ICS$A – Grants (due April 30, 2023)

Each agency is responsible for establishing and maintaining an effective system of internal control. Internal controls can provide reasonable, but not absolute, assurance that an agency’s objectives—including the prevention or detection of fraud, waste and abuse—will be met. More information about internal controls and minimal internal control structure requirements can be found in Topic 05 of the State of Arizona Accounting Manual (SAAM). The internal control self-assessment is meant as a catalyst to improve agency operations and achieve agency objectives.

This survey is a self-assessment of certain internal control practices within your agency in the area of Grants. Some of these practices may not be required by policy but are nonetheless considered best practices.

If your response to a survey item is sensitive in nature, contact GAO’s Internal Audit Unit (gaointernalaudit@azdoa.gov, 602-291-0506) directly to discuss.

The items in this survey are to be rated, using either Yes/No/NA or the 5-point scale as indicated by each question. The following guidance is provided for the 5-point scale ratings:

**Not Applicable (0)** – Practice does not apply.

**Needs Improvement (1)** – Practices have not been fully implemented or are intermittent; acceptable quality and timeliness are recurring challenges.

**Fair (2)** – Practices meet the minimum expectations but are not consistently monitored; acceptable quality and timeliness are inconsistent.

**Good (3)** – Practices meet expectations and are monitored frequently; acceptable quality and timeliness are consistent.

**Very Good (4)** – Practices exceed expectations; quality and timeliness are consistently above average.

**Excellent (5)** – Practices serve as a model for other agencies and other states; quality and timeliness exceed expectations; best-in-class results.
