Processing Internal Transfers

AFIS allows for processing internal accounting transactions that take place between State Departments and within State Departments. When a transaction takes place between Departments it is called an Inter-Agency transaction. When a transaction takes place within a Department it is called an Intra-Agency transaction.

Process an Internal Purchase Order

An Internal Purchase Order (IPO) document is used to establish an Internal Encumbrance for the buyer Department’s appropriations. A request is received by the department end user for the creation of an Internal Encumbrance. The request may be related to an internal service agreement or some other type of agreement with another department that impacts appropriated funds requiring an encumbrance. The department creates an Internal Purchase Order (IPO) transaction that encumbers monies and the Chart of Accounts information is entered on the IPO document.

Procedure

Log into AFIS. Navigate to the Document Catalog

Create IPO document

1. In the Code field, enter IPO
2. Click Create
3. In the Dept. field, enter your department code
4. Click Auto Number checkbox to generate a unique ID
5. Click Create. A new document is generated

Complete the Header component. At a minimum, enter the following information:

- Document name
- Document description

Complete the Vendor component

1. You must insert a line in the Vendor component because the Vendor line contains the Accounting lines below it. However, after inserting a line on the Vendor component, all fields are left blank.

- Task

**Validate IPO document**

- Confirm that the document validated successfully in the upper left-hand corner. If it did not, please see your accounting supervisor

**Submit IPO document**

*Note: The document will be handled through workflow and will be pending the Department Approver*

**Researching Internal Purchase Order**

The IPO documents update several inquiry tables. One that will be most commonly used is the Accounting Journal. The steps to find the status of your transfer are shown below.

Navigate to the **Page Search** table

1. In the **Description** field enter – Accounting Journal

Select **Accounting Journal - JACTG**

2. Click **Search**

3. Enter the applicable **Department** and **Doc CD=IPO**

4. You can view a list of document
Process an Internal Exchange Document (IET)

The Internal Exchange Transaction (IET) document can be used to record both intra-agency and inter-agency fund transfers in a single document. The expectation is that the COA and posting information for all parties is known by the creator of the IET document. An IET document can reference and either partially or fully liquidates an Internal Purchase Order (IPO) document.

Procedure

Log into AFIS. Navigate to the Document Catalog

Create IET document

1. In the Code field, enter IET
2. Click Create
3. In the Dept. field, enter your department code
4. Click Auto Number checkbox to generate a unique ID
5. Click Create. A new document is generated

Complete the Header component. At a minimum, enter the following information:

- Initiator
  - Provider/Seller (1st Party is receiving cash)
  - Receiver/Buyer (1st Party is sending cash)

Complete the Exchange Details component. Click the Insert New Line

On the General Information tab, at a minimum, enter the following information:

Process Inter-Agency Transfers

A transfer of funds between agencies when the buyer and seller sides are to be processed by separate parties can begin with or without the creation of an encumbrance document. If no encumbrance is needed, the process begins with the creation of an Internal Transaction Initiator (ITI) document which is then copied forward to an Internal Transaction Agreement (ITA) document. When recording an Inter-Agency transaction, one Department is the buyer (Party 1) and another Department is the seller (Party 2). The first department (Party 1) creating an Internal Transaction Initiator (ITI) document can reference an Internal Purchase Order (IPO). The ITI is followed by the creation of an Internal Transaction Agreement (ITA) document that allows the second department (Party 2) to view and accept the amount billed/paid, enter the COA elements, and amount being transferred.

If an Internal Purchase Order (IPO) has been created, it can be used as a reference document for an Inter-Agency Transfer Expenditure. If the transaction involves appropriated funds and is for an amount greater than or equal to $5000, the transaction requires the submission and approval of an Internal Purchase Order (IPO) document, which is used to establish in Internal Encumbrance for the buyer Department’s appropriations.
