## Workflow 101 Purpose

This Quick Reference Guide explains the basic process of reviewing, approving, and rejecting documents that have been submitted to workflow. The approval process is also covered by the [Document Approval](#) CBT.

## Overview

### Q: What Gets Approved? (A: Documents)

*Answer:* Documents are routed for approval according to Statewide Workflow rules. The simplest documents require approval by a Department Approver; documents with more complex review requirements route to additional approvals by GAO or other centralized agencies.

### Q: How are Approvals Processed? (A: From Personal Worklists)

*Answer:* Documents awaiting approval are placed in Role Worklists. A User with a Workflow Role can go to the Role Worklist for that Workflow Role to “take” a document into the User’s Personal Worklist. From there, the person can approve or reject the document. After approval or rejection, the document either goes to the next approval level, or it is finalized.

### Q: What approval restrictions are there? (A: No self-approval)

*Answer:* By policy and system restriction, Approvers cannot approve documents that they created. This means that the user creating and submitting a document cannot also be an approver on the document. If you expect to be an approver for a document, be sure to have another user **Create** and **Submit** the document. In addition, you are not permitted to **Edit** a document and then subsequently approve it. The user creating and submitting the document takes equal responsibility for its content, so the user must review it just as an approver would.

## Worklists

Worklists hold documents that are waiting to be approved. They are found under the Message Center in the AFIS Navigation Panel.

### Role Worklist

AFIS routes documents that are pending approval to a Role Worklist; any user with the Workflow Role corresponding to the Role Worklist can take the document for approval. GAO recommends that Departments assign enough Users to the same Workflow Role to maintain normal business operations.

### Personal Worklist

To approve a document, use **Take Task** to move it from the Role Worklist into your Personal Worklist. No other user can Approve or Reject the document when it is in your Personal Worklist.

## Document Actions

1. Use **Approve** to apply your **signature** and route the document to the next approver or to Final phase. From the Document Comments page that opens next, add a Comment or Attachment to provide helpful information to the next approver or for others that might review the document in its final state.
2. Use **Reject** to return the document to the previous approver (or to the originator if you are the first approver). From the Document Comments page that opens next, add a Comment to explain any changes that are required before re-submitting the document.
3. Use **Unapprove** to remove your approval, such as when the next approver rejected the document and you want it to go back to the original submitter.

### Submitter Mistakes

- Missing Attachments
- Resubmit after rejection without reading comment

### Approver Mistakes

- Approve without review
- No instruction for next approver
- Missing explanation of Rejection

Common reasons for Rejection are listed in the box. Be sure to provide clear explanations of your actions to avoid re-work after you are done with it.

## Track Work in Progress

For any document in Pending or Final phase, use **Track Work in Progress** to view approvals and rejections that have been applied as well as who is next to approve.

Track Work in Progress - DO - A948 - PCRDWVA009B - 1

## Comments and Attachments

As stated under Document Actions, adding a Comment (and Attachment, if needed) is the most important thing you can do to communicate up and down the chain exactly what needs to be done to

## Quick Reference Guide

get the document approved, or provide necessary related information. Provide explicit instructions (which Object or Function to use, for example) if possible.

	Code	Dept.	Unit	ID	Comments	Version	Function	Phase	Status
<input type="checkbox"/>	FA	ADA		160000000592	Yes	1	New	Final	Submitted
<input type="checkbox"/>	FA	ADA		160000000600	Yes	1	New	Final	Submitted
<input type="checkbox"/>	FA	ADA		160000000606	Yes	1	New	Final	Submitted

The Document Catalog shows whether Documents have Comments. Comments are also indicated with a quote-bubble icon on the Title bar of the document.

Attachments are indicated with a paper clip icon at the Component where they are attached.

The screenshot shows the AFIS system interface. At the top left is the AFIS logo. Below it, a navigation bar displays "Welcome, Ted Spencer" and "Procurement". A status bar indicates "View All 1 of 2 | This document has associated comments." The main content area shows document details: "Fixed Asset Acquisition(FA) Dept: ADA ID: 160000000610 Ver.: 1 Function: New Phase: Final". A dropdown menu is open over the "Phase: Final" field, showing a quote-bubble icon. To the right, it says "Modified by 47958, 07/20/2015". At the bottom left, there is a "Header" section with a paperclip icon and the number "1".
