowment account, as determined from time to time by the U of A Foundation's Board of Trustees. The U of A Foundation considers the following factors in making a determination to appropriate donor-restricted endowment funds: the net rate of return earned by each endowment account in each of the five most recent fiscal years; the net real rate of return (as measured by the Higher Education Price Index) earned by the endowment pool in each of the five most recent fiscal years (i.e., the duration and preservation of the endowment pool); payout rates established by other university endowments as published in the National Association of College and University Business Officers - Teachers, Insurance, and Annuity Study of Endowments; any unusual or extraordinary circumstances impacting the U of A flow of funds from other sources (i.e., tuition revenues, State appropriations, etc.); the extent to which programs benefiting from the payout rate rely on these funds to achieve their goals and objectives; general economic conditions; the possible effect of inflation or deflation; and the expected total return from income and appreciation of investments per the most recent asset allocation study.

The U of A Foundation's goal is to manage endowment assets such that the annual nominal return exceeds the annual "hurdle rate" (the sum of the payout and the endowment fee) so the endowment principal is able to grow and continue to fund in perpetuity the set of activities envisioned by the donor at the time of the gift. The U of A Foundation expects its endowment funds to provide an annual average rate of return of 6.5% with a standard deviation of 12.0% over a 20 year period.

## 9. Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **B. DEPOSITS AND INVESTMENTS**

#### 1. Component Units

## a. Deposits and Investment Policies

The investments of the AFA's WIFA are stated at fair value, except guaranteed investment contracts, which are stated at cost since they are non-participating contracts.

Per A.R.S. § 20-665 and § 20-687, the DIFIGF's board of directors shall submit to the director the fund's plan of operations. Investment policies adopted pursuant to the plans of operation authorize the DIFIGF to invest monies in obligations issued or guaranteed by the United States or any of its senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, and interest earning investments such as share, checking, savings accounts, or certificates of deposit.

## b. Custodial Credit Risk - Deposits and Investments

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from the outside party. Neither the AFA's WIFA nor the DIFIGF have a formal policy regarding custodial credit risk for deposits. At December 31, 2021, the DIFIGF had uncollateralized and uninsured deposits in the amount of \$1.1 million.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered. Neither the AFA's WIFA nor the DIFIGF have a formal policy regarding custodial credit risk for investments.

## c. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The AFA's WIFA does not have a formal policy regarding interest rate risk. The DIFIGF's investment policy requires that the maximum final maturity on an individual investment shall not exceed three years, except for mortgage backed securities which target a three-year weighted average maturity. In addition, it also requires an average duration to not exceed one year for auto and other and two years for workers' compensation.

The following table presents the interest rate risk utilizing the segmented time distribution method for the AFA's WIFA as of June 30, 2022 and for the DIFIGF as of December 31, 2021 (expressed in thousands):

|  |                | _  | Investr     | ı y           | ears) |             |
|--|----------------|----|-------------|---------------|-------|-------------|
| Investment Type                        | <br>Fair Value |    | Less than 1 | <br>1-5       | _     | More than 5 |
| Certificates of deposit (negotiable)   | \$<br>4,499    | \$ | 4,499       | \$<br>—       | \$    |             |
| Commercial mortgage backed securities  | 1,757          |    |             | 238           |       | 1,519       |
| Corporate notes & bonds                | 2,827          |    | 1,375       | 1,452         |       |             |
| Guaranteed investment contracts        | 8,145          |    | —           | —             |       | 8,145       |
| Money market mutual funds              | 42,067         |    | 42,067      | —             |       |             |
| U.S. agency mortgage backed securities | 1,804          |    | —           | 1,205         |       | 599         |
| U.S. Treasury securities               | <br>236,288    |    | 79,700      | <br>148,624   |       | 7,964       |
| Total                                  | \$<br>297,387  | \$ | 127,641     | \$<br>151,519 | \$    | 18,227      |

## d. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the holder of the investment. The AFA's WIFA does not have a formal policy regarding credit risk, but their investments are in accordance with the master bond indenture. The DIFIGF's investment policy requires that investments shall be limited to those securities or other investments with a rating no lower than BBB- from S & P. The following table presents the AFA's WIFA's and the DIFIGF's investments, both of which were rated by S & P and/or an equivalent national rating organization. The ratings are presented using S & P's rating scale as of June 30, 2022 for the AFA's WIFA and as of December 31, 2021 for the DIFIGF (expressed in thousands):

| Investment Type                        | Fa | ir Value | AAA         | AA        | Α           | A  | -1 Thru<br>A-2 | Not<br>Rated |
|--|----|----------|-------------|-----------|-------------|----|----------------|--------------|
| Certificates of deposit (negotiable)   | \$ | 4,499    | \$<br>      | \$<br>    | \$<br>_     | \$ | 4,499          | \$<br>       |
| Commercial mortgage backed securities  |    | 1,757    | 1,757       |           | —           |    |                |              |
| Corporate notes & bonds                |    | 2,827    |             | 753       | 1,724       |    | 350            |              |
| Guaranteed investment contracts        |    | 8,145    | _           |           | _           |    | _              | 8,145        |
| Money market mutual funds              |    | 42,067   | 247         |           | _           |    | _              | 41,820       |
| U.S. agency mortgage backed securities |    | 1,804    | 1,804       |           | _           |    | —              | _            |
| Total                                  | \$ | 61,099   | \$<br>3,808 | \$<br>753 | \$<br>1,724 | \$ | 4,849          | \$<br>49,965 |

#### e. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The AFA's WIFA's investment policy contains no limitations on the amount that can be invested in any one issuer. At June 30, 2022, no investments in any one issuer exceeded more than 5% of the AFA's WIFA's total investments.

The DIFIGF's investment policies state that no more than 5% of its investment portfolio or \$5 million, whichever is less, shall be invested with any one issuer, with the exception of the U.S. government, its agencies, or instrumentalities. At December 31, 2021, no investments in any one issuer exceeded more than 5% of the DIFIGF's total investments.

## f. Fair Value Measurement

The AFA's WIFA's investments at June 30, 2022 and the DIFIGF's investments at December 31, 2021, categorized within the fair value hierarchy established by U.S. GAAP, were as follows (expressed in thousands):

|  |    |             | Fair Value Measurement Using |   |    |   |    |   |  |  |
|--|----|-------------|------------------------------|---|----|---|----|---|--|--|
| Investment by Fair Value Level         | Ju | ne 30, 2022 |                              | Quoted Prices<br>In Active<br>Markets for<br>dentical Assets<br>(Level 1) |    | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) |    | Significant<br>nobservable<br>Inputs<br>(Level 3) |  |  |
| Certificates of deposit (negotiable)   | \$ | 4,499       | \$                           |   | \$ | 4,499   | \$ |   |  |  |
| Commercial mortgage backed securities  |    | 1,757       |                              |   |    | 1,757   |    |   |  |  |
| Corporate notes & bonds                |    | 2,827       |                              | —   |    | 2,827   |    | —   |  |  |
| Money market mutual funds              |    | 247         |                              | 247   |    | —   |    | —   |  |  |
| U.S. agency mortgage backed securities |    | 1,804       |                              | _   |    | 1,804   |    | _   |  |  |
| U.S. Treasury securities               |    | 236,288     |                              | 236,288   |    | —   |    |   |  |  |
| Total investments by fair value level  | \$ | 247,422     | \$                           | 236,535   | \$ | 10,887  | \$ |   |  |  |
| Guaranteed investment contracts        |    | 8,145       |                              |   |    |   |    |   |  |  |
| Money market mutual funds              |    | 41,820      | _                            |   |    |   |    |   |  |  |
| Total investments                      | \$ | 297,387     | _                            |   |    |   |    |   |  |  |

Investments categorized as Level 1 are valued using prices quoted in active markets for those investments. Investments categorized as Level 2 are valued using significant other observable inputs. In addition, the AFA's WIFA had \$8.1 million invested in guaranteed investment contracts as well as \$41.8 million in money market funds that were recorded at cost.

## 2. Universities-Affiliated Component Units

#### a. Investment Summary

The investments held by the ASUEP and the U of A Foundation at June 30, 2022, were as follows (expressed in thousands):

| Investment Type  | <br>Fair Value  |
|--|-----------------|
| Money market funds and cash equivalents                          | \$<br>10,746    |
| Domestic/international equity securities and mutual funds        | 956,205         |
| Domestic/international fixed income obligations and mutual funds | 421,774         |
| Absolute return limited partnerships and funds                   | 245,738         |
| Diversifying strategies  | 210,963         |
| Real assets  | 188,847         |
| Private capital limited partnerships                             | 680,221         |
| Other  | 249,018         |
| Total  | \$<br>2,963,512 |

## b. Investments Classified in Fair Value Hierarchy

The investments held by the ASUEP and the U of A Foundation at June 30, 2022, categorized within the fair value hierarchy, were as follows (expressed in thousands):

|  |               | Fair V   | alue Measuremen   | t Using  |

| U of A Foundation – U.S. fixed income funds                        | 102,179       |  |   |  |
| Total investments measured at the NAV                              | 1,099,718     |  |   |  |
| Total investments measured at fair value                           | \$ 2,963,512  |  |   |  |

Investments categorized as Level 1 of the fair value hierarchy are valued using quoted prices in active markets for identical assets or liabilities which provides the most reliable fair value measurement because it is directly observable to the market. Investments categorized as Level 2 of the fair value hierarchy are valued using other significant observable inputs such as quoted prices for similar securities, interest rates, or credit risk, which are either directly or indirectly observable as of the report date. Investments categorized as Level 3 of the fair value hierarchy are measured using management's best estimate of fair value, where the inputs included in the determination of fair value are not observable and require significant management judgment or estimation. The ASUEP also had liabilities at fair value totaling \$409,523, including \$3,290 in unrealized swap liability valued using level 2 valuation techniques, and \$406,233 in assets held for others valued using level 3 valuation techniques.

## c. Investments Measured at the NAV

The investments held by the ASUEP and the U of A Foundation at June 30, 2022, valued using the NAV per share, and were as follows (expressed in thousands):

| Investments Measured at the NAV   | Fair Value   | Unfunded<br>Commitments | Redemption<br>Frequency (if<br>Currently Eligible) | Redemption<br>Notice<br>Period |
|---|--------------|-------------------------|--|--------------------------------|

# D. RECEIVABLES

#### 1. Component Units

#### a. Loans Receivables

The AFA's WIFA has made loans to local governments and others in Arizona to finance various projects pursuant to the requirements of the Clean Water and Safe Drinking Water Acts. The loans are generally payable in semi-annual installments due January 1 and July 1 of each year, including interest. However, several loans are payable monthly or quarterly. Changes in the program loans during fiscal year 2022 were as follows (expressed in thousands):

|                     | Beginning<br>Balance | Increases    | Decreases       | Ending<br>Balance |
|---------------------|----------------------|--------------|-----------------|-------------------|
| Clean Water Fund    | \$<br>278,656        | \$<br>7,398  | \$<br>(41,297)  | \$<br>244,757     |
| Drinking Water Fund | 445,332              | 81,661       | (62,187)        | 464,806           |
| Total               | \$<br>723,988        | \$<br>89,059 | \$<br>(103,484) | \$<br>709,563     |

Repayment of these loans will be made from pledged property taxes, net revenues from the systems, transaction privilege taxes, or from special assessments. Most loans have a 0.30% to 3.00% annual administrative fee. When loans have been repaid, the principal and interest for the pledged loans are placed in restricted accounts used to make bond payments. For loans that are not pledged, the money is placed in a fund from which additional loans are made.

Some program loans require a monthly or quarterly payment into a debt service reserve to assure payments of the loans. The debt service reserve is a liability of the AFA's WIFA to the borrowers and interest on the reserve accrues to the borrowers. As of June 30, 2022, the debt service reserves were \$4 thousand and \$1.7 million for the Clean Water and Drinking Water funds, respectively, and no allowance for loan loss was recorded.

#### b. Other Receivables

The DIFIGF provides payment for settlement of covered claims and return of unearned premiums under certain property and casualty insurance contracts of insolvent insurance companies in accordance with A.R.S. Title 20, Chapter 3, Article 6, and contractual obligations under certain life, annuity and disability insurance contracts of insolvent insurance companies in accordance with A.R.S. Title 20, Chapter 3, Article 7.

To provide funding for the payments of claims, the DIFIGF may direct the payment of assessments by member insurers under A.R.S. § 20-666 and A.R.S. § 20-686. Assessments under A.R.S. § 20-666 may not exceed 1% of net direct written premiums by member insurers. Under A.R.S. § 20-686, there are two classes of assessments: Class A assessments that are paid by each member insurer to cover administrative costs and other general expenses; and Class B assessments levied by account and paid by member insurers licensed to write insurance covered by the account, that pay the costs related to an impaired insurer or insolvent insurer pursuant to A.R.S. § 20-686 on a member insurer for each account may not exceed 2% of that member insurer's average annual premium received in the State during the three calendar years preceding the year in which an insurer becomes impaired or insolvent.

Unbilled assessments are recorded in the financial statements as expected future billings to cover the best estimate of liability for insolvencies that have been recognized but all or a portion of the full assessment has not been billed. At December 31, 2021, other receivables were as follows (expressed in thousands):

| Other Receivables              | <u> </u> | DIFIGF  |  |  |
|--------------------------------|----------|---------|--|--|
| Other receivables - current    |          |         |  |  |
| Member assessments             | \$       | 4,853   |  |  |
| Other receivables – noncurrent |          |         |  |  |
| Unbilled assessments           |          | 124,484 |  |  |
| Other receivables – total      | \$       | 129,337 |  |  |

See Note 15.K. for claims liabilities.

## 2. Universities-Affiliated Component Units

#### a. Pledges Receivable

Pledges receivable (unconditional promises to give) are recorded at their net realizable value, which is net of a discount and loss allowance. The ASUEP's pledges are discounted using the applicable risk free rate at the date the pledge was recognized. The discount rates range from 0.60% to 6.00%. An allowance for uncollectible pledges is estimated based on the ASUEP's collection history and is recorded as a reduction to contribution support and revenue and an increase in the allowance for uncollectible pledges.

Pledges receivable, as of June 30, 2022, include the following (expressed in thousands):

|                                     | ASU Enterprise<br>Partners |          |  |  |
|-------------------------------------|----------------------------|----------|--|--|
| Gross pledges receivable            | \$                         | 216,827  |  |  |
| Present value discount              |                            | (13,293) |  |  |
| Allowance for uncollectible pledges |                            | (47,712) |  |  |
| Net pledges receivable              | \$                         | 155,822  |  |  |

# E. DIRECT FINANCING LEASE AGREEMENTS

## 1. ASUEP

The ASUEP leases a portion of the Fulton Center building (the ASUEP's headquarters) to the ASU under a direct financing lease. At the end of lease, the ASUEP and affiliates will gift their portion of the building to the ASU and the ASU will receive title to the building. The ASUEP's net investment in this direct financing lease at June 30, 2022 is \$17.0 million.

# 2. ACFFC

Pursuant to a Sublease Agreement, dated April 7, 2004 and amended on December 1, 2017 (the Sublease), Nanotechnology Research, LLC, a wholly-owned subsidiary of the ACFFC, leases its interest in the Research Park to the ASU. The ASU will make lease payments at times in amounts sufficient to pay all principal and interest on the Series 2009B and 2017 Bonds. The Sublease has successive annual renewals without action from either party through the period ending March 31, 2034. The Sublease is subject to early termination by Nanotechnology or the ASU upon the payment in full of the Series 2009B and 2017 Bonds. Upon termination or expiration of the Sublease, the ACFFC's interest in the premises, including all buildings and improvements on the leased premises, transfers to the ASU without further consideration. The ACFFC's net investment in the Nanotechnology facility direct financing lease is \$22.3 million at June 30, 2022.

Pursuant to the ASU Lease Agreement, dated July 1, 2005, McAllister Academic Village, LLC, a wholly-owned subsidiary of the ACFFC, leases its interest in the non-residential portion of Hassayampa Academic Village (Hassayampa, HAV) to the ASU which consists of the academic, tutorial, retail, and food service facilities. The lease was amended effective July 1, 2016 to change the annual renewal period through June 30, 2039 to correspond with the maturity of the Hassayampa 2016 Bonds. Any right, title, or interest of Hassayampa in and to the academic portions of the Hassayampa project will pass to the ASU without further cost upon payment in full of the Hassayampa 2016 Bonds. Lease payments are based on the fixed interest rates determined by the Hassayampa 2016 Bonds maturity schedules. The ACFFC's net investment in the McAllister (HAV) direct financing lease is \$9.5 million at June 30, 2022.

## F. CAPITAL ASSETS

## 1. Component Units

Capital assets for Rio Nuevo for the fiscal year ended June 30, 2022 include the following (expressed in thousands):

|                                | R  | io Nuevo |
|--------------------------------|----|----------|
| Land and other non-depreciable | \$ | 33,387   |
| Buildings and improvements     |    | 152,002  |
| Equipment                      |    | 1,910    |
| Total cost                     |    | 187,299  |
| Less: accumulated depreciation |    | (34,524) |
| Total capital assets, net      | \$ | 152,775  |

## 2. Universities-Affiliated Component Units

Capital assets for the ACFFC for the fiscal year ended June 30, 2022 include the following (expressed in thousands):

|                                    | ACFFC |           |  |  |
|------------------------------------|-------|-----------|--|--|
| Buildings and improvements         | \$    | 196,723   |  |  |
| Furniture, fixtures, and equipment |       | 79,165    |  |  |
| Total cost or donated value        |       | 275,888   |  |  |
| Less: accumulated depreciation     |       | (171,281) |  |  |
| Total property and equipment, net  | \$    | 104,607   |  |  |

#### G. LONG-TERM OBLIGATIONS

#### 1. Component Units

#### a. Summary of Revenue Bonds

AFA's WIFA bonds are callable and interest is payable semiannually. The bonds are special obligations of AFA's WIFA payable solely from and secured by the AFA's WIFA assets. The obligations are not obligations, general, specific, or otherwise, of the State or any other political subdivision, thereof, other than the AFA's WIFA.

In December 2014, AFA's WIFA issued \$342.6 million of Water Quality Revenue Refunding Bond Series 2014A for the purpose of advance refunding a portion of the 2006 Water Quality Revenue Bonds, 2008 Water Quality Revenue Bonds, 2009 Water Quality Revenue Bonds, 2010 Water Quality Revenue Bonds, and the 2012 Water Quality Refunding Bonds. Under the terms of the refunding issue, sufficient assets to pay all principal and interest in the refunded bond issues had been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues refunded. As of June 30, 2022, there were no defeased bonds still outstanding.

In January 2018, AFA's WIFA defeased \$46.1 million of Water Quality Revenue Bonds, Series 2010A, 2010R, 2012A, and 2014R using their own resources. Sufficient assets to pay all principal and interest in the defeased bonds had been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues defeased. The amount of the defeased bonds still outstanding as of June 30, 2022, was \$23.0 million.

In May 2018, AFA's WIFA defeased \$81.6 million of Water Quality Revenue Bonds, Series 2014R using their own resources. Sufficient assets to pay all principal and interest in the defeased bonds had been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues defeased. The amount of the defeased bonds still outstanding as of June 30, 2022, was \$81.6 million.

In December 2020, AFA's WIFA defeased \$46.6 million of Water Quality Revenue Bonds, Series 2012A using their own resources. Sufficient assets to pay all principal and interest in the defeased bonds had been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues defeased. The amount of the defeased bonds still outstanding as of June 30, 2022, was \$46.6 million.

The security for the bonds includes a pledge of monies and investments in the accounts held by the Trustee and the Financial Assistance accounts held for AFA's WIFA by the State Treasurer and all pledged loans.

The following schedule summarizes AFA's WIFA revenue bonds outstanding at June 30, 2022 (expressed in thousands):

|                           | Dates<br>Issued | Maturity<br>Dates | Interest Rates | Outstanding<br>Balance at<br>June 30, 2022 |
|---------------------------|-----------------|-------------------|----------------|--|
| Revenue Bonds Outstanding | 2012 - 2015     | 2023 - 2028       | 2.00 - 5.00%   | \$ 218,510                                 |

Principal and interest debt service payments on AFA's WIFA revenue bonds outstanding at June 30, 2022 were as follows (expressed in thousands):

|                | <b>Annual Debt Service</b> |           |    |          |    |         |  |

| 2028           |                            | 40,320    |    | 903      |    | 41,223  |  |
| Total          | \$                         | 218,510   | \$ | 32,303   | \$ | 250,813 |  |

#### b. Summary of Direct Placements

In August 2019, the Rio Nuevo issued \$120.3 million in Series 2019A and 2019B private placement tax exempt loans to refund \$47.6 million of outstanding 2016A and 2016B Series bonds and to finance certain new capital projects related to the Tucson Convention Center. The 2016 Series bonds were a refunding of prior bonds. The difference between the reacquisition price and the net carrying amount of the prior refunded debt is recorded as a deferred outflow of resources and is being amortized to interest expense on a straight-line basis through fiscal year 2025, the remaining life of the original amortization period. Principal and interest on the Series 2019A and 2019B loans are payable semiannually on July 15 and January 15 each year through July 15, 2035 with an interest rate of 2.69%. The Rio Nuevo has pledged to the trustee future sales tax revenues to repay the loans. The loans require the Rio Nuevo to be in compliance with a debt service coverage ratio of 1.10 times. In the event the Rio Nuevo's ratio falls below that threshold, the Rio Nuevo is required to set aside sales tax revenues in a Revenue Stabilization Fund until the ratio has met the threshold.

The following schedule summarizes Rio Nuevo's direct placements outstanding at June 30, 2022 (expressed in thousands):

|                               | Dates<br>Issued | Maturity<br>Dates | Interest Rates | В  | itstanding<br>alance at<br>ie 30, 2022 |
|-------------------------------|-----------------|-------------------|----------------|----|--|
| Direct Placements Outstanding | 2020            | 2023 - 2035       | 2.69%          | \$ | 102,461                                |

Principal and interest debt service payments on Rio Nuevo's direct placements outstanding at June 30, 2022 were as follows (expressed in thousands):

|                | Annual Debt Service |           |    |          |    |         |  |
|----------------|---------------------|-----------|----|----------|----|---------|--|
| Fiscal<br>Year | I                   | Principal |    | Interest |    | Total   |  |
| 2023           | \$                  | 6,166     | \$ | 2,756    | \$ | 8,922   |  |
| 2024           |                     | 6,332     |    | 2,590    |    | 8,922   |  |
| 2025           |                     | 6,502     |    | 2,420    |    | 8,922   |  |

# H. TAX ABATEMENTS

The Rio Nuevo receives tax increment financing from state sales tax revenue that can be used to enter into tax rebate agreements with local developers for the purpose of attracting or retaining businesses and new development within the Rio Nuevo District. These tax rebate agreements meet the GASB definition of tax abatements. Rebates reduce the Rio Nuevo recorded state sales tax revenue. As of June 30, 2022, the Rio Nuevo has approved the following tax abatement agreements over \$5.0 million (expressed in thousands):

| Project                                      | gene<br>proje | rebates<br>erated by<br>ect during<br>Year 2022 | rebate<br>by pr | ulative tax<br>s generated<br>oject as of<br>e 30, 2022 | Project<br>Rebate Cap |

# I. CONDUIT DEBT

The purpose of the AFA's AIDA is to provide a cost-effective mechanism through which private borrowers can seek financing from private sources through either a private placement or public offering of taxable or tax-exempt bonds issued by the AFA's AIDA. The primary use of funds has been for affordable housing, charter school projects, and health-related facilities.

Although bonds are issued in the name of the AFA's AIDA, loans funded through the bonds are solely the obligation of the underlying borrowers and are documented by loan repayment agreements. The AFA's AIDA bonds do not constitute nor create a general, special, or other obligation or other indebtedness of the State or any governmental unit within the meaning of any constitutional or statutory debt limitation. The bonds do not constitute a legal debt of the State and are not enforceable against the State. At June 30, 2022, the outstanding face value of all bonds of the AFA's AIDA was \$8.7 billion.

In March, 2020 the AFA's AIDA formed a wholly owned subsidiary, AZIDA CLN Sponsor 1, LLC, an Arizona limited liability company (Primary Sponsor) which is controlled by the AFA's AIDA board of directors. The Primary Sponsor has the ability to purchase existing municipal bonds and related derivative contracts as well as issue up to \$500.0 million of taxable Primary Notes to be issued in multiple series. The AFA's AIDA has the ability to purchase all of the Primary Notes and issue up to \$500.0 million of taxable Credit Linked Notes which will be limited obligations payable solely from the revenues on the Primary Notes. The purpose of this setup is to allow the AFA's AIDA to enter into pass through derivative transactions with the Credit Linked Notes to separate the tax-exempt income from the credit risk exposure. All of the payments and risks will be transferred to the ultimate investor when it purchases the Credit Linked Notes. On May 4, 2020 the AFA's AIDA issued \$470.0 million Credit Linked Notes, Series 2020-01 through 2020-25 with interest rates ranging from 2.46% to 4.02% and maturity dates ranging from fiscal year 2035 to 2051.

The purpose of the AFA's GADA is to provide cost-effective capital for local communities, certain special districts, and tribal governments for public infrastructure projects. The bond structure allows it to lower borrowing costs for Arizona's communities by issuing and selling bonds tax-exempt and by sharing financing costs among several borrowers. Principal and interest are payable semiannually. Loans are secured by the Pledged Collateral Reserve Fund, a requirement that is calculated and deposited by the AFA's GADA from its fund, which is held by the State Treasurer. Some borrowers also have separate, additional reserve funds, which are held by the Trustee. An intercept mechanism of State-shared revenues for political subdivisions enhances the security of the bonds.

In previous years, the State appropriated a total of \$20.0 million to the AFA's GADA for the express purpose of securing bonds. Although issued in the name of the AFA's GADA, loans funded through the bonds are solely the obligation of the underlying borrowers and are documented by loan repayment agreements. Pursuant to A.R.S. § 41-2259, the bonds do not constitute nor create a general, special, or other obligation or other indebtedness of the State or any governmental unit within the meaning of any constitutional or statutory debt limitation. The bonds do not constitute a legal debt of the State and are not enforceable against the State. The only exposure to the State is related to the *restricted* net position of \$12.0 million in the Pledged Collateral Reserve Fund. At June 30, 2022, the total outstanding face value of all bonds issued by the AFA's GADA was \$7.1 million.

# J. NONEXCHANGE FINANCIAL GUARANTEES

In accordance with the A.R.S. Title 41, Chapter 56, Article 11, the APSCE has guaranteed outstanding bond obligations of achievement district schools within the State in the amount of \$343.4 million at June 30, 2022. The program leverage ratio will not exceed a ratio of 3.5:1 as a result of the approval of the guaranteed financing being considered. The guarantees extend through the maturity dates of the bonds with the last maturity dates ranging from 2047 to 2056.

If the ASPCE makes a payment in connection with a guaranteed financing from the fund in the event that an achievement school district is unable to make a required debt service payment on a guaranteed bond, the school on whose behalf the payment was made shall repay the amount of the payment plus interest at a rate that is 100 basis points higher than the true interest rate on the guaranteed financing as determined by the ASPCE. Repayments shall be made to the ASPCE fund in equal monthly installments over a twelve-month period or another period as determined by the ASPCE. After the stated repayment period, any outstanding repayment balance shall become immediately due and payable. Any repayment amount owed to the ASPCE that is not otherwise paid remains a lawful obligation of the school and shall be paid from any other monies lawfully available to the school. This may include one or more of the following: (1) the right to all or a portion of the proceeds from the sale or lease of any property serving as collateral for a guaranteed financing, (2) the right to intercept any payments or monies otherwise payable to the school, and (3) the right to any insurance proceeds otherwise

payable to the school. Additionally, on request of the ASPCE, the Attorney General shall take any actions necessary to enforce repayment of fund monies by a school.

# K. INSURANCE LOSSES

The DIFIGF records claims liability when the reported loss is probable and reasonably estimated based on reserves established by either experienced claims adjusters of the DIFIGF, by a third party administrator handling claim files, or by actuaries. The claims liability includes an estimate for IBNR claims.

The following table presents the changes in claims liabilities balances (short and long-term combined) during the years ended December 31, 2020 and December 31, 2021 (expressed in thousands):

| Calendar Year   | 1  | Beginning<br>Balance | Current Year<br>Claims and<br>Changes in<br>Estimates | <br>Claims<br>Payments | <br>Ending<br>Balance |
|---|----|----------------------|---|------------------------|-----------------------|
| Department of Insurance and Financial<br>Institutions Guaranty Funds: |    |                      |   |                        |                       |
| 2020  | \$ | 263,228              | \$<br>11,203  | \$<br>(22,298)         | \$<br>252,133         |
| 2021  | \$ | 252,133              | \$<br>(2,343)   | \$<br>(18,561)         | \$<br>231,229         |

See Note 15.D.1.b. for additional background information on claims liabilities and the related receivables.

# L. ACCOUNTING CHANGES

Net Assets has been restated for the Universities - Affiliated Component Units as follows (expressed in thousands):

|  |    | versities – Affiliated |
|--|----|------------------------|
|  | (  | Component Units        |
| Net Assets, as previously reported June 30, 2021 | \$ | 2,884,790              |
| Net change in reporting entity                   |    | 60,145                 |
| Net Assets, as restated July 1, 2021             | \$ | 2,944,935              |

## Change in reporting entity

The U of A Alumni Association, previously reported as a discrete component unit of the State affiliated with the Universities, was removed from the reporting entity. During the fiscal year 2022, all of the net assets of the U of A Alumni Association were transferred to the U of A Foundation to create a University and Alumni Development Program. Elimination of the U of A Alumni Association resulted in a \$9.9 million decrease to beginning net assets.

In fiscal year 2021, the U of A entered into an affiliation agreement with the U of A Global Campus (UAGC). In January 2022, the U of A announced its intent to acquire the UAGC and integrate its operations into the U of A. The two organizations have commenced a formal planning process and are working with applicable accreditation agencies to plan for the transition. After the affiliation agreement between the U of A and the UAGC was amended and the U of A joined the UAGC's Temporary Provisional Program Participation Agreement with the U.S. Department of Education, both of which occurred in January 2022, it was determined that the UAGC met the criteria for inclusion as a discrete component unit of the State affiliated with the Universities resulting in a \$70.0 million increase to beginning net assets.

#### STATE OF ARIZONA REQUIRED SUPPLEMENTARY INFORMATION **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY COMPARISON SCHEDULES** JUNE 30, 2022

#### A. RECONCILIATION OF BUDGETARY TO GAAP EXPENDITURES

The accompanying Budgetary Comparison Schedules for the General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund present comparisons of the legally adopted budget with actual expenditure data on the budgetary basis. The original budget represents any appropriation bills passed by June 30, 2021 that affect available appropriations during fiscal year 2022. The final budget represents any appropriation bills passed during fiscal year 2022 for fiscal year 2022 plus the original budget. Appropriation bills passed after the end of fiscal year 2022 for fiscal year 2022 would also be included in the final budget.

The Budgetary Comparison Schedules present actual amounts on the State's budgetary basis for expenditures only. The Schedules include appropriations authorized in one fund and transferred, by legislation, to another fund. The State does not have a legally adopted budget for revenues; therefore, only expenditures are presented on the Budgetary Comparison Schedule, Expenditures for the General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund. As the budgetary and GAAP presentations of actual data differ, a reconciliation of the two follows (amounts expressed in thousands):

| Uses/outflows of resources  | General Fund     | Transportation<br>Aviation Planni<br>Highway<br>Maintenance | ing,<br>& |
|---|------------------|---|-----------|
|   | <br>General Fund | Safety Fund   |           |
| Actual expenditure amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule   | \$<br>31,456,561 | \$ 58:  | 5,802     |
| Differences – budget to GAAP:   |                  |   |           |
| Increase (decrease) in unpaid incurred expenditures from fiscal year end  |                  |   |           |
| 2021 to fiscal year end 2022.   | (63,408)         | 26  | 7,836     |
| Increase in unpaid payroll expenditures from fiscal year end 2021 to<br>fiscal year end 2022. For budgetary reporting, final June 2021 payroll<br>expenditures were charged to fiscal year 2022 budget and final June<br>2022 payroll expenditures were charged to fiscal year 2023 budget. | 10,124           |   |           |
|   | 10,124           |   |           |

There were no expenditures in excess of appropriations or allotments in the individual budget accounts for the year.

#### STATE OF ARIZONA REQUIRED SUPPLEMENTARY INFORMATION **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY COMPARISON SCHEDULES** JUNE 30, 2022

#### **B. BUDGETARY BASIS OF ACCOUNTING**

Formulation of the budget begins with the preparation of estimates of expenditure requirements by the head of each budgeted agency and institution. These estimates are submitted no later than September 1 of each year to the Governor's Office of Strategic Planning and Budgeting (OSPB), unless an extension is granted for up to an additional 30 days by the OSPB Director. The budget is prepared by line item and/or program elements for each agency.

The budget document, as finally developed by the Governor, must be submitted to the Legislature no later than five days after the regular session convenes. The Legislature must approve the budget by passing a general and a capital outlay appropriation bill and various omnibus reconciliation bills, which are used for statutory adjustments that must be implemented to carry out the budget. The Governor may veto any item in an appropriation bill. Such vetoes are subject to legislative overrides. The budget can be amended throughout the year by special legislative appropriations and/or budget transfers. The State's Constitution prohibits the appropriation of certain state revenues (primarily tax and fee collections) from exceeding 7.41% of Arizona personal income as estimated by the Economic Estimates Commission.

The State prepares its operating budget on the cash basis of accounting. At the time of the appropriation bill's passage, estimates prepared by legislative and executive branch professional staff assure the State Legislature that adequate revenues will be available to meet the level of appropriations approved. Anticipated revenue is estimated on the cash basis but is not part of the legally adopted budget. Consequently, the accompanying Budgetary Comparison Schedules only present budget to actual expenditure comparisons.

The Budgetary Comparison Schedules present all appropriation line items as passed by the State Legislature in order to demonstrate compliance with the legal level of budgetary control.

The State budgets on an annual basis. The budget format used by the State Legislature determines how an agency's appropriation appears in the General Appropriation Act. A less detailed format provides an agency with more discretion in implementing the budget. Conversely, a more detailed format may require an agency to use formal processes for redirecting appropriated funds. Among the choices are the following:

Lump Sum - The appropriation of an agency for each fiscal year consists of a single dollar amount, thereby allowing the agency to shift funds among line items, programs, and subprograms without further Legislative or Executive Branch review.

Lump Sum with Special Line Items - The appropriation of an agency for each fiscal year consists of a dollar amount for an operating budget and dollar amounts for individual special line items. Special line items are particular programs for which the Legislature has a specific policy interest. These line items may or may not include Full Time Equivalent positions. Agencies are typically permitted to transfer funding between line items with Executive Branch approval but without further Legislative Branch review. Footnotes may require Joint Legislative Budget Committee review, however, prior to transfers between certain line items.

During the fiscal year, \$3.5 billion in supplemental appropriations, net of mid-year reversions and adjustments, were provided to the General Fund. The Transportation and Aviation Planning, Highway Maintenance and Safety Fund appropriations increased by \$0.2 million. These amounts are included in the Budgetary Comparison Schedules.

State agencies are responsible for exercising budgetary control and ensuring that expenditures do not exceed appropriations. The ADOA's General Accounting Office exercises oversight and does not disburse funds in excess of appropriations.

The Governor shall have in continuous process of preparation and revision a tentative budget report for the next fiscal year for which a budget report is required to be prepared.

Whenever the expenses of any fiscal year shall exceed the income, the Legislature may provide for levying a tax for the ensuing fiscal year sufficient, with other sources of income, to pay the deficiency, as well as the estimated expenses of the ensuing fiscal year.

All expenditures of the State's money must be authorized by law. Authorization can be granted directly by law or contingent upon appropriation from the State Legislature.

#### Information About Infrastructure Assets Reported Using the Modified Approach

As allowed by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* (GASB 34), as amended, the State of Arizona reports its roads and bridges using the modified approach. Assets accounted for under the modified approach include 9,415 center lane miles (22,383 travel lane miles) of roads and 4,927 bridges that the State is responsible to maintain.

In order to utilize the modified approach, the State is required to:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets
- · Perform condition assessments of eligible assets and summarize the results using a measurement scale
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the State
- Document that the assets are being preserved approximately at or above the established condition level

As adopted by the State Transportation Board on an annual basis, the Five-Year Transportation Facilities Construction Program (Program) contains estimated expenditures for highway system improvements and the preservation of existing roadways and bridges. Both of these factors impact the condition assessment of the roads and bridges as described in the following sections. The Program in effect for fiscal year 2022 and beyond was adopted by the Transportation Board on June 16, 2017.

This Program is a dynamic instrument and adjustments are made to the annual plans based on the needs of the State to maintain the condition level of the roads and bridges at a level equal to, or greater than, the goals established by the State. In addition, not only are adjustments made during the life of the Program, circumstances may require that refinements to the individual components of the Program be made during the fiscal year.

In comparing Estimated to Actual Expenditures in the tables that follow, significant variances can occur. These variances are primarily due to the methodology used in the preparation of the Program. In this Program, the Estimated Expenditures for the current year are based on "programmed" projects which may or may not be spent in the current year of the Program. Programmed expenditures consist of those items that are planned for the future, with contracts that have not yet been awarded. Furthermore, the Actual Expenditures will include projects that were programmed for a prior year's Estimated Expenditures but which did not occur, or were not completed, in the prior year.

The following information pertains to the condition assessment and maintenance of infrastructure assets and reflects the State's success in achieving condition levels that exceed the established levels.

#### Roads

The mission of the ADOT's Pavement Management Section (PMS) is to develop and provide a cost-effective pavement rehabilitation construction program that preserves the State's investment in its highway system and enhances public transportation and safety. The requirements of GASB 34 and the PMS both work toward the same basic goal, the efficient, effective management of the State's assets to produce long-term benefits, while minimizing expenditures.

The PMS has developed performance goals for the condition level of the pavement in the State's highway system. These goals require periodic assessment of pavement conditions and the budget level needed to meet that goal. The goal is expressed as a measure called "Serviceability", which can be defined as the ability of a pavement to serve the traveling public (as documented in 1961 after the American Association of State Highway and Transportation Officials (AASHTO) Road Test, 1956-1961). Serviceability is based on detailed measurements of objective features of the pavement. Many surveys since the original road test have shown that these measurements closely track the subjective opinion of the traveling public. Most commonly, this number is called the "Present Serviceability Rating" (PSR).

| Numerical Rating | PSR        | Weaver/AASHTO Scale |
|------------------|------------|---------------------|
| 5                | Excellent  | Perfect             |
| 4                | Good       | Very Good           |
| 3                | Fair       | Good                |
| 2                | Poor       | Fair                |
| 1                | Very Poor  | Poor                |
| 0                | Impassable | Very Poor           |

PSR is a five-point scale (5 excellent, 0 impassable), similar to the Weaver/AASHTO Scale shown as follows:

The goal of the State is to maintain a condition level (PSR) rating of 3.23 or better for all roads in the State's highway system. Annually, Transportation Material Technicians drive over the system with inertial profiling equipment and measure the roughness of the pavement. This process is continuous throughout the year in order to assess the condition level of all pavement on an annual basis. As of the end of fiscal year 2022, an overall rating of 3.51 was achieved, as shown in the following graph:

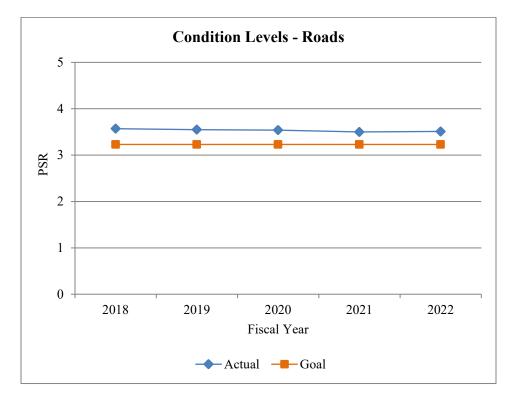

Figure 1

Preservation of the roads is accomplished through programs managed primarily by the ADOT's PMS, as well as other units within the ADOT. The estimated (as specified in the Program as programmed amounts) and actual expenditures for fiscal years 2018 through 2022 were as follows:

| Fiscal Year | Estimated Expenditures<br>(in millions) | Actual Expenditures<br>(in millions) |
|-------------|---|--------------------------------------|
| 2018        | \$375.0                                 | \$218.0                              |
| 2019        | \$364.6                                 | \$231.0                              |
| 2020        | \$509.0                                 | \$294.0                              |
| 2021        | \$371.2                                 | \$209.4                              |
| 2022        | \$845.8                                 | \$374.4                              |

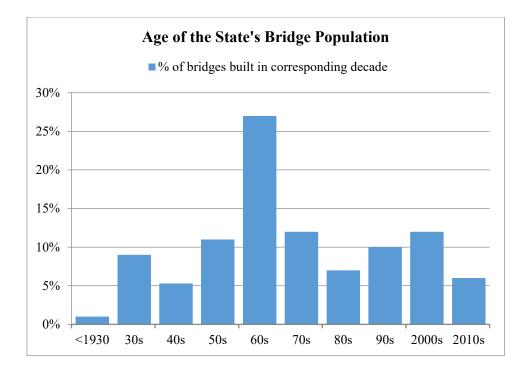

#### Bridges

The State's bridge assets constitute a significant portion of all infrastructure assets in Arizona. As of June 30, 2022, the State owned and maintained 4,927 bridges with an approximate total deck area of 46,298,832 square feet. Bridges, for purposes of this report, include all structures erected over an opening or depression with a centerline of 20 feet or more. Information related to these bridges is stored and updated in the AASHTO's Bridge Management System (BMS). This system is used to efficiently manage the bridge inventory through storing all bridge related data and assisting bridge engineers in arriving at appropriate bridge preservation decisions. Also, BMS is used for reporting bridge inventory and condition, on an annual basis, to the Federal Highway Administration (FHWA).

Historically, a Condition Rating Index (CRI) has been used to track the condition of the bridge network. The CRI was based on four selected bridge inspection condition ratings, which in turn were based on standards established in the FHWA's "Recording and Coding Guide for the Structural Inventory of the Nation's Bridges."

In 2015, the FHWA issued new rules which have had the effect of replacing the CRI as the summary statistic for bridge condition. Instead, the various states are expected to maintain their bridges so that no more than 10% are classified as Poor. Financial sanctions are held against states that do not comply with this standard. Management of the bridge inventory is a major function of the State's Bridge Group and regularly scheduled biennial inspections are made of all bridges. A civil or structural engineer, licensed to practice in Arizona, performs these inspections. In fiscal year 2022, 0.6% of bridges maintained by the State were classified as Poor.

Bridges represent a major public investment, and their inspection and maintenance is an essential function of the State in its mission of providing products and services for a safe, efficient, and cost-effective transportation system. Figure 2 indicates that approximately 72% of the bridges in the State were constructed in 1980 and prior while only 28% have been constructed after 1980.

Preservation of the bridges is accomplished through programs managed by the Bridge Group. The estimated (as specified in the Program as programmed amounts) and actual expenditures for fiscal years 2018 through 2022 were as follows:

| Fiscal Year | Estimated Expenditures<br>(in millions) | Actual Expenditures<br>(in millions) |
|-------------|---|--------------------------------------|
| 2018        | \$26.4                                  | \$15.3                               |
| 2019        | \$28.1                                  | \$17.8                               |
| 2020        | \$20.1                                  | \$11.6                               |
| 2021        | \$358.2                                 | \$202.0                              |
| 2022        | \$228.3                                 | \$101.1                              |

(1) The State implemented GASB 68 in fiscal year 2015. Therefore, ten years of data is not available, but will be accumulated over time.

(2) State contributions reflect adjustments for employer-paid member contributions. Each year there is an immaterial difference between the estimated amount of employer-paid member contributions and the amount recognized by PSPRS. Fiscal year 2017 was restated using the employer contributions PSPRS recognized.

(3) As part of a one-time appropriation, the State contributed \$500,000 in fiscal year 2021 to reduce the unfunded accrued liability.

(4) As part of a one-time appropriation, the State contributed \$420,560 in fiscal year 2022 to reduce the unfunded accrued liability.

The Notes to Required Supplementary Information are an integral part of this schedule.

#### STATE OF ARIZONA REQUIRED SUPPLEMENTARY INFORMATION **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION PLAN SCHEDULES** JUNE 30, 2022

#### A. ACTUARIALLY DETERMINED CONTRIBUTION RATES

Actuarial determined contribution rates for PSPRS and CORP are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

| Actuarial cost method  | Entry age normal   |
|--|--|
| Amortization method  | PSPRS (Tiers 1 & 2) members and CORP members: Level dollar, closed   |
|  | PSPRS (Tier 3) members: Level dollar, closed   |
| Remaining amortization period,<br>as of the 2020 actuarial valuation | PSPRS (Tiers 1 & 2) members and CORP members: 15 years<br>PSPRS (Tier 3) members: 10 years   |
| Asset valuation method   | PSPRS (Tiers 1 & 2) members and CORP members: 7-year smoothed market value, 80%/120% market corridor   |
|  | PSPRS (Tier 3) members: 5-year smoothed market value, 80%/120% market corridor   |
| Actuarial assumptions:   |  |
| Investment rate of return  | PSPRS (Tiers 1 & 2) members, and CORP members with initial membership date before July 1, 2018:  |
|  | In the 2019 actuarial valuation, the investment rate of return was decreased from 7.4% to 7.3%.  |
|  | In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%.  |
|  | In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%.   |
|  | In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85%.   |
|  | PSPRS (Tier 3) members: 7.0%   |
| Projected salary increases   | In the 2017 actuarial valuation, projected salary increases were decreased from 4.0%-8.0% to 3.5%-7.5% for PSPRS and from 4.0%-7.25% to 3.5%-6.5% for CORP.  |
|  | In the 2014 actuarial valuation, projected salary increases were decreased from 4.5%-8.5% to 4.0%-8.0% for PSPRS and from 4.5%-7.75% to 4.0%-7.25% for CORP.   |
|  | In the 2013 actuarial valuation, projected salary increases were decreased from 5.0%–9.0% to 4.5%–8.5% for PSPRS and from 5.0%–8.25% to 4.5%–7.75% for CORP.   |
| Wage growth  | In the 2020 actuarial valuation, wage growth was decreased from 3.5% to 3.0% for CORP.   |
|  | In the 2017 actuarial valuation, wage growth was decreased from 4.0% to 3.5% for PSPRS and CORP.   |
|  | In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0% for PSPRS and CORP.   |
|  | In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS and CORP.   |
| Retirement age   | Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period July 1, 2011 - June 30, 2016.   |
|  | In the 2012 valuation, the experience study covered the period July 1, 2006 - June 30, 2011.   |
| Mortality  | In the 2020 actuarial valuation, changed to PubS-2010 tables, with 75% of MP-2019 fully generational projection scales.  |
|  | In the 2019 actuarial valuation, changed to PubS-2010 tables, with 75% of MP-2018 fully generational projection scales.  |
|  | In the 2017 actuarial valuation, changed to RP-2014 tables, with 75% of MP-2016 fully generational projection scales. PubS-2010 mortality table (adjusted by 110% for both males and females for PSPRS and by 125% for males and 115% for CORP.) |

#### **B. FACTORS THAT AFFECT TRENDS**

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS, CORP, and EORP changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS and EORP also reduced those members' employee contribution rates. These changes are reflected in the plans' pension liabilities for fiscal year 2015 (measurement date 2014) for members who were retired as of the law's effective date and fiscal year 2018 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes also increased the PSPRS and CORP required pension contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS and CORP required contributions beginning in fiscal year

#### STATE OF ARIZONA REQUIRED SUPPLEMENTARY INFORMATION **NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION PLAN SCHEDULES** JUNE 30, 2022

2019 for members who retired or will retire after the law's effective date. EORP required contributions are not based on actuarial valuations, and therefore, these changes did not affect them.

The fiscal year 2019 (measurement date 2018) pension liabilities for EORP and CORP reflect the replacement of the permanent benefit increase (PBI) for retirees based on investment returns with a cost-of-living adjustment based on inflation. Also, the EORP liability and required pension contributions for fiscal year 2019 reflect a statutory change that requires the employer contribution rate to be actuarially determined. This change increased the discount rate used to calculate the liability thereby reducing the total pension liability.

In fiscal year 2021 (measurement date 2019), mortality tables were updated for EORP to the PubG-2010 tables with future mortality improvements each year using scale MP-2018. Withdrawal, disability and retirement assumptions were updated, and the assumption regarding future cost of living increases for Tier 1 members were increased. Also, the investment rate of return was decreased from 7.4% to 7.3%.

In fiscal year 2022 (measurement date 2020), the amortization method was changed for PSPRS (Tiers 1 and 2), CORP, and EORP to use a layered amortization approach. Wage growth was decreased from 3.5% to 3.0% for CORP and from 3.5% to 2.5% for EORP.

## NON-MAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

The Public Safety and Correctional Programs Fund accounts for law enforcement, military, custody, and related services provided to the general public.

The Environmental Protection Fund accounts for the protection of the State's public health by administering the State's environmental quality laws and delegating federal programs to prevent, control, and abate pollution of our air, water, and land resources.

The Healthcare and Social Services Fund accounts for health and welfare services provided to the general public.

The Tobacco Tax and Healthcare Fund accounts for the receipt of monies levied on tobacco products. The monies are used for health education programs; research, prevention and treatment of tobacco related diseases; to increase the quality of, and access to, the early childhood development and health system that ensures a child entering school comes healthy and ready to succeed; and for medically needy healthcare programs.

The Judicial and Legal Services Fund accounts for the anti-racketeering, consumer protection, consumer fraud, anti-trust, and collections enforcement programs of the Attorney General's Office and statewide court improvement functions supervised by the Arizona Supreme Court.

The Regulating and Licensing Fund accounts for inspection and regulatory services provided to the general public.

The Game and Fish Fund accounts for the receipt of monies collected by the Department of Game and Fish for various hunting and fishing licenses, for the purpose of conserving, enhancing, and restoring Arizona's diverse wildlife resources and habitats, as well as providing safe watercraft and off-highway vehicle recreation.

The State Parks Development Fund accounts for the receipt of monies collected by the State Parks Fund for the purpose of acquiring and developing State park lands, sites and facilities.

The Business Development Fund accounts for the promotion of statewide economic and community development, which supports a globally competitive Arizona.

**The Educational Programs Fund** accounts for supplemental building needs and instructional improvement programs specifically identified in a voter initiative that enacted a six-tenth of one percent statewide sales tax dedicated to education functions. The Educational Programs Fund supports programs from the kindergarten through university educational levels.

The Groundwater Protection and Conservation Fund accounts for strategic water resources planning, Colorado River water management, drought management planning, dam safety, flood mitigation, administration of the Arizona Groundwater Management Code, and administration of water rights. These programs are the responsibility of the Department of Water Resources.

The Clean Elections System Fund accounts for fines and fees collected to pay for campaign expenses of statewide candidates and State legislative candidates who choose not to accept private source campaign funds. The fund was established as a result of a voter initiative.

## NON-MAJOR GOVERNMENTAL FUND CAPITAL PROJECTS FUND

**The Department of Transportation Financed Fund** administers the proceeds from the Highway Revenue Bonds, Transportation Excise Tax Revenue Bonds, and Grant Anticipation Notes issued by the Arizona Department of Transportation Board. These monies are expended for the construction of projects in the Five-Year Transportation Facilities Construction Program.

## NON-MAJOR PROPRIETARY FUNDS ENTERPRISE FUNDS

Enterprise Funds account for operations (a) financed and operated in a manner similar to private business enterprises, where the State intends that the cost of providing goods or services to the general public be financed or recovered primarily through service charges, or (b) where the State decides that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The Lottery Fund accounts for the revenues received from the sale of lottery tickets, the receipt of license fees, prize payments, operational expenses, including consulting, promotional, and advertising expenses, and transfers of monies to other State funds.

The Arizona Correctional Industries Fund employs prison inmates in its manufacturing, service, and agricultural operations for the sale of goods and services primarily to other State agencies (including the Arizona Department of Corrections, Rehabilitation & Reentry) and political subdivisions.

The Coliseum & Exposition Center Fund provides rental space to a variety of entertainment and promotional lessees, and sponsors the annual State Fair.

The Industrial Commission Special Fund accounts for the payment of workers' compensation claims that are not covered by the Risk Management Division of the Department of Administration, private insurance carriers, and self-insured employers.

The Highway Expansion & Extension Loan Program provides the State and communities in Arizona a new financing mechanism to stretch limited transportation dollars and bridge the gap between needs and available revenues.

The Other Enterprise Funds consist of the Veterans Administration Reimbursement Fund, the State Home for Veterans Trust Fund, and the State Parks Revenue Fund.

## NON-MAJOR PROPRIETARY FUNDS INTERNAL SERVICE FUNDS

Internal Service Funds account for the financing of goods and services provided by one State department or agency to other State departments or agencies on a cost-reimbursement basis.

The Risk Management Fund provides insurance coverage to all State agencies using an optimal combination of self-insurance and private excess insurance. It includes the Workers' Compensation section that receives monies from State agencies and uses these monies to pay for insurance and risk management services including loss control services and self-insured liability losses.

The Transportation Vehicle and Equipment Fund is primarily funded by the charges it collects from the ADOT, other State agencies, and local organizations to support a statewide fleet operation and replacement program, and repair and maintenance for vehicles and equipment.

The Health Insurance Trust Fund (HITF) administers the State's benefits program available to State employees and retirees.

**The Telecommunication Fund** receives monies from State agencies for services related to administering the State's contracts for the installation and maintenance of telecommunications equipment through the Telecommunications Program Office.

The Automation Operations Fund receives monies from State agencies for services related to the implementation and operation of automation programs throughout the State.

The Retiree Accumulated Sick Leave Fund accounts for monies paid out to retirees for their accumulated sick leave.

**The Motor Pool Fund** receives monies from State agencies for the use of State vehicles and uses these monies for operation of the State Motor Pool. The assets and operations were transferred to the Transportation Vehicle and Equipment Fund in the current fiscal year; however, some assets remain in the Motor Pool Fund at the end of the fiscal year.

**The Other** Internal Service Funds consist of the Personnel Division Funds, the Information Technology Fund, the Special Services Fund, the Surplus Property Funds, the Legal Services Cost Allocation Fund, the Stimulus Statewide Administration Funds, and the Construction Insurance Fund.

# FIDUCIARY FUNDS PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

Pension Trust Funds account for transactions of the four public employee retirement systems for which the State acts as trustee.

The Arizona State Retirement System (ASRS) is a cost-sharing, multiple-employer pension system that benefits employees of public schools, the State and its political subdivisions.

The Public Safety Personnel Retirement System (PSPRS) is an agent multiple-employer pension system that benefits fire fighters and police officers employed by the State and its political subdivisions.

The Elected Officials' Retirement Plan (EORP) is a cost-sharing, multiple-employer pension plan that benefits all elected State and county officials and judges and certain elected city officials.

The Corrections Officer Retirement Plan (CORP) is an agent multiple-employer pension plan that benefits town, city and county detention officers and certain employees of the State's Department of Corrections, Rehabilitation & Reentry and Department of Juvenile Corrections.

• The Administrative Office of the Courts Probation Officers (AOC) is a cost-sharing, multiple-employer pension plan within CORP that benefits county probation officers.

Other Employee Benefit Trust Funds account for health insurance premium subsidies paid by the ASRS, PSPRS, EORP, CORP, and AOC, as well as long-term disability benefits paid by the ASRS to State employees and employees of other governmental entities participating in the plans.

The ASRS Health Benefit Supplement Fund is a benefit cost-sharing, multiple-employer post-employment benefit plan that provides for health insurance premium subsidies to eligible retired and disabled members.

The ASRS Long-Term Disability Fund is a benefit cost-sharing, multiple-employer post-employment benefit plan that provides for long term disability benefits to eligible participants.

The PSPRS Health Benefit Supplement Fund is a benefit agent multiple-employer post-employment benefit plan that provides for health insurance premium subsidies to eligible retired and disabled members.

The EORP Health Benefit Supplement Fund is a benefit cost-sharing, multiple-employer post-employment benefit plan that provides for health insurance premium subsidies to eligible retired and disabled members.

The CORP Health Benefit Supplement Fund is a benefit agent multiple-employer post-employment benefit plan that provides for health insurance premium subsidies to eligible retired and disabled members.

The AOC Health Benefit Supplement Fund is a benefit cost-sharing, multiple-employer post-employment benefit plan that provides for health insurance premium subsidies to eligible retired and disabled members.

#### OTHER EMPLOYEE BENEFIT TRUST FUNDS

# FIDUCIARY FUNDS PRIVATE-PURPOSE TRUST FUNDS

Private-Purpose Trust Funds account for and reports resources held in trust or trust equivalent arrangements which benefit individuals.

The AZ529 accounts for individual savings accounts held with financial institutions outside the State of Arizona that is exempt from taxation to the extent that income is used to pay for qualified higher education expenses of the designated beneficiary.

**The Development Disabilities Client Investment** accounts for monies belonging to individuals enrolled with the Department of Economic Security's Division of Development Disabilities (DDD) who need assistance in handling their funds. The DDD is the representative payee for these individuals and is authorized to administer their funds on their behalf.

# FIDUCIARY FUNDS CUSTODIAL FUNDS

Custodial Funds account for and report resources held by the State in a purely custodial capacity for individuals, organizations, or other governmental units. These funds do not have a trust or trust equivalent arrangement that meet GASB criteria.

The Consumer Restitution fund consists of monies collected by the Attorney General and the Corporation Commission as a result of court ordered judgments for the purpose of compensating victims of economic loss resulting from violations of consumer protection laws.

The Prisoner Spendable Accounts fund accounts for the savings of prisoners of the Department of Corrections, Rehabilitation & Reentry.

The Child Support fund accounts for court-ordered child support payments that flow through the Department of Economic Security.

The Registrar of Contractors fund consists of monies collected by the Registrar of Contractors from contractors applying for licenses which may be withdrawn, if there are no outstanding claims against them, two years after the termination of the license.

**The Condemnation Fund** consists of monies received from other governmental units as offers to purchase condemned property in the State of Arizona which are distributed to property owners upon court ordered judgment. The monies are held by the State Treasurer's Office.

The Custodial Securities Held with Treasurer consist of securities held in safekeeping with the State Treasurer by various State agencies.

The External Investment Pool accounts for assets held by the State Treasurer for local governments and political subdivisions of the State of Arizona which have elected to invest cash with the State Treasurer's Office.

# NON-MAJOR COMPONENT UNITS

Component units are legally separate entities for which the State is considered to be financially accountable. GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.

**The Arizona Power Authority** purchases the State's allocation of power produced at the federally owned Boulder Canyon Project hydropower plant and resells it to Arizona entities that are eligible purchasers under federal and state laws.

The Rio Nuevo Multipurpose Facilities District (Rio Nuevo) utilizes tax incremental financing to help develop multipurpose facilities in the downtown Tucson area.

The Arizona Public School Credit Enhancement program assists achievement district schools in obtaining more favorable financing by guaranteeing the payment of principal and interest on guaranteed financings issued by or on behalf of achievement district schools.

The Arizona Commerce Authority is charged with the following responsibilities: job creation and expansion of capital investment through business attraction, expansion and retention, including business incubation and entrepreneurship; creation, monitoring, and execution of a comprehensive economic and workforce strategy; management and administration of economic development and workforce programs; providing statewide marketing leadership; utilization of all means necessary, prudent and practical to integrate private sector-based innovation, flexibility, focus and responsiveness; and advancement of public policy to meet the State's economic development objectives.

The Department of Insurance and Financial Institutions Guaranty Funds pay for claims against insolvent insurance companies under certain property and casualty insurance contracts (also includes return of unearned premiums) and contractual obligations under certain life, annuity and disability insurance contracts.

### NET (EXPENSE) REVENUE AND CHANGES IN NET POSITION

# NON-MAJOR UNIVERSITIES – AFFILIATED COMPONENT UNITS

Component units of the State affiliated with the Universities are legally separate, tax-exempt organizations controlled by separate boards of directors that meet the criteria established in GASB, with the exception of the University of Arizona Campus Research Corporation (CRC). The CRC is included because the U of A approves the budget and can access its resources.

The Northern Arizona University Foundation, Inc. receives gifts and bequests, administers and invests securities and property, and disburses payments to and on behalf of the NAU for advancement of its mission.

The Arizona Capital Facilities Finance Corporation provides facilities for use by students of ASU or ASU itself.

Sun Angel Foundation receives funds primarily through donations, and contributes funds to the ASU in support of various athletic programs.

Arizona State University Research Park, Inc. manages a research park to promote and support research activities in coordination with the ASU.

The Arizona State University Alumni Association receives funds primarily through donations, dues, and affinity partners, which are used to promote the welfare of the ASU and its alumni.

The Arizona State University Preparatory Academy, Inc. prepares Arizona K-12 students for success with a universityembedded academic program that empowers them to complete college, compete globally, and contribute to their communities.

The University of Arizona Law College Association (Law Association) was established to provide support and financial assistance to the College of Law at the U of A. The Law Association funds provide support to the College on many levels, from endowed student scholarships to named faculty professorships.

The University of Arizona Campus Research Corporation was established to assist the U of A in the acquisition, improvement, and operation of the U of A Science and Technology Park and related properties.

The University of Arizona Global Campus was established to expand access to higher education for adult learners and other non-traditional students, expand and accelerate online higher education offerings aimed at workforce and economic development goals with the State of Arizona, and extend those same offerings to a national and international student audience consistent with the mission of the U of A.

The University of Arizona Eller Executive Education was established to advance the missions of the Eller College of Management and the U of A through noncredit, non-degree programs for business, government, and nonprofit leaders.

STATISTICAL SECTION

# STATISTICAL SECTION

This part of the State of Arizona's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

**Financial Trends** – *Schedules 1 through 4* contain trend information to help the reader understand how the State's financial performance and well-being have changed over time.

**Revenue Capacity** – *Schedules 5 through 9* contain information to help the reader assess the State's most significant ownsource revenues, the sales tax, and personal income tax.

**Debt Capacity** – *Schedules 10 through 19* present information to help the reader assess the affordability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.

**Demographic and Economic Information** – *Schedules 20 and 21* offer demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place and to help make comparisons over time and among other governments.

**Operating Information** – *Schedules 22 through 24* contain service and infrastructure data to help the reader understand how the information in the State's financial report relates to the services the State provides and the activities it performs.

## STATE OF ARIZONA SCHEDULE 1 **NET POSITION BY COMPONENT** (1) FOR THE LAST TEN FISCAL YEARS FISCAL YEAR ENDED JUNE 30, 2022

(1) This schedule reports using the accrual basis of accounting.

(2) Fiscal year 2013 unrestricted net position for the Universities was restated as a result of GASB Statement No. 65 to expense debt issuance costs.

(3) Fiscal year 2014 net investment in capital assets was restated due to a correction of an error related to the private prisons' capital leases.

(4) Fiscal year 2014 unrestricted net position has been restated due to the implementation of GASB Statement No. 68.

- (5) Fiscal year 2014 restricted net position was restated due to the fund reclassification of the Insurance Department Guaranty Fund (IDGF).
- (6) Fiscal year 2015 net investment in capital assets and unrestricted net position was restated due to the fund reclassification of the Arizona Highways Magazine Fund.
- (7) Fiscal year 2015 net investment in capital assets and unrestricted net position for the Universities was restated due to the implementation of GASB Statement No. 72.
- (8) Fiscal year 2016 unrestricted net position for the Universities was restated due to the reclassification of Thunderbird School of Global Management from a discrete non-major university component unit to a blended university component unit.
- (9) Fiscal year 2017 unrestricted net position has been restated due to the implementation of GASB Statement No. 75.
- (10) Fiscal year 2017 restricted net position has been restated due to correction of error of intergovernmental revenue for the General Fund.
- (11) Fiscal year 2017 restricted net position has been restated due to correction of error of accrued insurance losses for the IDGF.
- (12) Beginning in fiscal year 2018, the Arizona Industries for the Blind was no longer part of the State's reporting entity.
- (13) Fiscal year 2018 unrestricted net position has been restated due to correction of error of investment earnings for the Land Endowments Fund.
- (14) Fiscal year 2019 restricted and unrestricted net position has been restated due to reclassification of the IDGF from a non-major enterprise fund to a non-major component unit.
- (15) Fiscal year 2019 restricted net position has been restated due to change in allocation of a joint escrow bank account from the Other non-major enterprise fund to the Industrial Commission Special Fund and the IDGF.
- (16) Fiscal year 2019 unrestricted net position has been restated due to change from amortizing ADOT's bond premiums on a straight-line basis to the effective interest method.
- (17) Fiscal year 2020 unrestricted net position has been restated due to implementation of GASB Statement No. 84.
- (18) Fiscal year 2021 unrestricted net position for the Universities has been restated due to inclusion of the BIOS as a blended university component unit.
- (19) Fiscal year 2021 unrestricted net position and net investment in capital assets have been restated due to the fund reclassification of the State Park's fund.
- (20) Fiscal year 2021 net investment in capital assets have been restated for the prior year accruals of construction in progress for the Department of Veteran Services.
- (21) Fiscal year 2021 restricted net position has been restated due to the implementation of GASB 87 in which a capital lease was reclassified to a COP for the Game & Fish Beneficial Interest Certificates.
- (22) Fiscal year 2021 unrestricted net position for the Universities has been restated due to the implementation of GASB 87.
- (23) Fiscal year 2021 restricted net position has been restated to the ADOT changing the calculation on deferred gains/losses on refundings from amortizing bond premiums on a straight-line basis to the effective interest method.

(1) This schedule reports using the accrual basis of accounting.

(2) In fiscal year 2020, the Unemployment Compensation changed from a non-major fund to a major fund.

(3) Fiscal year 2013 expenses for the Universities were restated as a result of GASB Statement No. 65 to expense debt issuance costs.

(4) Health and Welfare expenses continue to climb as a result of enrollment increases.

(5) For fiscal year 2015, Industrial Commission Special Fund changed from a major to a non-major fund.

(6) Historical data has not been restated for footnote items (3) - (11) and (14) - (23) in Schedule 1.

(7) Beginning in fiscal year 2018, the Arizona Industries for the Blind was no longer part of the State's reporting entity.

(8) Fiscal year 2018 operating grants and contributions has been restated due to correction of error for the Land Endowments Fund.

(9) In fiscal year 2022, operating grants and contributions and the associated cost of sales and benefits for the Unemployment Compensation Fund decreased as a result of decreasing pandemic related activities.

(1) This schedule reports using the modified accrual basis of accounting.

(2) Fiscal year 2015 unassigned fund balance was restated as a result of funds being reclassified from the General Fund to Other Internal Service Funds.

(3) Fiscal year 2015 unassigned fund balance was restated due to the fund reclassification of the Arizona Highways Magazine Fund.

(4) Fiscal year 2017 restricted fund balance was restated due to correction of error of intergovernmental revenue for the General Fund.

(5) In fiscal year 2018, negative unassigned fund balance for the General Fund was reduced against restricted and committed fund balance.

(6) Fiscal year 2018 nonspendable fund balance has been restated due to correction of error of investment earnings for the Land Endowments Fund.

(7) Fiscal year 2020 unassigned fund balance has been restated due to the implementation of GASB 84.

(8) Fiscal year 2021 committed fund balance has been restated due to the fund reclassification of the State Park's fund.

(9) Fiscal year 2021 restricted fund balance has been restated due to the implementation of GASB 87 in which a capital lease was reclassified to a COP for the Game & Fish Beneficial Interest Certificates.

(1) This schedule reports using the modified accrual basis of accounting.

(2) Historical data has not been restated for footnote items (2) - (3) and (7) - (9) in Schedule 3.

(3) Fiscal year 2017 intergovernmental revenue was restated due to correction of error for the General Fund.

(4) Fiscal year 2018 earnings on investments has been restated due to correction of error for the Land Endowments Fund.

(5) Beginning in fiscal year 2022, new line item added due to the implementation of GASB 87. Lessors recognize interest revenue on the lease receivable and an amortization revenues from the deferred inflows of resources in a systematic and rational manner over the term of the lease.

(1) Net taxable sales are based upon tax receipts.

(2) The transporting/towing and railroads/aircraft business classifications have been combined into one category and renamed "transporting."

(3) Commercial lease rate dropped to 0% effective July 1, 1997.

(4) A significant portion of the revenue base was subject to a sales tax rate of 6.6% for fiscal year 2013 and 5.6% for fiscal years 2014 through 2022.

For fiscal years 2013 through 2022, the tax rate for non-metal mining, oil and gas was 3.125% and the mining severance was 2.5%. For fiscal years 2013 through 2017, the jet fuel and jet fuel use tax was \$.0305 per gallon. As of fiscal year 2018, jet fuel and jet fuel tax amount per gallon were no longer being reported by the Arizona Department of Revenue as the taxes collected are designated for the Arizona Department of Transportation's State Aviation Fund. The hotel/motel tax rate was 6.5% for fiscal years 2013, and 5.5% for fiscal years 2014 through 2022. Online lodging marketplace was 5.5% for fiscal years 2020 through 2022. Per the Arizona Constitution, Article 9, Section 22, the Legislature can raise tax rates with an affirmative vote of two-thirds of the members of each house. The 1.00% rate increase approved under Proposition 100 on May 18, 2010 increased the state transaction privilege and use rate by one percentage point beginning June 1, 2010 and ending May 31, 2013, which is reflected in this table.

(5) The names of the ten largest revenue payers are not available. Therefore, the categories are intended to provide alternative information regarding the sources of the State's revenue.

(6) Rental occupancy was repealed effective November 1, 2006.

(7) MRRA - Maintenance, Repair, Replacement or Alteration projects

(8) Remote seller/marketplace facilitator tax was effective October 1, 2019.

(9) Prior to fiscal year 2020, this category was combined with Hotel/motel.

(10) The Medical Marijuana was previously reported as part of the Retail category. Beginning with the January 2021 period, medical marijuana is reported in a separate category.

(11) The Adult Use Marijuana revenue reflects a partial year in fiscal year 2021 as the tax began in January 2021.

(1) The education tax is .6% of net taxable sales for most classifications. The categories that do not collect the education tax are non-metal mining, oil and gas, mining severances, hotel/motel, online lodging marketplace, and jet fuel taxes. The Arizona Department of Revenue's annual report does not include the amount of education tax collected from each classification; rather it reports the total collected from all classifications. The education tax became effective June 1, 2001.

- (2) MRRA Maintenance, Repair, Replacement or Alteration projects
- (3) Effective August 1, 2017, the taxes collected are designated for the Arizona Department of Transportation's State Aviation Fund.
- (4) The Medical marijuana was previously reported as part of the Retail category. Beginning with the January 2021 period, medical marijuana is reported in a separate category.
- (5) Effective beginning in fiscal year 2022, the Education tax has been extended until fiscal year 2041.

(1) Personal income tax revenue includes income tax collections and refunds, on a cash basis, for the fiscal year ending the following June 30.

(2) Personal income is reported on a calendar basis. Years 2012 through 2021 have been revised to reflect revisions made by the U.S. Bureau of Economic Analysis.

(3) The total direct rate for personal income is not available. Average effective rate equals tax collections for the fiscal year, ending the following June 30, divided by personal income.

(4) Income ranges shown are for single and married filing separate returns. For all other filing status returns, double the amounts for the income tax ranges. Per the Arizona Constitution, Article 9, Section 22, the Legislature can raise tax rates with a vote of two-thirds of the members of each house. Taxable income ranges fluctuate annually; the amounts listed are for the latest calendar year.

Note: Details regarding the State's outstanding debt can be found in the notes to the financial statements.

(1) See Schedule 20 for personal income and population data. These ratios are calculated using personal income and population data for the calendar year that ends during that fiscal year. For example, fiscal year 2022 contains data for the calendar year ending December 31, 2021.

(2) Implementation of GASB Statement No. 65 in fiscal year 2014 required the amortization of deferred amount on refundings to be reported as deferred outflow of resources.

(3) For fiscal year 2014, capital leases related to private prisons were restated due to a correction of an error.

(4) As a result of implementation of GASB Statement No. 87 in fiscal year 2022, previously reported capital lease obligations are now reported as financed purchases.

 For fiscal years 2013 through 2022, projections are based upon the University's fiscal years 2015-2017, 2016-2018, 2017-2019, 2018-2020, 2019-2021, 2020-2022, 2021-2023, 2022-2024, 2023-2025, and 2024-2027 capital improvement plans, respectively.

(2) Per ARS §15-1683, the projected debt service on bonds and certificates of participation outstanding and proposed to be issued, as shown in the University's most recent capital improvement plan reported to the Arizona Board of Regents, may not exceed, in any fiscal year shown in such capital improvement plan, more than eight percent of the University's total projected expenditures and mandatory transfers.

(1) Full-time equivalent employees are categorized by the function of government that their respective agency generally serves. Information is not available to distinguish between governmental, business-type, or fiduciary activities.

(2) The change in fiscal year 2015 full-time equivalent employees was primarily due to the result of a division within the Department of Economic Security being established as the Department of Child Safety.

Source: The Executive Budget (Detail). Includes only those positions funded by appropriated funds approved in the Executive Budget.

| Number of driver licenses issued (6)                 | 5,850,390   | 5,873,322  | 5,678,867  | 5,369,964  | 5,285,723  | 5,165,719  |
| Natural resources:                                   |             |            |            |            |            |            |
| Game and Fish Department's license and tag sales (7) | 533,480     | 592,633    | 670,781    | 552,770    | 530,500    | 519,555    |
| Universities:  |             |            |            |            |            |            |
| University full-time equivalent students (8)         | 195,722     | 190,600    | 184,561    | 176,594    | 170,861    | 165,536    |
| Unemployment compensation:                           |             |            |            |            |            |            |
| Number of initial unemployment claims filed (9)      | 150,330     | 443,841    | 873,422    | 197,855    | 214,590    | 223,084    |
|  |             |            |            |            |            |            |

(1) Some figures may represent time periods other than a fiscal year (such as an academic or calendar year), as indicated in the notes below.

(2) Approximate number of members enrolled as of June 1. Excludes membership in the Healthcare Group, which ceased operations on December 31, 2013. (3) Numbers represent total recordable cases and incident rates for the calendar year ended December 31. The fiscal years above contain data for the calendar year that ends during that fiscal year. For example, fiscal year 2022 contains data for the calendar year ending December 31, 2021. One hundred full-time workers represent 200,000 hours worked (100 times 40 hours per week times 50 weeks per year).

(4) These enrollment counts represent a head count of all active enrollments on October 1st of each school year. The fiscal years above contain data for the academic year that occurs during that fiscal year. For example, fiscal year 2022 contains data from the October 1, 2021 enrollment figures.

(5) Count represents the total number of vehicles registered as of the end of the fiscal year. In fiscal year 2020, ADOT implemented a new system which improved reporting and lowered the count over the prior year. Reporting in prior years included an unassigned category for unregistered vehicles such as disability placards for tracking purposes.

Through fiscal year 2014, count represents the number of driver licenses issued during that fiscal year, beginning July 1 and ending June 30. Beginning (6) fiscal year 2015, count represents the total number of driver licenses.

(7) Numbers represent sales for licenses, stamps, and tags for the calendar year ended December 31. The fiscal years above contain data for the calendar year that ends during that fiscal year. For example, fiscal year 2022 contains data for the calendar year ending December 31, 2021. Beginning fiscal year 2016, total number of tag sales was not available.

(8) Enrollment figures represent the number of full-time equivalent students for the fall semester. The fiscal years above contain data for the fall semester that occurs during that fiscal year. For example, fiscal year 2022 contains data for the fall 2021 semester. These figures are generated by calculating one full-time equivalent student for each 15 student credit hours produced in lower-division undergraduate courses, each 12 student credit hours produced in upper-division undergraduate courses, and each 10 student credit hours produced in graduate courses.

(9)The number of unemployment claims increased significantly in fiscal year 2020 as a direct result of the COVID-19 pandemic effect on the economy and employment.

|---|-------------|-----------|-----------|-----------|-----------|-----------|-----------|
|   | 2022        | 2021      | 2020      | 2019      | 2018      | 2017      | 2016      |
| FUNCTIONS/PROGRAMS                          |             |           |           |           |           |           |           |
| Protection and safety:                      |             |           |           |           |           |           |           |
| Number of adult prison facilities (2)       | 9           | 10        | 10        | 10        | 10        | 10        | 10        |
| Transportation:                             |             |           |           |           |           |           |           |
| Public road mileage (center lane miles) (1) | 9,415       | 9,449     | 6,822     | 6,822     | 6,775     | 6,780     | 6,822     |
| Number of bridges (1)                       | 4,927       | 4,920     | 4,900     | 4,860     | 4,855     | 4,810     | 4,858     |
| Natural resources:                          |             |           |           |           |           |           |           |
| State Trust acres                           | 9,188,113   | 9,186,793 | 9,207,861 | 9,207,430 | 9,215,392 | 9,215,795 | 9,216,213 |
| Universities:                               |             |           |           |           |           |           |           |
| Number of facilities (3)                    | 1,263       | 1,251     | 1,242     | 1,238     | 1,251     | 1,267     | 1,268     |
| Gross square feet (in thousands) (3)        | 51,291      | 50,322    | 49,247    | 48,693    | 48,248    | 47,437    | 44,665    |

Note: No capital asset indicators are available for the general government, health and welfare, inspection and regulation, education, and other business-type activity functions.

(1) These are the number of center lane miles and bridges that the Arizona Department of Transportation accounts for under the modified approach, which is discussed in the Required Supplementary Information portion of this report. In fiscal year 2021, new equipment was used resulting in a revision of center lane miles.

(2) The Arizona Department of Corrections, Rehabilitation & Reentry also contracts with private prison facilities to provide custody and treatment. In FY22, the State prison complex in Florence was closed due to the facility's old age. The prisoners were moved to a private prison.

(3) In addition to academic/support facilities, auxiliary enterprise facilities are also reported. These would include essentially self-supporting entities, such as residence halls and parking structures.

Sources: The State Departments of Transportation, Land, Corrections, Rehabilitation & Reentry, and the Universities.

| Fiscal Year |           |           |  |  |  |
|-------------|-----------|-----------|--|--|--|
| 2015        | 2014      | 2013      |  |  |  |
|             |           |           |  |  |  |
| 10          | 10        | 10        |  |  |  |
| 6,800       | 6,800     | 6,751     |  |  |  |
| 4,798       | 4,787     | 4,754     |  |  |  |
| 9,217,704   | 9,223,617 | 9,223,873 |  |  |  |
| 1,258       | 1,212     | 1,705     |  |  |  |
| 46,054      | 44,658    | 41,141    |  |  |  |

## ACKNOWLEDGMENTS

The Annual Comprehensive Financial Report was prepared by the Department of Administration, General Accounting Office, Financial Reporting Section:

Neil Broadstock, MBA, CPA, CMA, CGFM Tami Schuler, MEd, CGFM Christopher Lesure, MBA, CPA Melody Dickinson

Janette Wallin, CPA, CGFM Juvy Shoopman, MS, CPA Alexander Halliman, MS

Special acknowledgment goes to:

All fiscal and accounting personnel throughout the Arizona State government, whose dedicated efforts and cooperation contributed to the compilation of financial information that appears in the report.
